

NEXPOINT DIVERSIFIED REAL ESTATE TRUST
(formerly NexPoint Strategic Opportunities Fund)
(the “Fund”)

Supplement dated November 22, 2021 to the Fund’s Statement of Additional Information
(the “SAI”), dated August 27, 2019, as supplemented from time to time

This supplement provides new and additional information beyond that contained in the SAI and should be read in conjunction with the SAI. Capitalized terms and certain other terms used in this supplement, unless otherwise defined in this supplement, have the meanings assigned to them in the SAI.

Effective immediately, the following will replace the table entitled “Officers” in the “Management of the Trust” section beginning on page 15 of the SAI:

Name, Date of Birth, Position(s) held with the Trust and Length of Time Served, Term of Office

Principal Occupations(s) During the Past Five Years

James Dondero
(6/29/1962)

President and Principal Executive Officer since May 2015; Indefinite Term

Founder of NexPoint; Co-founder of Highland Capital Management, L.P. (“HCMLP”) and HCMFA; Chairman of the Board of NXRT since May 2015; President and a member of the investment committee of NexPoint Real Estate Finance since February 2020; Chief Executive Officer and director of NHT since December 2018; Portfolio Manager of NHF; GAF; HFRO; NexPoint Event Driven Fund (formerly Highland Healthcare Opportunities Fund) and NexPoint Merger Arbitrage Fund (each a series of HFI); Highland Small-Cap Equity Fund (a series of HFII); the BDC; and NRESF.

Dustin Norris
(1/6/1984)

Executive Vice President since April 2019; Indefinite Term

Head of Distribution and Chief Product Strategist at NexPoint since March 2019; President of NexPoint Securities, Inc. since April 2018; Head of Distribution at HCMFA from November 2017 until March 2019; Chief Product Strategist at HCMFA from September 2015 to March 2019; Officer of the Fund Complex since November 2012.

Frank Waterhouse
(4/14/1971)

Treasurer since May 2015; Principal Accounting Officer since October 2017; Principal Financial Officer since April 2021; Indefinite Term

Chief Financial Officer of Skyview Group since February 2021; Chief Financial Officer and Partner of HCMLP from December 2011 and March 2015, respectively, to February 2021; Treasurer of the Highland Funds Complex since May 2015; Principal Financial Officer October 2017 to February 2021.

Will Mabry
(7/2/1986)

Assistant Treasurer since April 2021; Indefinite Term

Director, Fund Analysis of Skyview Group since February 2021. Prior to his current role at Skyview Group, Mr. Mabry served as Senior Manager – Fund Analysis, Manager – Fund Analysis, and Senior Fund Analyst for HCMLP.

Stephanie Vitiello
(6/21/1983)

Secretary since April 2021; Chief Compliance Officer and Anti-Money
Laundering Officer since November 2021; Indefinite Term

Chief Compliance Officer and Counsel of Skyview Group since
February 2021. Prior to her current role at Skyview Group, Inc.,
Ms. Vitiello served as Managing Director – Distressed, Assistant
General Counsel, Associate General Counsel and In-House
Counsel for HCMLP.

Rahim Ibrahim
(8/17/1989)

Assistant Secretary since November 2021; Indefinite Term

Compliance Analyst for Skyview Group since May 2021. Prior to
his current role at Skyview Group, Mr. Ibrahim served as a
Compliance Associate for Loring, Wolcott & Coolidge Trust, LLC
from October 2019 until May 2021; Corporate Paralegal at
Maples Group from April 2018 to October 2019; Associate
Engagement Specialist-Compliance at Eze Software Group from
June 2017 to April 2018.

The address for each officer is c/o NexPoint Advisors, L.P., 300 Crescent Court, Suite 700, Dallas, Texas 75201.

PLEASE RETAIN THIS SUPPLEMENT FOR FUTURE REFERENCE.

NHF-SUPP-0421

Dated August 27, 2019

NexPoint Strategic Opportunities Fund

Statement of Additional Information

NexPoint Strategic Opportunities Fund (the “Trust” or “NHF”) (formerly, NexPoint Credit Strategies Fund) is a non-diversified, closed-end management investment company registered under the Investment Company Act of 1940, as amended (the “Investment Company Act”). This Statement of Additional Information (“SAI”) does not constitute a prospectus, but should be read in conjunction with the prospectus relating thereto dated August 27, 2019 (the “Prospectus”), which is incorporated by reference into this SAI. This SAI does not include all information that a prospective investor should consider before purchasing common shares, and investors should obtain and read the Prospectus prior to purchasing such shares. A copy of the Prospectus may be obtained without charge by calling 1-866-351-4440. You may also obtain a copy of the Prospectus on the U.S. Securities and Exchange Commission’s web site www.sec.gov. Capitalized terms used but not defined in this SAI have the meanings ascribed to them in the Prospectus.

This Statement of Additional Information is dated August 27, 2019

USE OF PROCEEDS

Unless otherwise specified in a Prospectus Supplement, the Trust will invest the net proceeds of any sales of securities (the "Offering") in accordance with the Trust's investment objectives and policies as stated below, or use such proceeds for other general corporate purposes. Assuming current market conditions, the Trust estimates that investment of the net proceeds of the Offering will be substantially complete within one to three months of the completion of the Offering. Pending such investment, it is anticipated that the proceeds of the Offering will be invested in cash and/or short-term debt securities.

INVESTMENT RESTRICTIONS

Fundamental Investment Restrictions. The following are the fundamental investment restrictions of the Trust, which may not be changed without the approval of the holders of a majority of the outstanding common shares and preferred shares, if any, voting together as a single class, and of the holders of a majority of the outstanding preferred shares, if any, voting as a separate class:

- (1) **The Trust will**, under normal market conditions, invest at least 25% of the value of its total assets at the time of purchase in the securities of issuers conducting their principal business activities in the real estate industry, including obligations issued or guaranteed by the U.S. Government, any state or territory of the United States or any of their agencies, instrumentalities or political subdivisions, and investments by any territory of the United States or any of their agencies, instrumentalities or political subdivisions for which the underlying collateral is real estate;

Except as described below, the Trust, as a fundamental policy, may not:

- (2) issue senior securities or borrow money other than as permitted by the Investment Company Act or pledge its assets other than to secure such issuances or in connection with hedging transactions, short sales, securities lending, when issued and forward commitment transactions and similar investment strategies;
- (3) make loans of money or property to any person, except through loans of portfolio securities up to a maximum of 33 1/3% of the Trust's total assets, the purchase of debt securities, including bank loans (senior loans) and participations therein, or the entry into repurchase agreements up to a maximum of 33 1/3% of the Trust's total assets;
- (4) underwrite the securities of other issuers, except to the extent that, in connection with the disposition of portfolio securities or the sale of its own securities, the Trust may be deemed to be an underwriter;
- (5) purchase or sell real estate, except that the Trust may invest in securities of companies that deal in real estate or are engaged in the real estate business, including real estate investment trusts and real estate operating companies, and instruments secured by real estate or interests therein and the Trust may acquire, hold and sell real estate acquired through default, liquidation, or other distributions of an interest in real estate as a result of the Trust's ownership of such other assets; or
- (6) purchase or sell commodities or commodity contracts for any purposes except as, and to the extent, permitted by applicable law without the Trust becoming subject to registration with the Commodity Futures Trading Commission (the "CFTC") as a commodity pool.

As currently relevant to the Trust, the Investment Company Act requires an asset coverage of 200% for a closed-end fund issuing preferred shares and 300% for a closed-end fund issuing borrowings (excluding certain temporary borrowings). The Trust will not engage in any secured borrowings constituting senior securities described under investment restriction number 2 pursuant to which the lenders would be able to foreclose on more than 33 1/3% of the Trust's total assets, measured at the date of the initial borrowing.

Non-Fundamental Investment Restrictions. The Trust is also subject to the following non-fundamental restrictions and policies, which may be changed by the Board of Trustees of the Trust (the "Board") and without shareholder approval. The Trust may not:

- (1) make any short sale of securities except in conformity with applicable laws, rules and regulations and unless after giving effect to such sale, the market value of all securities sold short does not exceed 25% of the value of the Trust's total assets and the Trust's aggregate short sales of a particular class of securities of an issuer does not exceed 25% of the then outstanding securities of that class. The Trust may also make short sales "against the box" without respect to such limitations. In this type of short sale, at the time of the sale, the Trust owns or has the immediate and unconditional right to acquire at no additional cost the identical security; and

- (2) purchase securities of open-end or closed-end investment companies except in compliance with the Investment Company Act or any exemptive relief obtained thereunder. Under the Investment Company Act, the Trust may invest up to 10% of

its total assets in the aggregate in shares of other investment companies and up to 5% of its total assets in any one investment company, provided the investment does not represent more than 3% of the voting stock of the acquired investment company at the time such shares are purchased. As a shareholder in any investment company, the Trust will bear its ratable share of that investment company's expenses, and will remain subject to payment of the Advisory Fees and other expenses with respect to assets so invested. Holders of common shares will therefore be subject to duplicative expenses to the extent the Trust invests in other investment companies. In addition, the securities of other investment companies may be leveraged and will therefore be subject to the risks of leverage. The NAV and market value of leveraged shares will be more volatile and the yield to shareholders will tend to fluctuate more than the yield generated by unleveraged shares.

In addition, to comply with the federal tax requirements for qualification as a registered investment company, the Trust's investments must meet certain diversification requirements. See "Tax Matters."

For purposes of this SAI, a "majority of the outstanding" shares means (a) 67% or more of the Trust's outstanding voting securities present at a meeting, if the holders of more than 50% of its outstanding voting securities are present or represented by proxy, or (b) more than 50% of its outstanding voting securities, whichever is less.

The percentage limitations applicable to the Trust's portfolio described in the Prospectus and this SAI apply only at the time of investment, except that the percentage limitation with respect to borrowing applies at all times, and the Trust will not be required to sell securities due to subsequent changes in the value of securities it owns.

INVESTMENT POLICIES AND TECHNIQUES

The following information supplements the discussion of the Trust's investment objectives, policies and techniques that are described in the Prospectus.

The Trust's investment objectives are to provide both current income and capital appreciation. The Trust seeks to achieve its investment objectives by investing primarily in the following categories of securities and instruments of corporations and other business entities: (i) secured and unsecured floating and fixed rate loans; (ii) bonds and other debt obligations; (iii) debt obligations of stressed, distressed and bankrupt issuers; (iv) structured products, including but not limited to, mortgage-backed and other asset-backed securities and collateralized debt obligations; (v) equities; (vi) other investment companies, including business development companies ("BDCs"); and (vii) real estate investment trusts ("REITs"). The Trust may also invest in derivative instruments that have economic characteristics similar to instruments in investment categories (i) - (vii). Subject to these general guidelines, NexPoint Advisors, L.P. (the "Investment Adviser") has broad discretion to allocate the Trust's assets among these investment categories and other investments and to change allocations as conditions warrant.

There can be no assurance that the Trust will achieve its investment objective. Investors should not consider the one Trust alone to be a complete investment program. The Trust is subject to the risk of changing economic conditions, as well as the risk inherent in the ability of the portfolio manager to make changes in the composition of the Trust in anticipation of changes in economic, business and financial conditions. As with any security, a risk of loss is inherent in an investment in the shares of the Trust. The securities, investments, and investment practices used by the Trust all have attendant risks of varying degrees. As described below, an investment in the Trust entails special additional risks as a result of its ability to invest a substantial portion of their assets in foreign securities.

Unless otherwise indicated, the Trust is permitted to engage in the following investment strategies and techniques. The Trust is not obligated to pursue the following strategies or techniques and does not represent that these strategies or techniques are available now or will be available at any time in the future. The Trust will not purchase all of the following types of securities or employ all of the following strategies unless doing so is consistent with its investment objective.

Short-Term Debt Securities

For temporary defensive purposes or to keep cash on hand, the Trust may invest up to 100% of its total assets in cash equivalents and short-term debt securities. Short-term debt investments are defined to include, without limitation, the following securities, as well as pooled investment vehicles (for example, money market funds) that invest in these securities:

(1) U.S. government securities, including bills, notes and bonds differing as to maturity and rates of interest that are either issued or guaranteed by the U.S. Treasury or by U.S. government agencies or instrumentalities. U.S. government securities include securities issued by (a) the Federal Housing Administration, Farmers Home Administration, Export-Import Bank of the United States, Small

Business Administration, and Government National Mortgage Association, whose securities are supported by the full faith and credit of the United States; (b) the Federal Home Loan Banks, Federal Intermediate Credit Banks, and Tennessee Valley Authority, whose securities are supported by the right of the agency to borrow from the U.S. Treasury; (c) the Federal National Mortgage Association

(FNMA) and Federal Home Loan Mortgage Corporation (FHLMC), whose securities had historically been supported by the discretionary authority of the U.S. government to purchase certain obligations of the agencies or instrumentalities but which are now in U.S. government receivership; and (d) the Student Loan Marketing Association, whose securities are supported only by its credit. While the U.S. government provides financial support to such U.S. government-sponsored agencies or instrumentalities, no assurance can be given that it always will do so since it is not so obligated by law. The U.S. government, its agencies and instrumentalities do not guarantee the market value of their securities. Consequently, the value of such securities may fluctuate.

(2) Certificates of deposit issued against funds deposited in a bank or a savings and loan association. Such certificates are for a definite period of time, earn a specified rate of return, and are normally negotiable. The issuer of a certificate of deposit agrees to pay the amount deposited plus interest to the bearer of the certificate on the date specified thereon. Certificates of deposit purchased by the Trust may not be fully insured by the Federal Deposit Insurance Corporation.

(3) Repurchase agreements, which involve purchases of debt securities. At the time the Trust purchases securities pursuant to a repurchase agreement, it simultaneously agrees to resell and redeliver such securities to the seller, who also simultaneously agrees to buy back the securities at a fixed price and time. This assures a predetermined yield for the Trust during its holding period, because the resale price is always greater than the purchase price and reflects an agreed-upon market rate. Such actions afford an opportunity for the Trust to invest temporarily available cash. The Trust may enter into repurchase agreements only with respect to obligations of the U.S. government, its agencies or instrumentalities; certificates of deposit; or bankers' acceptances in which the Trust may invest. Repurchase agreements may be considered loans to the seller, collateralized by the underlying securities. The risk to the Trust is limited to the ability of the seller to pay the agreed-upon sum on the repurchase date; in the event of default, the repurchase agreement provides that the Trust is entitled to sell the underlying collateral. If the value of the collateral declines after the agreement is entered into, and if the seller defaults under a repurchase agreement when the value of the underlying collateral is less than the repurchase price, the Trust could incur a loss of both principal and interest. If the seller were to be subject to a federal bankruptcy proceeding, the ability of the Trust to liquidate the collateral could be delayed or impaired because of certain provisions of the bankruptcy laws.

(4) Commercial paper, which consists of short-term unsecured promissory notes, including variable rate master demand notes issued by corporations to finance their current operations. Master demand notes are direct lending arrangements between the Trust and a corporation. There is no secondary market for such notes. However, they are redeemable by the Trust at any time. NexPoint Advisors, L.P., the Trust's investment adviser (the "Investment Adviser") will consider the financial condition of the corporation (*e.g.*, earning power, cash flow and other liquidity ratios) and will continually monitor the corporation's ability to meet all of its financial obligations, because the Trust's liquidity might be impaired if the corporation were unable to pay principal and interest on demand. Investments in commercial paper will be limited to commercial paper rated in the highest categories by a major rating agency and which mature within one year of the date of purchase or carry a variable or floating rate of interest.

Equity Securities

The Trust may invest in equity securities including preferred stock, convertible securities, warrants and depository receipts.

Preferred Stock. Preferred stock has a preference over common stock in liquidation (and generally dividends as well) but is subordinated to the liabilities of the issuer in all respects. As a general rule, the market value of preferred stock with a fixed dividend rate and no conversion element varies inversely with interest rates and perceived credit risk, while the market price of convertible preferred stock generally also reflects some element of conversion value. Because preferred stock is junior to debt securities and other obligations of the issuer, deterioration in the credit quality of the issuer will cause greater changes in the value of a preferred stock than in a more senior debt security with similar stated yield characteristics. Unlike interest payments on debt securities, preferred stock dividends are payable only if declared by the issuer's board of directors. Preferred stock also may be subject to optional or mandatory redemption provisions.

Convertible Securities. A convertible security is a bond, debenture, note, preferred stock or other security that may be converted into or exchanged for a prescribed amount of common stock or other equity security of the same or a different issuer within a particular period of time at a specified price or formula. A convertible security entitles the holder to receive interest paid or accrued on debt or the dividend paid on preferred stock until the convertible security matures or is redeemed, converted or exchanged. Before conversion, convertible securities have characteristics similar to nonconvertible income securities in that they ordinarily provide a stable stream of income with generally higher yields than those of common stocks of the same or similar issuers, but lower yields than comparable nonconvertible securities. The value of a convertible security is influenced by changes in interest rates, with investment value declining as interest rates increase and increasing as interest rates decline. The credit standing of the issuer and other factors also may have an effect on the convertible security's investment value. Convertible securities rank senior to common stock in a corporation's capital structure but are usually subordinated to comparable nonconvertible securities. Convertible securities may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument.

Warrants. Warrants, which are privileges issued by corporations enabling the owners to subscribe to and purchase a specified number of shares of the corporation at a specified price during a specified period of time. Subscription rights normally have a short life span to expiration. The purchase of warrants involves the risk that the Trust could lose the purchase value of a right or warrant if

the right to subscribe to additional shares is not exercised prior to the warrants' expiration. Also, the purchase of warrants involves the risk that the effective price paid for the warrant added to the subscription price of the related security may exceed the value of the subscribed security's market price such as when there is no movement in the level of the underlying security.

Depository Receipts. The Trust may invest in both sponsored and unsponsored American Depository Receipts ("ADRs"), European Depository Receipts ("EDRs"), Global Depository Receipts ("GDRs") and other similar global instruments. ADRs typically are issued by an American bank or trust company and evidence ownership of underlying securities issued by a non-U.S. corporation. EDRs, which are sometimes referred to as Continental Depository Receipts, are receipts issued in Europe, typically by non-U.S. banks and trust companies, that evidence ownership of either non-U.S. or U.S. underlying securities. GDRs are depository receipts structured like global debt issues to facilitate trading on an international basis. Unsponsored ADR, EDR and GDR programs are organized independently and without the cooperation of the issuer of the underlying securities. As a result, available information concerning the issuer may not be as current as for sponsored ADRs, EDRs and GDRs, and the prices of unsponsored ADRs, EDRs and GDRs may be more volatile than if such instruments were sponsored by the issuer. Investments in ADRs, EDRs and GDRs may present additional investment considerations of credit or securities market investments that are either issued by entities domiciled outside of the U.S., or denominated in currencies other than the U.S. dollar, or both ("Non-U.S. Securities").

Variable and Floating Rate Instruments

The Trust may purchase rated and unrated variable and floating rate instruments. These instruments may include variable amount master demand notes that permit the indebtedness thereunder to vary in addition to providing for periodic adjustments in the interest rate. The Trust may invest in leveraged inverse floating rate debt instruments ("Inverse Floaters"). The interest rate of an Inverse Floater resets in the opposite direction from the market rate of interest to which it is indexed. An Inverse Floater may be considered to be leveraged to the extent that its interest rate varies by a magnitude that exceeds the magnitude of the change in the index rate of interest. The higher degree of leverage inherent in Inverse Floaters is associated with greater volatility in their market values. Issuers of unrated variable and floating rate instruments must satisfy the same criteria as set forth above for the Trust. The absence of an active secondary market with respect to particular variable and floating rate instruments, however, could make it difficult for the Trust to dispose of a variable or floating rate instrument if the issuer defaulted on its payment obligation or during periods when the Trust is not entitled to exercise its demand rights.

Such instruments may include variable amount master demand notes that permit the indebtedness thereunder to vary in addition to providing for periodic adjustments in the interest rate. The absence of an active secondary market with respect to particular variable and floating rate instruments could make it difficult for the Trust to dispose of a variable or floating rate note if the issuer defaulted on its payment obligation or during periods that the Trust is not entitled to exercise its demand rights, and the Trust could, for these or other reasons, suffer a loss, with respect to such instruments.

Derivative Transactions and Risk Management

Consistent with its investment objectives and policies set forth in the Prospectus and in addition to its option strategy, the Trust may also enter into certain risk management transactions. In particular, the Trust may purchase and sell futures contracts, exchange listed and over-the-counter put and call options on securities, equity and other indices and futures contracts, forward foreign currency contracts, and may enter into various interest rate transactions. Derivative Transactions may be used to attempt to protect against possible changes in the market value of the Trust's portfolio resulting from fluctuations in the securities markets and changes in interest rates, to protect the Trust's unrealized gains in the value of its portfolio securities, to facilitate the sale of such securities for investment purposes and to establish a position in the securities markets as a temporary substitute for purchasing particular securities. Any or all of these Derivative Transactions may be used at any time. There is no particular strategy that requires use of one technique rather than another. Use of any Derivative Transaction is a function of market conditions. The ability of the Trust to manage them successfully will depend on the Investment Adviser's ability to predict pertinent market movements as well as sufficient correlation among the instruments, which cannot be assured. The Derivative Transactions that the Trust may use are described below.

Futures Contracts and Options on Futures Contracts. In connection with its Derivative Transactions and other risk management strategies, the Trust may also enter into contracts for the purchase or sale for future delivery ("futures contracts") of securities, aggregates of securities or indices or prices thereof, other financial indices and U.S. government debt securities or options on the above. The Trust will engage in such transactions only for bona fide risk management and other portfolio management purposes.

Forward Foreign Currency Contracts. The Trust may enter into forward currency contracts to purchase or sell foreign currencies for a fixed amount of U.S. dollars or another foreign currency. A forward currency contract involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the forward currency contract agreed upon by the parties, at a price set at the time the forward currency contract is entered into. Forward currency contracts are traded directly between currency traders (usually large commercial banks) and their customers.

The Trust may engage in various forward currency contract strategies, including without limitation the following:

- The Trust may purchase a forward currency contract to lock in the U.S. dollar price of a security denominated in a foreign currency that the Trust intends to acquire. The Trust may sell a forward currency contract to lock in the U.S. dollar equivalent of the proceeds from the anticipated sale of a security or a dividend or interest payment denominated in a foreign currency.
- The Trust may also use forward currency contracts to shift the Trust's exposure to foreign currency exchange rate changes from one currency to another. For example, if the Trust owns securities denominated in a foreign currency and the Investment Adviser believes that currency will decline relative to another currency, the Trust might enter into a forward currency contract to sell the appropriate amount of the first foreign currency with payment to be made in the second currency.
- The Trust may also purchase forward currency contracts to enhance income when the Investment Adviser anticipates that the foreign currency will appreciate in value but securities denominated in that currency do not present attractive investment opportunities.
- The Trust may also use forward currency contracts to offset against a decline in the value of existing investments denominated in a foreign currency. Such a transaction would tend to offset both positive and negative currency fluctuations, but would not offset changes in security values caused by other factors.
- The Trust could also enter into a forward currency contract to sell another currency expected to perform similarly to the currency in which the Trust's existing investments are denominated. This type of transaction could offer advantages in terms of cost, yield or efficiency, but may not offset currency exposure as effectively as a simple forward currency transaction to sell U.S. dollars. This type of transaction may result in losses if the currency sold does not perform similarly to the currency in which the Trust's existing investments are denominated.
- The Trust may also use forward currency contracts in one currency or a basket of currencies to attempt to offset against fluctuations in the value of securities denominated in a different currency if the Investment Adviser anticipates that there will be a correlation between the two currencies.
- The cost to the Trust of engaging in forward currency contracts varies with factors such as the currency involved, the length of the contract period and the market conditions then prevailing. Because forward currency contracts are usually entered into on a principal basis, no fees or commissions are involved.
- When the Trust enters into a forward currency contract, it relies on the counterparty to make or take delivery of the underlying currency at the maturity of the contract. Failure by the counterparty to do so would result in the loss of some or all of any expected benefit of the transaction. Secondary markets generally do not exist for forward currency contracts, with the result that closing transactions generally can be made for forward currency contracts only by negotiating directly with the counterparty. Thus, there can be no assurance that the Trust will in fact be able to close out a forward currency contract at a favorable price prior to maturity. In addition, in the event of insolvency of the counterparty, the Trust might be unable to close out a forward currency contract. In either event, the Trust would continue to be subject to market risk with respect to the position, and would continue to be required to maintain a position in securities denominated in the foreign currency or to maintain cash or liquid assets in a segregated account. The precise matching of forward currency contract amounts and the value of the securities involved generally will not be possible because the value of such securities, measured in the foreign currency, will change after the forward currency contract has been established. Thus, the Trust might need to purchase or sell foreign currencies in the spot (cash) market to the extent such foreign currencies are not covered by forward currency contracts. The projection of short-term currency market movements is extremely difficult, and the successful execution of a short-term strategy is highly uncertain.

Calls on Securities, Indices and Futures Contracts. In addition to its option strategy, in order to enhance income or reduce fluctuations on NAV, the Trust may sell or purchase call options ("calls") on securities and indices based upon the prices of futures contracts and debt or equity securities that are traded on U.S. and non-U.S. securities exchanges and in the over-the-counter markets. A call option gives the purchaser of the option the right to buy, and obligates the seller to sell, the underlying security, futures contract or index at the exercise price at any time or at a specified time during the option period. All such calls sold by the Trust must be "covered" as long as the call is outstanding (*i.e.*, the Trust must own the instrument subject to the call or other securities or assets acceptable for applicable segregation and coverage requirements). A call sold by the Trust exposes the Trust during the term of the option to possible loss of opportunity to realize appreciation in the market price of the underlying security, index or futures contract and may require the Trust to hold an instrument which it might otherwise have sold. The purchase of a call gives the Trust the right to buy a security, futures contract or index at a fixed price. Calls on futures on securities must also be covered by assets or instruments acceptable under applicable segregation and coverage requirements.

Puts on Securities, Indices and Futures Contracts. In addition to its option strategy, the Trust may purchase put options (“puts”) that relate to securities (whether or not it holds such securities in its portfolio), indices or futures contracts. For the same

purposes, the Trust may also sell puts on securities, indices or futures contracts on such securities if the Trust's contingent obligations on such puts are covered by assets consisting of cash or securities having a value not less than the exercise price. In selling puts, there is a risk that the Trust may be required to buy the underlying security at a price higher than the current market price.

Interest Rate Transactions. Among the Derivative Transactions in which the Trust may enter into are interest rate swaps and the purchase or sale of interest rate caps and floors. The Trust expects to enter into these transactions primarily to preserve a return or spread on a particular investment or portion of its portfolio as a duration management technique or to protect against any increase in the price of securities the Trust anticipates purchasing at a later date. Interest rate swaps involve the exchange by the Trust with another party of their respective commitments to pay or receive interest, *e.g.*, an exchange of floating rate payments for fixed rate payments with respect to a notional amount of principal. The purchase of an interest rate cap entitles the purchaser, to the extent that a specified index exceeds a predetermined interest rate, to receive payments of interest on a notional principal amount from the party selling such interest rate cap. The purchase of an interest rate floor entitles the purchaser, to the extent that a specified index falls below a predetermined interest rate, to receive payments of interest on a notional principal amount from the party selling such interest rate floor.

The Trust may enter into interest rate swaps, caps and floors on either an asset-based or liability-based basis, depending on whether it is offsetting volatility with respect to its assets or liabilities, and will usually enter into interest rate swaps on a net basis, *i.e.*, the two payment streams are netted out, with the Trust receiving or paying, as the case may be, only the net amount of the two payments on the payment dates. Inasmuch as these Derivative Transactions are entered into for good faith risk management purposes, the Investment Adviser and the Trust will not treat them as being subject to its borrowing restrictions. The Trust will accrue the net amount of the excess, if any, of the Trust's obligations over its entitlements with respect to each interest rate swap on a daily basis and will designate on its books and records with a custodian an amount of cash or liquid securities having an aggregate NAV at all times at least equal to the accrued excess. The Trust will enter into interest rate swap, cap or floor transactions only with counterparties that are judged by the Investment Adviser to present acceptable credit risk to the Trust. If there is a default by the other party to such a transaction, the Trust will have contractual remedies pursuant to the agreements related to the transaction. The swap market has grown substantially in recent years with a large number of banks and investment banking firms acting both as principals and as agents utilizing standardized swap documentation. Caps and floors are more recent innovations for which standardized documentation has not yet been developed and, accordingly, they are less liquid than swaps.

Additional Characteristics and Risks of Derivative Transactions

In order to manage the risk of its securities portfolio, or to enhance income or gain as described in the Prospectus, the Trust will engage in Derivative Transactions. The Trust will engage in such activities in the Investment Adviser's discretion, and may not necessarily be engaging in such activities when movements in interest rates that could affect the value of the assets of the Trust occur. The Trust's ability to pursue certain of these strategies may be limited by applicable regulations of the CFTC. The Trust's Derivative Transactions may affect the amount, timing and character of distributions to shareholders and, therefore, may accelerate and/or increase the amount of taxes payable by shareholders. In addition, the Trust's ability to engage in certain Derivative Transactions may be limited by tax considerations. See "Tax Matters" below for more information.

Put and Call Options on Securities and Indices

The Trust may purchase and sell put and call options on securities and indices. A put option gives the purchaser of the option the right to sell and the writer the obligation to buy the underlying security at the exercise price during the option period. The Trust may also purchase and sell options on securities indices ("index options"). Index options are similar to options on securities except that, rather than taking or making delivery of securities underlying the option at a specified price upon exercise, an index option gives the holder the right to receive cash upon exercise of the option if the level of the securities index upon which the option is based is greater, in the case of a call, or less, in the case of a put, than the exercise price of the option. The purchase of a put option on a security could protect the Trust's holdings in a security or a number of securities against a substantial decline in the market value. A call option gives the purchaser of the option the right to buy and the seller the obligation to sell the underlying security or index at the exercise price during the option period or for a specified period prior to a fixed date. The purchase of a call option on a security could protect the Trust against an increase in the price of a security that it intended to purchase in the future. In the case of either put or call options that it has purchased, if the option expires without being sold or exercised, the Trust will experience a loss in the amount of the option premium plus any related commissions. When the Trust sells put and call options, it receives a premium as the seller of the option. The premium that the Trust receives for selling the option will serve as a partial offset, in the amount of the option premium, against changes in the value of the securities in its portfolio. During the term of the option, however, a covered call seller has, in return for the premium on the option, given up the opportunity for capital appreciation above the exercise price of the option if the value of the underlying security increases, but has retained the risk of loss should the price of the underlying security decline. Conversely, a secured put seller retains the risk of loss should the market value of the underlying security decline below the exercise price of the option, less the premium received on the sale of the option. The Trust is authorized to purchase and sell exchange listed options and over-the-counter options ("OTC

Options”) which are privately negotiated with the counterparty. Listed options are issued by the Options Clearing Corporation (“OCC”) which guarantees the performance of the obligations of the parties to such options.

The Trust's ability to close out its position as a purchaser or seller of an exchange listed put or call option is dependent upon the existence of a liquid secondary market on option exchanges. Among the possible reasons for the absence of a liquid secondary market on an exchange are: (i) insufficient trading interest in certain options; (ii) restrictions on transactions imposed by an exchange; (iii) trading halts, suspensions or other restrictions imposed with respect to particular classes or series of options or underlying securities; (iv) interruption of the normal operations on an exchange; (v) inadequacy of the facilities of an exchange or OCC to handle current trading volume; or (vi) a decision by one or more exchanges to discontinue the trading of options (or a particular class or series of options), in which event the secondary market on that exchange (or in that class or series of options) would cease to exist, although outstanding options on that exchange that had been listed by the OCC as a result of trades on that exchange would generally continue to be exercisable in accordance with their terms. OTC Options are purchased from or sold to dealers, financial institutions or other counterparties which have entered into direct agreements with the Trust. With OTC Options, such variables as expiration date, exercise price and premium will be agreed upon between the Trust and the counterparty, without the intermediation of a third party such as the OCC. If the counterparty fails to make or take delivery of the securities underlying an option it has written, or otherwise settle the transaction in accordance with the terms of that option as written, the Trust would lose the premium paid for the option as well as any anticipated benefit of the transaction.

The hours of trading for options on securities may not conform to the hours during which the underlying securities are traded. To the extent that the option markets close before the markets for the underlying securities, significant price movements can take place in the underlying markets that cannot be reflected in the option markets.

Futures Contracts and Related Options

Characteristics. The Trust may sell financial futures contracts or purchase put and call options on such futures as an offset against anticipated market movements. The sale of a futures contract creates an obligation by the Trust, as seller, to deliver the specific type of financial instrument called for in the contract at a specified future time for a specified price. Options on futures contracts are similar to options on securities except that an option on a futures contract gives the purchaser the right in return for the premium paid to assume a position in a futures contract (a long position if the option is a call and a short position if the option is a put).

Margin Requirements. At the time a futures contract is purchased or sold, the Trust must allocate cash or securities as a deposit payment ("initial margin"). It is expected that the initial margin that the Trust will pay may range from approximately 1% to approximately 5% of the value of the securities or commodities underlying the contract. In certain circumstances, however, such as periods of high volatility, the Trust may be required by an exchange to increase the level of its initial margin payment. Additionally, initial margin requirements may be increased generally in the future by regulatory action. An outstanding futures contract is valued daily and the payment in case of "variation margin" may be required, a process known as "marking to the market." Transactions in listed options and futures are usually settled by entering into an offsetting transaction, and are subject to the risk that the position may not be able to be closed if no offsetting transaction can be arranged.

Limitations on Use of Futures and Options on Futures. The Trust currently may enter into such transactions without limit for bona fide strategic purposes, including risk management and duration management and other portfolio strategies. The Trust may also engage in transactions in futures contracts or related options for non-strategic purposes to enhance income or gain provided that the Trust will not enter into a futures contract or related option (except for closing transactions) for purposes other than bona fide strategic purposes, or risk management including duration management if, immediately thereafter, the sum of the amount of its initial deposits and premiums on open contracts and options would exceed 5% of the Trust's liquidation value, *i.e.*, net assets (taken at current value); provided, however, that in the case of an option that is in-the-money at the time of the purchase, the in-the-money amount may be excluded in calculating the 5% limitation. The above policies are non-fundamental and may be changed by the Board at any time. Also, when required, an account of cash equivalents designated on the books and records will be maintained and marked to market on a daily basis in an amount equal to the market value of the contract.

Segregation and Cover Requirements. Futures contracts, interest rate swaps, caps, floors and collars, short sales, reverse repurchase agreements and dollar rolls, and listed or OTC options on securities, indices and futures contracts sold by the Trust are generally subject to earmarking and coverage requirements of either the CFTC or the SEC, with the result that, if the Trust does not hold the security or futures contract underlying the instrument, the Trust will be required to designate on its books and records on an ongoing basis cash, U.S. government securities, or other liquid securities in an amount at least equal to the Trust's net obligations with respect to such instruments.

Such Amounts Fluctuate as the Obligations Increase or Decrease. The earmarking requirement can result in the Trust maintaining securities positions it would otherwise liquidate, segregating assets at a time when it might be disadvantageous to do so or otherwise restrict portfolio management.

Derivative Transactions Present Certain Risks. With respect to Derivative Transactions and risk management, the variable degree of correlation between price movements of strategic instruments and price movements in the position being offset create the possibility that losses using the strategy may be greater than gains in the value of the Trust's position. The same is true for such instruments entered into for income or gain. In addition, certain instruments and markets may not be liquid in all circumstances. As a result, in volatile markets, the Trust may not be able to close out a transaction without incurring losses substantially greater than the initial deposit. Although the use of Derivative Transactions for hedging purposes may reduce the risk of loss due to a decline in the value of an underlying securities position, at the same time such use tends to limit any potential gain which might result from an increase in the value of such position. The ability of the Trust to successfully utilize Derivative Transactions will depend on the Investment Adviser's ability to predict pertinent market movements and sufficient correlations, which cannot be assured. Finally, the daily deposit requirements in futures contracts that the Trust has sold create an ongoing greater potential financial risk than do options transactions, where the exposure is limited to the cost of the initial premium. Losses due to the use of Derivative Transactions will reduce NAV.

Regulatory Considerations. The Trust is sponsored by a person who has claimed an exclusion from the definition of the term "commodity pool operator" under the Commodity Exchange Act ("CEA") pursuant to Rule 4.5 under the CEA; therefore, the Investment Adviser (with respect to the Trust) is not subject to registration or regulation as a "commodity pool operator" under the CEA.

Real Estate Investment Trusts ("REITs")

The Trust may invest in REITs. REITs are pooled investment vehicles that invest primarily in income-producing real estate or real estate-related loans or interests. REITs are subject to risks similar to those associated with direct ownership of real estate (including loss to casualty or condemnation, increases in property taxes and operating expenses, zoning law amendments, changes in interest rates, overbuilding and increased competition, variations in market value, adverse changes in the real estate markets generally or in specific sectors of the real estate industry and possible environmental liabilities), as well as additional risks discussed below.

REITs are generally classified as equity REITs, mortgage REITs or a combination of equity and mortgage REITs. Equity REITs invest the majority of their assets directly in real property and derive income primarily from the collection of rents. Equity REITs can also realize capital gains by selling properties that have appreciated in value. Mortgage REITs invest the majority of their assets in real estate mortgages and derive income from the collection of interest payments. REITs are not taxed on income distributed to shareholders provided they comply with the applicable requirements of the Internal Revenue Code of 1986, as amended (the "Code"). The Trust will indirectly bear its proportionate share of any management and other expenses paid by REITs in which it invests in addition to the expenses paid by the Trust. Debt securities issued by REITs are, for the most part, general and unsecured obligations and are subject to risks associated with REITs.

Investing in REITs involves certain unique risks in addition to those risks associated with investing in the real estate industry in general. An equity REIT may be affected by changes in the value of the underlying properties owned by the REIT. A mortgage REIT may be affected by changes in interest rates and the ability of the issuers of its portfolio mortgages to repay their obligations. REITs are dependent upon the skills of their managers and are not diversified. REITs are generally dependent upon maintaining cash flows to repay borrowings and to make distributions to shareholders and are subject to the risk of default by lessees or borrowers. REITs whose underlying assets are concentrated in properties used by a particular industry, such as health care, are also subject to risks associated with such industry. REITs are often leveraged or invest in properties that are themselves leveraged, exposing them to the risks of leverage generally. Among other things, leverage will generally increase losses during periods of real estate market declines.

REITs (especially mortgage REITs) are also subject to interest rate risks. When interest rates decline, the value of a REIT's investment in fixed rate obligations can be expected to rise. Conversely, when interest rates rise, the value of a REIT's investment in fixed rate obligations can be expected to decline. If the REIT invests in adjustable rate mortgage loans the interest rates on which are reset periodically, yields on a REIT's investments in such loans will gradually align themselves to reflect changes in market interest rates. This causes the value of such investments to fluctuate less dramatically in response to interest rate fluctuations than would investments in fixed rate obligations.

REITs may have limited financial resources, may trade less frequently and in a more limited volume and may be subject to more abrupt or erratic price movements than larger company securities.

The Trust seeks to gain exposure to the real estate markets, in whole or in part, through investing in certain REIT subsidiaries of the Trust. The Trust invests in NexPoint Real Estate Opportunities, LLC (formerly Freedom REIT) ("NREO"), organized under the laws of Delaware on September 17, 2012 and NexPoint Real Estate Capital, LLC ("NREC"), organized under the laws of Delaware on March 31, 2014 (each, a "Subsidiary"). Each Subsidiary has elected to be taxed as a REIT. Each Subsidiary is generally subject to the same investment policies and restrictions of the Trust. As of June 30, 2019, NREO and NREC accounted for approximately, 2.9% and 22.0% respectively, of the Trust's Managed Assets and approximately 2.8% and 21.7%, respectively, of the Trust's total (gross)

assets. The Investment Adviser does not charge an additional fee on assets held in each Subsidiary. The Trust intends to limit its investments in each Subsidiary and related entities to the extent necessary to qualify as a regulated investment company (“RIC”) for tax purposes. In general, and subject to certain exceptions not applicable here, a RIC is not permitted to invest, including through corporations in which the RIC owns a 20% or more voting stock interest, more than 25% of its total assets in any one issuer, or in any two or more issuers which the taxpayer controls and which are determined to be engaged in the same or similar trades or businesses or related trades or businesses.

Portfolio Turnover

The Trust’s annual portfolio turnover rate may vary greatly from year to year. Although the Trust cannot accurately predict its annual portfolio turnover rate, it is not expected to exceed 100% under normal circumstances. For the fiscal year ended December 31, 2018, the portfolio turnover rate was 48%, and for the fiscal year ended December 31, 2017, the portfolio turnover rate was 36%. Portfolio turnover rate is not considered a limiting factor in the execution of investment decisions for the Trust. There are no limits on the rate of portfolio turnover, and investments may be sold without regard to length of time held when the Trust’s investment strategy so dictates. A higher portfolio turnover rate results in correspondingly greater brokerage commissions and other transactional expenses that are borne by the Trust. High portfolio turnover may result in the realization of net short-term capital gains by the Trust which, when distributed to common shareholders, will be taxable as ordinary income. See “Tax Matters.”

OTHER INVESTMENT POLICIES AND TECHNIQUES

When-Issued and Forward Commitment Securities

The Trust may purchase securities on a “when-issued” basis and may purchase or sell securities on a “forward commitment” basis in order to acquire the security or to offset against anticipated changes in interest rates and prices. When such transactions are negotiated, the price, which is generally expressed in yield terms, is fixed at the time the commitment is made, but delivery and payment for the securities take place at a later date. When-issued securities and forward commitments may be sold prior to the settlement date, but the Trust will enter into when-issued and forward commitments only with the intention of actually receiving or delivering the securities, as the case may be. If the Trust disposes of the right to acquire a when-issued security prior to its acquisition or disposes of its right to deliver or receive against a forward commitment, it might incur a gain or loss. At the time the Trust enters into a transaction on a when-issued or forward commitment basis, it will designate on its books and records cash or liquid securities equal to at least the value of the when-issued or forward commitment securities. The value of these assets will be monitored daily to ensure that their marked to market value will at all times equal or exceed the corresponding obligations of the Trust. There is always a risk that the securities may not be delivered and that the Trust may incur a loss. Settlements in the ordinary course, which may take substantially more than five business days, are not treated by the Trust as when-issued or forward commitment transactions and accordingly are not subject to the foregoing restrictions.

Pay-In-Kind Securities

The Trust may invest in Pay-in-kind, or “PIK” securities. PIK securities are securities which pay interest through the issuance of additional debt or equity securities. Similar to zero coupon obligations, PIK securities also carry additional risk as holders of these types of securities typically do not receive cash until the final payment date on the security unless such security is sold. In addition, if the issuer defaults, the Trust may obtain no return at all on its investment. The market price of PIK securities is affected by interest rate changes to a greater extent, and therefore tends to be more volatile, than that of securities which pay interest in cash. Additionally, U.S. federal income tax law requires the holder of certain PIK securities to recognize interest income with respect to these securities prior to the actual receipt of cash payments. In order to receive the special treatment accorded to RICs and their shareholders under Subchapter M of the Code, and to avoid liability for U.S. federal income or excise taxes at the Trust level, the Trust may be required to distribute income recognized with respect to these securities prior to the Trust’s receipt of cash on these securities and thus may, among other things, dispose of portfolio securities under potentially disadvantageous circumstances in order to generate cash to satisfy these distribution requirements. See “Tax Matters” below.

Mezzanine Investments

The Trust may invest in certain high yield securities known as mezzanine investments, which are subordinated debt securities which are generally issued in private placements in connection with an equity security (*e.g.*, with attached warrants). Such mezzanine investments may be issued with or without registration rights. Similar to other high yield securities, maturities of mezzanine investments are typically seven to ten years, but the expected average life is significantly shorter at three to five years. Mezzanine investments are usually unsecured and subordinate to other obligations of the issuer.

Loan Participations and Assignments

The Trust may invest in fixed and floating rate loans (“Loans”) arranged through private negotiations between a corporation or foreign government and one or more financial institutions (“Lenders”). The Trust’s investments in Loans are expected in most instances to be in the form of participations in Loans (“Participations”) and assignments of all or a portion of Loans (“Assignments”) from third parties. Participations typically will result in the Trust having a contractual relationship only with the Lender, not the borrower. The Trust will have the right to receive payments of principal, interest and any fees to which it is entitled only from the Lender selling the Participation and the Trust and only upon receipt by the Lender of the payments by the borrower. In connection with purchasing Participations, the Trust generally has no direct right to enforce compliance by the borrower with the terms of the loan agreement relating to the Loan, nor any rights of set-off against the borrower, and the Trust may not directly benefit from any collateral supporting the Loan in which it has purchased the Participation. As a result the Trust will assume the credit risk of both the borrower and the Lender that is selling the Participation. In the event of the insolvency of the Lender selling a Participation, the Trust may be treated as a general creditor of the Lender and may not benefit from any set-off between the Lender and the borrower. The Trust will acquire Participations only if the Lender interpositioned between the Trust and the borrower is determined by the Investment Adviser to be creditworthy. When the Trust purchases Assignments from Lenders, the Trust will acquire direct rights against the borrower on the Loan. However, because Assignments are arranged through private negotiations between potential assignees and assignors, the rights and obligations acquired by the Trust as the purchaser of an Assignment may differ from, and be more limited than, those held by the assigning Lender.

The Trust may have difficulty disposing of Assignments and Participations. Because there is no public market for such securities, the Trust anticipates that such securities could be sold only to a limited number of institutional investors. The lack of a liquid secondary market will have an adverse impact on the value of such securities and on the Trust’s ability to dispose of particular Assignments or Participations when necessary to meet the Trust’s liquidity needs or in response to a specific economic event, such as a deterioration in the creditworthiness of the borrower. The lack of a liquid secondary market for Assignments and Participations also may make it more difficult for the Trust to assign a value to those securities for purposes of valuing the Trust’s portfolio and calculating its NAV.

Project Loans

The Trust may invest in project loans, which are fixed income securities of issuers whose revenues are primarily derived from mortgage loans to multi-family, nursing home and other real estate development projects. The principal payments on these mortgage loans will be insured by agencies and authorities of the U.S. government.

Zero Coupons and Deferred Payment Obligations

The Trust may invest in zero-coupon bonds, which are normally issued at a significant discount from face value and do not provide for periodic interest payments. Zero-coupon bonds may experience greater volatility in market value than similar maturity debt obligations which provide for regular interest payments. The Trust may also invest in deferred payment securities. Deferred payment securities are securities that remain zero-coupon securities until a predetermined date, at which time the stated coupon rate becomes effective and interest becomes payable at regular intervals. Deferred payment securities are subject to greater fluctuations in value and may have lesser liquidity in the event of adverse market conditions than comparably rated securities paying cash interest at regular interest payment periods.

U.S. federal income tax law requires the holder of certain zero-coupon bonds or deferred payment securities to recognize interest income with respect to these securities prior to the actual receipt of cash payments by the holder. In order to receive the special treatment accorded to RICs and their shareholders under the Code and to avoid liability for U.S. federal income or excise taxes at the Trust level, the Trust may be required to distribute income recognized with respect to these securities prior to the Trust’s receipt of cash on these securities and thus may, among other things, dispose of Trust securities under potentially disadvantageous circumstances in order to generate cash to satisfy these distribution requirements. See “Tax Matters” below.

Master Limited Partnerships (“MLPs”)

The Trust may invest in MLPs. MLPs typically are characterized as “publicly traded partnerships” that qualify to be treated as partnerships for U.S. federal income tax purposes and are principally engaged in one or more aspects of the exploration, production, processing, transmission, marketing, storage or delivery of energy-related commodities, such as natural gas, natural gas liquids, coal, crude oil or refined petroleum products (collectively, the energy industry). The Trust’s MLP investments include investments that offer economic exposure to public MLPs in the form of common or subordinated units issued by MLPs, securities of entities holding primarily general partner or managing member interests in MLPs, debt securities of MLPs, and securities that are derivatives of interests in MLPs, including I-Shares, and derivative instruments in which the Trust may invest that have economic characteristics of MLP securities.

Generally, an MLP is operated under the supervision of one or more managing general partners. Limited partners (like the Trust when it invests in an MLP) are not involved in the day-to-day management of the partnership. The Trust also may invest in companies who serve (or whose affiliates serve) as the general partner of an MLP. These investments may not be taxed as partnerships for U.S. federal income tax purposes. Conflicts of interest may exist among unit holders, subordinated unit holders and the general partner of an MLP, including those arising from incentive distribution payments. General Partners typically have limited fiduciary duties to an MLP, which could allow a general partner to favor its own interests over the MLP’s interests. Additionally, general partners of MLPs often have limited call rights that may require MLP unit holders to sell their common units at an undesirable time or price.

Holder of MLP securities have limited control and voting rights on matters affecting the partnership. Holders of securities issued by a MLP are exposed to a remote possibility of liability for all of the obligations of that MLP in the event that a court determines that the rights of the holders of MLP securities to vote to remove or replace the general partner of that MLP, to approve amendments to that MLP’s partnership agreement, or to take other action under the partnership agreement of that MLP would constitute “control” of the business of that MLP, or a court or governmental agency determines that the MLP is conducting business in a state without complying with the partnership statute of that state. Holders of MLP securities are also exposed to the risk that they will be required to repay amounts to the MLP that are wrongfully distributed to them.

Investments in MLP securities also present special tax risks. For example, if an MLP does not meet current legal requirements to maintain its partnership status, or if it is unable to do so because of tax or other law changes, it would be treated as a corporation for U.S. federal income tax purposes. In that case, the MLP would be obligated to pay U.S. federal income tax at corporate rates (as well as state and local taxes) at the entity level on its taxable income and distributions received by the Trust would be taxable to the Trust as dividend income to the extent of the MLP’s current and accumulated earnings and profits for federal tax purposes. The classification of an MLP as a corporation for U.S. federal income tax purposes could have the effect of reducing the amount of cash available for distribution by the MLP and the value of the Trust’s investment in any such MLP. As a result, the value of the Trust’s shares and the cash available for distribution to Trust shareholders could be materially reduced.

The Trust intends to limit its investments in MLPs and related entities to the extent necessary to qualify as a RIC for tax purposes. In general, a RIC is not permitted to invest, including through corporations in which the RIC owns a 20% or more voting stock interest, more than 25% of its total assets in qualified publicly-traded partnerships.

Life Settlement Investments

The Trust may invest in life settlements, which are the transfers of the beneficial interest in a life insurance policy by the underlying insured person to a third party. The Trust will generally purchase the beneficial interest in a life insurance policy for more than its cash surrender value but at a discount to its face value (i.e., the payment amount set forth in the life insurance policy that is payable on the death of the insured or upon maturity of the life insurance policy). After purchase the Trust will be responsible for premiums payable on the life insurance policy and will be entitled to receive the full face value from the insurance company upon maturation (i.e., upon the death of the insured). Accordingly, if the Trust is unable to make premium payments on a purchased life insurance policy due to liquidity issues or for any other reason, the policy will lapse, and the Trust will lose its ownership interest in the policy. In addition, the Trust’s investments in life settlement policies involve certain additional risks, including inaccurate estimations of life expectancy of the insured individuals, liquidity risk, credit risk of the insurance company, risks of any policies purchased being unenforceable and risks of adverse regulatory and legal changes.

The actual rate of return on a life settlement policy cannot be calculated before the insured dies and the longer the insured lives, the lower the rate of return on the related life settlement policy will be. Current privacy laws may limit the information available to the Trust about insureds and may cause the Trust to inaccurately estimate the value of particular policies. The Trust’s inability to predict with certainty the life expectancies of the pool of underlying insured persons tied to purchased life settlement policies may cause unanticipated delays in the collection of a substantial number of life settlement policies. Life settlements are also generally considered illiquid because there is a limited secondary market for such policies to be bought and sold. Accordingly, the Trust may be limited in its

ability to sell policies in its portfolio in a timely fashion and/or at a favorable price. In addition, if a life insurance company declares bankruptcy or otherwise is insolvent, there may not be sufficient funds for it to pay its liability, and while many states have an insurance guarantee fund to provide payments to beneficiaries of insurance companies that declare bankruptcy, the collection process can be prolonged and complicated, and collection may not be possible in all circumstances.

Life settlement policies may also be subject to contest by the issuing life insurance company. If the insurance company successfully contests a policy, the policy will be rescinded and declared void. For example, insurers may refuse to pay benefits on certain life insurance policies on the basis that there was no “insurable interest” on the part of the purchaser of a life insurance policy at the time such policy was issued. Recently the issue of a lack of insurable interest has been raised by insurers and beneficiaries of irrevocable life insurance trusts, in the context of so-called “stranger originated life insurance” policies. It is possible that courts may void certain life settlement policies for these or other reasons. The market for life settlement policies may also be subject to new government regulation that may impact the ability of the Trust to obtain life settlement policies. Insurance companies may seek regulation or changes of law restricting or otherwise encumbering the transfer of life insurance policies in life settlement policy transactions. No assurance can be made that insurance companies will not be successful in limiting the supply of life insurance policies available for purchase in life settlement policy transactions.

Any or all of the risks described above could have a material adverse effect on the Trust’s investment returns and, therefore, on its ability to make distributions to its shareholders. In addition, it is unclear whether the income from life settlements is qualifying income for purposes of the Internal Revenue Service (“IRS”) 90% gross income test the Trust must satisfy each year to qualify as a RIC. The Trust intends to monitor its investments to ensure that the Trust remains qualified as a RIC.

MANAGEMENT OF THE TRUST

Trustees

The Board provides broad oversight over the operations and affairs of the Trust and protects the interests of shareholders. The Board has overall responsibility to manage and control the business affairs of the Trust, including the complete and exclusive authority to establish policies regarding the management, conduct and operation of the Trust’s business. The names and birthdates of the Trustees and officers of the Trust, the year each was first elected or appointed to office, their principal business occupations during the last five years, the number of funds overseen by each Trustee and other directorships or trusteeships they hold are shown below. The business address of the Trust, the Investment Adviser and their Board members and officers is 300 Crescent Court, Suite 700, Dallas, Texas 75201, unless otherwise specified below.

Information About Each Trustee’s Experience, Qualifications, Attributes, or Skills for Board Membership

The following provides an overview of the considerations that led the Board to conclude that each individual serving as a Trustee of the Trust should so serve, as well as each Trustee’s name and certain biographical information as reported by them to the Trust. Among the factors the Board considered when concluding that an individual should serve on the Board were the following: (i) the individual’s business and professional experience and accomplishments; (ii) the individual’s ability to work effectively with the other members of the Board; (iii) the individual’s prior experience, if any, serving on company boards (including public companies and, where relevant, other investment companies) and the boards of other complex enterprises and organizations; and (iv) how the individual’s skills, experiences and attributes would contribute to an appropriate mix of relevant skills and experience on the Board.

In respect of each Trustee, the individual’s professional accomplishments and prior experience, including, in some cases, in fields related to the operations of the Trust, were a significant factor in the determination that the individual should serve as a Trustee of the Trust. Each Trustee’s professional experience and additional considerations that contributed to the Board’s conclusion that an individual should serve on the Board are summarized in the table below.

The “Highland Funds Complex,” as referred to herein consists of: the Trust, each series of Highland Funds I (“HFI”), each series of Highland Funds II (“HFII”), Highland Global Allocation Fund (“GAF”), Highland Income Fund (“HFRO”), NexPoint Event-Driven Fund (“NEDF”), NexPoint Latin American Opportunities Fund (“NLAO”), NexPoint Real Estate Strategies Fund (“NRESF”), NexPoint Strategic Income Fund (“NSIF”), NexPoint Energy and Materials Opportunities Fund (“NEMO”), NexPoint Discount Strategies Fund (“NDSF”), NexPoint Healthcare Opportunities Fund (“NHOF”, and together with NEDF, NLAO, NRESF, NSIF, NEMO, and NDSF, the “Interval Funds”), and NexPoint Capital, Inc. (the “BDC”), a closed-end management investment company that has elected to be treated as a business development company under the 1940 Act.

<p>None</p>		

- ¹ On an annual basis, as a matter of Board policy, the Governance and Compliance Committee reviews each Trustee's performance and determines whether to extend each such Trustee's service for another year. Effective June 2013, the Board adopted a retirement policy wherein the Governance and Compliance Committee shall not recommend the continued service as a Trustee of a Board member who is older than 80 years of age at the time the Governance and Compliance Committee reports its findings to the Board.
- ² Since May 1, 2015, Mr. Honis has been treated as an Independent Trustee of the Trust. Prior to that date, Mr. Honis was treated as an Interested Trustee because he was a partner of an investment adviser affiliated with the Adviser until his resignation in November 2014. As of May 31, 2019, Mr. Honis was entitled to receive aggregate severance and/or deferred compensation payments of approximately \$390,000 from another affiliate of the Adviser.
- In addition, Mr. Honis serves as a trustee of a trust that owns substantially all of the economic interest in an investment adviser affiliated with the Adviser. Mr. Honis indirectly receives an asset-based fee in respect of such interest, which is projected to range from \$450,000-\$550,000 annually. Additionally, an investment adviser controlled by Mr. Honis has entered into a shared services arrangement with an affiliate of the Adviser, pursuant to which the affiliate provides back office support in exchange for approximately \$50,000 per quarter. The affiliated adviser was paid \$147,000 and \$208,000 in 2017 and 2018, respectively. In light of these relationships between Mr. Honis and affiliates of the Adviser, it is possible that the SEC might in the future determine Mr. Honis to be an interested person of the Trust.
- ³ Prior to December 8, 2017, Mr. Powell was treated as an Interested Trustee of the Trust for all purposes other than compensation and the Trust's code of ethics.
- ⁴ On February 7, 2018, Mr. Norris was appointed as an Interested Trustee of the Trust.

OFFICERS

Name, Date of Birth, Position(s) held with the Trust and Length of Time Served, Term of Office

Principal Occupations(s) During the Past Five Years

James Dondero

(6/29/1962)

President and
Principal Executive Officer
since May 2015; Indefinite
Term

President of HCM, which he co-founded in 1993; Chairman of the Board of NexPoint Residential Trust, Inc. since May 2015; Portfolio Manager of NHF; GAF; Highland Energy MLP Fund, Highland Small-Cap Equity Fund and Highland Premier Growth Equity Fund (each a series of HFII); Highland Opportunistic Credit Fund (series of HFI); the BDC; and the Interval Funds.

Frank Waterhouse

(4/14/1971)

Treasurer since May 2015;
Principal
Financial Officer and Principal
Accounting Officer since
October 2017; Principal
Executive Officer since
February 2018; Indefinite Term

Partner and Chief Financial Officer of HCM; Treasurer of the Highland Funds Complex since May 2015.

Clifford Stoops

(11/17/1970)

Assistant Treasurer since
March 2017; Indefinite Term

Chief Accounting Officer at HCM; Assistant Treasurer of the Highland Funds Complex since March 2017.

Name, Date of Birth, Position(s) held with the Trust and Length of Time Served, Term of Office

Principal Occupations(s) During the Past Five Years

Jason Post

(1/9/1979)

Chief Compliance Officer since September 2015; Indefinite Term

Chief Compliance Officer for HCMFA and NexPoint since September 2015; Chief Compliance Officer and Anti-Money Laundering Officer of the Highland Funds Complex since September 2015. Prior to his current role at HCMFA and NexPoint, Mr. Post served as Deputy Chief Compliance Officer and Director of Compliance for HCM.

Dustin Norris

(1/6/1984)

Executive Vice President since April 2019; Indefinite Term

Trustee since February 2018

Head of Distribution and Chief Product Strategist at NexPoint since March 2019; President of NexPoint Securities, Inc. since April 2018; Head of Distribution at HCMFA from November 2017 until March 2019; Chief Product Strategist at HCMFA from September 2015 to March 2019; Director of Product Strategy at HCMFA from May 2014 to September 2015; Officer of the Highland Funds Complex since November 2012.

Lauren Thedford

(1/7/1989)

Secretary since April 2019; Indefinite Term

Associate General Counsel at HCM since September 2017; In-House Counsel at HCM from January 2015 until September 2017; Secretary of the Highland Funds Complex since April 2019.

¹ The address for each officer is c/o NexPoint Advisors, L.P., 300 Crescent Court, Suite 700, Dallas, Texas 75201.

Role of the Board of Trustees, Leadership Structure and Risk Oversight

The Role of the Board of Trustees

The Board oversees the management and operations of the Trust. Like most registered investment companies, the day-to-day management and operation of the Trust is performed by various service providers to the Trust, such as the Investment Adviser, and the distributor, administrator, custodian, and transfer agent. The Board has appointed senior employees of certain of these service providers as officers of the Trust, with responsibility to monitor and report to the Board on the Trust's operations. The Board receives regular reports from these officers and service providers regarding the Trust's operations. For example, the Treasurer provides reports as to financial reporting matters and investment personnel report on the performance of the Trust. The Board has appointed a Chief Compliance Officer who administers the Trust's compliance program and regularly reports to the Board as to compliance matters. Some of these reports are provided as part of formal in-person Board meetings, which are typically held quarterly, in person, and involve the Board's review of, among other items, recent Trust operations. The Board also periodically holds telephonic meetings as part of its review of the Trust's activities. From time to time one or more members of the Board may also meet with management in

less formal settings, between scheduled Board meetings, to discuss various topics. In all cases, however, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust and its oversight role does not make the Board a guarantor of the Trust's investments, operations or activities.

Board Structure and Leadership

The Board has structured itself in a manner that it believes allows it to perform its oversight function effectively. The Board consists of five Trustees, four of whom are Independent Trustees. Mr. Powell serves as Chairman of the Board. The Trustees meet periodically throughout the year in person and by telephone to oversee the Trust's activities, review contractual arrangements with service providers for the Trust and review the Trust's performance. The Board conducts much of its work through certain standing Committees, each of whose meetings are chaired by an Independent Trustee: an Audit and Qualified Legal Compliance Committee, a Governance and Compliance Committee, and a Distribution and Alternatives Oversight Committee, which are discussed in greater detail below.

Audit and Qualified Legal Compliance Committee. The members of the Audit and Qualified Legal Compliance Committee (formerly named the Audit Committee) are Dr. Froehlich and Messrs. Powell and Ward, each of whom is independent for purposes of the Investment Company Act. The Audit and Qualified Legal Compliance Committee is responsible for approving the Trust's independent accountants, reviewing with the Trust's independent accountants the plans and results of the audit engagement and the adequacy of the Trust's internal accounting controls, approving professional services provided by the Trust's independent accountants. The Audit and Qualified Legal Compliance Committee is charged with compliance with Rules 205.2(k) and 205.3(c) of Title 17 of the Code of Federal Regulations regarding alternative reporting procedures for attorneys representing the Trust who appear and practice before the SEC on behalf of the Trust. The Audit and Qualified Legal Compliance Committee is also responsible for reviewing and overseeing the valuation of debt and equity securities that are not publicly traded or for which current market values are not readily available pursuant to policies and procedures adopted by the Board. The Board and Audit and Qualified Legal Compliance Committee will use the services of one or more independent valuation firms to help them determine the fair value of these securities. In addition, each member of the Audit and Qualified Legal Compliance Committee meets the current independence and experience requirements of Rule 10A-3 under the Exchange Act.

The Audit and Qualified Legal Compliance Committee met seven times during the fiscal year ended December 31, 2018. Mr. Ward acts as the Chairman of the Audit and Qualified Legal Compliance Committee and as the audit committee financial expert.

Governance and Compliance Committee. The Trust's Governance and Compliance Committee's function is to oversee and make recommendations to the full Board or the Independent Trustees, as applicable, with respect to the governance of the Trust, selection and nomination of Trustees, compensation of Trustees, and related matters. The Governance and Compliance Committee is also responsible for at least annually evaluating each Trustee and determining whether to recommend each Trustee's continued service in that capacity. The Governance and Compliance Committee will consider recommendations for Trustee nominees from shareholders sent to the Secretary of the Trust, 300 Crescent Court, Suite 700, Dallas, Texas 75201. A nomination submission must include all information relating to the recommended nominee that is required to be disclosed in solicitations or proxy statements for the election of Trustees, as well as information sufficient to evaluate the recommended nominee's ability to meet the responsibilities of a Trustee of the Trust. Nomination submissions must be accompanied by a written consent of the individual to stand for election if nominated by the Board and to serve if elected by the shareholders, and such additional information must be provided regarding the recommended nominee as reasonably requested by the Governance and Compliance Committee. The Governance and Compliance Committee is currently comprised of Dr. Froehlich and Messrs. Honis, Ward and Powell, each of whom is independent for purposes of the 1940 Act. Mr. Powell serves as the Chairman of the Governance and Compliance Committee. The Governance and Compliance Committee met three times during the fiscal year ended December 31, 2018.

The Distribution and Alternatives Oversight Committee. The members of the Distribution and Alternatives Oversight Committee are Dr. Froehlich, Messrs. Honis, Norris, Ward, and Powell. The Distribution and Alternatives Oversight Committee is responsible for overseeing any Funds that in the Board's determination employ alternative investment strategies. Dr. Froehlich serves as Chairman of the Distribution and Alternatives Oversight Committee. The Distribution and Alternatives Oversight Committee met two times during the fiscal year ended December 31, 2018.

The Board periodically reviews its leadership structure, including the role of the Chairman. The Board also completes an annual self-assessment during which it reviews its leadership and Committee structure and considers whether its structure remains appropriate in light of the Trust's current operations. The Board believes that its leadership structure, including the current percentage of the Board who are Independent Trustees, is appropriate given its specific characteristics. These characteristics include: (i) the extent to which the work of the Board is conducted through the standing committees; (ii) the extent to which the Independent Trustees meet as needed, together with their independent legal counsel, in the absence of members of management and members of the Board who are "interested

persons” of the Trust; and (iii) Mr. Powell’s and Mr. Honis’ previous positions with affiliates of the Investment Adviser, which enhance the Board’s understanding of the operations of the Investment Adviser.

Board Oversight of Risk Management

The Board's role is one of oversight, rather than active management. This oversight extends to the Trust's risk management processes. These processes are embedded in the responsibilities of officers of, and service providers to, the Trust. For example, the Investment Adviser and other service providers to the Trust are primarily responsible for the management of the Trust's investment risks. The Board has not established a formal risk oversight committee. However, much of the regular work of the Board and its standing Committees addresses aspects of risk oversight. For example, the Trustees seek to understand the key risks facing the Trust, including those involving conflicts of interest; how management identifies and monitors these risks on an ongoing basis; how management develops and implements controls to mitigate these risks; and how management tests the effectiveness of those controls.

In the course of providing that oversight, the Board receives a wide range of reports on the Trust's activities from the Investment Adviser and other service providers, including reports regarding the Trust's investment portfolio, the compliance of the Trust with applicable laws, and the Trust's financial accounting and reporting. The Board also meets periodically with the Trust's Chief Compliance Officer to receive reports regarding the compliance of the Trust with the federal securities laws and the Trust's internal compliance policies and procedures and meets with the Trust's Chief Compliance Officer periodically, including at least annually, to review the Chief Compliance Officer's annual report, including the Chief Compliance Officer's risk-based analysis for the Trust. The Board's Audit Committee also meets regularly with the Treasurer and the Trust's independent public accounting firm to discuss, among other things, the internal control structure of the Trust's financial reporting function. The Board also meets periodically with the portfolio managers of the Trust to receive reports regarding the management of the Trust, including its investment risks.

The Board recognizes that not all risks that may affect the Trust can be identified, that it may not be practical or cost-effective to eliminate or mitigate certain risks, that it may be necessary to bear certain risks (such as investment-related risks) to achieve the Trust's goals, that reports received by the Trustees with respect to risk management matters are typically summaries of the relevant information, and that the processes, procedures and controls employed to address risks may be limited in their effectiveness. As a result of the foregoing and other factors, risk management oversight by the Board and by the Committees is subject to substantial limitations.

Compensation of Trustees

The officers of the Trust and those of its Trustees who are "interested persons" (as defined in the 1940 Act) of the Trust receive no direct remuneration from the Trust. The following table sets forth the aggregate compensation paid to each of the Trustees who is not an "interested person" (as defined in the 1940 Act) of the Trust (the "Independent Trustees") by the Trust and the total compensation paid to each of the Trustees by the Highland Funds Complex for the fiscal year ended December 31, 2018.

The following table summarizes the compensation paid by the Trust to the Independent Trustees and the aggregate compensation paid by the Fund Complex to the Independent Trustees for the fiscal year ended December 31, 2018.

<u>Name of Trustee</u>	<u>Aggregate Compensation From the Trust</u>	<u>Pension or Retirement Benefits Accrued as Part of the Trust's Expense</u>	<u>Estimated Annual Benefits Upon Retirement</u>	<u>Aggregate Compensation from the Highland Funds Complex</u>
Independent Trustees				
Timothy K. Hui ¹	\$ 26,810.30	\$ 0	\$ 0	\$ 150,000
Bryan A. Ward ²	\$ 28,844.46	\$ 0	\$ 0	\$ 160,000
Dr. Bob Froehlich	\$ 26,810.30	\$ 0	\$ 0	\$ 150,000
John Honis ³	\$ 26,810.30	\$ 0	\$ 0	\$ 150,000
Ethan Powell ^{2,4}	\$ 28,844.46	\$ 0	\$ 0	\$ 160,000
Interested Trustee				
Dustin Norris ⁵	N/A	N/A	N/A	N/A

- ¹ Effective March 31, 2019, Mr. Hui resigned as an Independent Trustee of the Trust. Mr. Hui's resignation was related to a reduction in the size of the Board to five members. There were no material conflicts, disagreements or other issues between Mr. Hui, the Board of Trustees or NexPoint.
- ² Effective December 31, 2018, the Board approved an aggregate compensation increase of \$10,000 payable to each of the Chairman of the Audit Committee and the Chairman of the Board.
- ³ Effective May 1, 2015, Mr. Honis is treated as an Independent Trustee of the Trust.
- ⁴ Prior to December 8, 2017, Mr. Powell was treated as an Interested Trustee of the Trust for all purposes other than compensation and the Trust's code of ethics.
- ⁵ On February 7, 2018, Mr. Norris was appointed an Interested Trustee of the Trust.

Share Ownership

The following table shows the dollar range of equity securities beneficially owned by the Trustees in the Trust and the aggregate dollar range of equity securities owned by the Trustees in all funds overseen by the Trustees in the Highland Funds Complex as of June 30, 2018.

<u>Name of Trustee</u>	<u>Dollar Range of Equity Securities in the Trust</u>	<u>Aggregate Dollar Range of Equity Securities Owned in All Funds of the Highland Fund Complex¹ Overseen by Trustee</u>
Independent Trustees		
Ethan Powell ¹	Over \$ 100,000	Over \$ 100,000
John Honis ²	None	None
Dr. Bob Froehlich	None	Over \$ 100,000
Bryan A. Ward	\$1-\$10,000	Over \$ 100,000
Interested Trustee		
Dustin Norris ³	Over \$ 100,000	Over \$ 100,000

- ¹ Prior to December 8, 2017, Mr. Powell was treated as an Interested Trustee of the Trust for all purposes other than compensation and the Trust's code of ethics.
- ² Effective May 1, 2015, Mr. Honis is treated as an Independent Trustee of the Trust.
- ³ On February 7, 2018, Mr. Norris was appointed an Interested Trustee of the Trust.

Proxy Voting Policies and Procedures

The Board has delegated the voting of proxies for Trust securities to the Investment Adviser pursuant to the Investment Adviser's proxy voting policies and procedures. Under these policies and procedures, the Investment Adviser will vote proxies related to Trust securities in the best interests of the Trust and its shareholders. A copy of the Investment Adviser's proxy voting policies and procedures is attached as Appendix B to this SAI. The Trust's proxy voting record for the most recent 12-month period ending June 30 is available (i) without charge, upon request, by calling 1-866-351-4440 and (ii) on the SEC's web site (<http://www.sec.gov>).

Codes of Ethics

The Trust and the Investment Adviser have adopted codes of ethics under Rule 17j-1 of the Investment Company Act. These codes permit personnel subject to the codes to invest in securities, including securities that may be purchased or held by the Trust. These codes can be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-202-551-8090. The codes of ethics are available on the EDGAR Database on the SEC's web site (<http://www.sec.gov>), and copies of these codes may be obtained, after paying a duplicating fee, by electronic request at the following e-mail address: publicinfo@sec.gov, or by writing the SEC's Public Reference Section, Washington, D.C. 20549-0102.

Investment Adviser

Effective June 14, 2012, NexPoint Advisors, L.P. became the investment adviser and administrator to the Trust. Prior to June 14, 2012, HCMFA (formerly Pyxis Capital, L.P.) was the investment adviser and administrator to the Trust. For a description of the Investment Adviser, including a description of its controlling persons, see "Management of the Trust—Investment Adviser" in the Trust's Prospectus.

As described in more detail in the Trust's Prospectus, in return for its advisory services, the Investment Adviser receives an annual fee, payable monthly, in an amount equal to 1.00% of the average weekly value of the Trust's Managed Assets (the "Advisory Fee"). The accrued fees are payable monthly as promptly as possible after the end of each month during which the investment advisory agreement is in effect.

Pursuant to the investment advisory agreement, the Trust has paid the following amounts as Advisory Fees to the Investment Adviser for the past three fiscal years:

2016	2017	2018
\$5,419,265	\$5,853,721	\$8,590,032

Administration Services

As described in more detail in the Trust's Prospectus, in return for its administrative services, the Investment Adviser receives an annual fee, payable monthly, in an amount equal to 0.20% of the average weekly value of the Trust's Managed Assets. Pursuant to the Trust's administration services agreement, the Investment Adviser performs the following services: (i) prepare monthly security transaction listings; (ii) supply various normal and customary portfolio and Trust statistical data as requested on an ongoing basis; (iii) prepare for execution and file the Trust's Federal and state tax returns; prepare a fiscal tax provision in coordination with the annual audit; prepare an excise tax provision; and prepare all relevant 1099 calculations; (iv) coordinate contractual relationships and communications between the Trust and its contractual service providers; (v) coordinate printing of the Trust's annual and semi-annual shareholder reports; (vi) prepare income and capital gain distributions; (vii) prepare the semiannual and annual financial statements; (viii) monitor the Trust's compliance with Internal Revenue Code, SEC and Prospectus requirements; (ix) prepare, coordinate with the Trust's counsel and coordinate the filing with the SEC: annual reports on Form N-CEN and semi-annual reports on Form N-CSR; Form N-PORT; and Form N-PX based upon information provided by the Trust; assist in the preparation of Forms 3, 4 and 5 pursuant to Section 16 of the Securities Exchange Act of 1934, as amended, and Section 30(h) of the Investment Company Act for the officers and trustees of the Trust, such filings to be based on information provided by those persons; (x) assist in the preparation of notices of meetings of shareholders and coordinate preparation of proxy statements; (xi) assist in obtaining the fidelity bond and trustees' and officers'/errors and omissions insurance policies for the Trust in accordance with the requirements of Rule 17g-1 and 17d-1(d)(7) under the Investment Company Act; (xii) monitor the Trust's assets to assure adequate fidelity bond coverage is maintained; (xiii) draft agendas and resolutions for quarterly and special Board meetings; (xiv) coordinate the preparation, assembly and mailing of Board materials; (xv) attend Board meetings and draft minutes thereof; (xvi) maintain the Trust's corporate calendar to assure compliance with various filing and Board approval deadlines; (xvii) assist the Trust in the handling of SEC examinations and responses thereto; (xviii) assist the Trust's chief executive officer and chief financial officer in making certifications required under the SEC's disclosure forms; (xix) prepare and coordinate the Trust's state notice filings; (xx) furnish the Trust office space in the offices of the Investment Adviser, or in such other place or places as may be agreed from time to time, and all necessary office facilities, simple business equipment, supplies, utilities and telephone service for managing the affairs of the Trust; (xxi) perform clerical, bookkeeping and other administrative services not provided by the Trust's other service providers; (xxii) determine or oversee the determination and publication of the Trust's NAV in accordance with the Trust's policies as adopted from time to time by the Board; (xxiii) oversee the maintenance by the Trust's custodian and transfer agent and dividend disbursing agent of certain books and records of the Trust as required under Rule 31a-1(b)(2)(iv) of the Investment Company Act and maintain (or oversee maintenance by such

other persons as approved by the Board) such other books and records required by law or for the proper operation of the Trust; (xxiv) determine the amounts available for distribution as dividends and distributions to be paid by the Trust to its shareholders; calculate, analyze and prepare a detailed income analysis and forecast future earnings for presentation to the Board; prepare and arrange for the printing of dividend notices to shareholders, as applicable, and provide the Trust's dividend disbursing agent and custodian with such information as is required for such parties to effect the payment of dividends and distributions and to implement the Trust's dividend reinvestment plan; (xxv) serve as liaison between the Trust and each of its service providers; (xxvi) assist in monitoring and tracking the daily cash flows of the individual assets of the Trust, as well as security position data of portfolio investments; assist in resolving any identified discrepancies with the appropriate third party, including the Trust's custodian, administrative agents and other service providers, through various means including researching available data via agent notices, financial news and data services, and other sources; (xxvii) monitor compliance with leverage tests under the Trust's credit facility, and communicate with leverage providers and rating agencies; (xxviii) coordinate negotiation and renewal of credit agreements for presentation to the Board; (xxix) coordinate negotiations of agreements with counterparties and the Trust's custodian for derivatives, short sale and similar transactions, as applicable; (xxx) provide assistance with the settlement of trades of portfolio securities; (xxxi) coordinate and oversee the provision of legal services to the Trust; (xxxii) cooperate with the Trust's independent registered public accounting firm in connection with audits and reviews of the Trust's financial statements, including interviews and other meetings, and provide necessary information and coordinate confirmations of bank loans and other assets for which custody is not through DTC, as necessary; (xxxiii) provide Secretary and any Assistant Secretaries, Treasurer and any Assistant Treasurers and other officers for the Trust as requested; (xxxiv) develop or assist in developing compliance guidelines and procedures; (xxxv) investigate and research customer and other complaints to determine liability, facilitate resolution and promote equitable treatment of all parties; (xxxvi) determine and monitor expense accruals for the Trust; (xxxvii) authorize expenditures and approve bills for payment on behalf of the Trust; (xxxviii) monitor the number of shares of the Trust registered and assist in the registration of additional shares, as necessary; (xxxix) prepare such reports as the Board may request from time to time; (xl) administer and oversee any securities lending program of the Trust; and (xli) perform such additional administrative duties relating to the administration of the Trust as may subsequently be agreed upon in writing between the Trust and the Investment Adviser. The Investment Adviser shall have the authority to engage a sub-administrator in connection with the administrative services of the Trust, which sub-administrator may be an affiliate of the Investment Adviser; provided, however, that the Investment Adviser shall remain responsible to the Trust with respect to its duties and obligations set forth in the administration services agreement. Accordingly, under a separate sub-administration services agreement, dated July 19, 2018, as amended from time to time, the Investment Adviser has delegated certain administrative functions to SEI Investments Global Funds Services.

Pursuant to the administration services agreement, the Trust has paid the following amounts as Administration Fees to the Investment Adviser and HCMFA for the past three fiscal years:

Administration Fees

2016	2017	2018
\$1,083,853	\$1,170,744	\$959,793

Portfolio Manager

The portfolio manager of the Trust is James Dondero.

As of June 30, 2019, Mr. Dondero managed the following client accounts:

<u>Type of Account</u>	<u>Number of Accounts Managed</u>	<u>Total Assets (millions)</u>	<u>Number of Accounts Managed Subject to Performance-Based Advisory Fee</u>	<u>Total Assets Subject to Performance-Based Advisory Fee (millions)</u>
Registered Investment Companies:	11	\$ 1,760	1	\$ 91
Other Pooled Investment Vehicles:	2	\$ 1,046	2	\$ 1,046
Other Accounts:	0	\$ 0	0	\$ 0

Because the portfolio manager manages other accounts, including accounts that may pay higher fees, potential conflicts of interest exist, including potential conflicts between the investment strategy of the Trust and the investment strategy of the other accounts managed by the portfolio manager and potential conflicts in the allocation of investment opportunities between the Trust and the other accounts.

The Investment Adviser has built a professional working environment, a firm-wide compliance culture and compliance procedures and systems designed to protect against potential incentives that may favor one account over another. The Investment Adviser has adopted policies and procedures that address the allocation of investment opportunities, execution of portfolio transactions, personal trading by employees and other potential conflicts of interest that are designed to ensure that all client accounts are treated equitably over time. Nevertheless, the Investment Adviser furnishes advisory services to numerous clients in addition to the Trust, and the Investment Adviser may, consistent with applicable law, make investment recommendations to other clients or accounts (including accounts which are hedge funds or have performance or higher fees paid to the Investment Adviser, or in which portfolio managers have a personal interest in the receipt of such fees), which may be the same as or different from those made to the Trust. In addition, the Investment Adviser, its affiliates and any officer, director, stockholder or employee may or may not have an interest in the securities whose purchase and sale the Investment Adviser recommends to the Trust. Actions with respect to securities of the same kind may be the same as or different from the action which the Investment Adviser, or any of its affiliates, or any officer, director, stockholder, employee or any member of their families may take with respect to the same securities. Moreover, the Investment Adviser may refrain from rendering any advice or services concerning securities of companies of which any of the Investment Adviser's (or its affiliates') officers, directors or employees are directors or officers, or companies as to which the Investment Adviser or any of its affiliates or the officers, directors and employees of any of them has any substantial economic interest or possesses material non-public information. In addition to its various policies and procedures designed to address these issues, the Investment Adviser includes disclosure regarding these matters to its clients in both its Form ADV and investment advisory agreements.

The Investment Adviser, its affiliates or their officers and employees serve or may serve as officers, directors or principals of entities that operate in the same or related lines of business or of investment funds managed by affiliates of the Investment Adviser. Accordingly, these individuals may have obligations to investors in those entities or funds or to other clients, the fulfillment of which might not be in the best interests of the Trust. As a result, the Investment Adviser will face conflicts in the allocation of investment opportunities to the Trust and other funds and clients. In order to enable such affiliates to fulfill their fiduciary duties to each of the clients for which they have responsibility, the Investment Adviser will endeavor to allocate investment opportunities in a fair and equitable manner which may, subject to applicable regulatory constraints, involve pro rata co-investment by the Trust and such other clients or may involve a rotation of opportunities among the Trust and such other clients.

The Investment Adviser and its affiliates have both subjective and objective procedures and policies in place designed to manage the potential conflicts of interest between the Investment Adviser's fiduciary obligations to the Trust and their similar fiduciary obligations to other clients so that, for example, investment opportunities are allocated in a fair and equitable manner among the Trust and such other clients. An investment opportunity that is suitable for multiple clients of the Investment Adviser and its affiliates may not be capable of being shared among some or all of such clients due to the limited scale of the opportunity or other factors, including regulatory restrictions imposed by the Investment Company Act. There can be no assurance that the Investment Adviser's or its affiliates' efforts to allocate any particular investment opportunity fairly among all clients for whom such opportunity is appropriate will result in an allocation of all or part of such opportunity to the Trust. Not all conflicts of interest can be expected to be resolved in favor of the Trust.

Under current SEC guidance, the Trust may be prohibited from co-investing with certain of its affiliates in some types of private placement transactions (see Co-Investment Opportunities, below, for more information).

Compensation

The Investment Adviser's financial arrangements with its portfolio managers, its competitive compensation and its career path emphasis at all levels reflect the value senior management places on key resources. Compensation may include a variety of components and may vary from year to year based on a number of factors including the relative performance of a portfolio managers' underlying account, the combined performance of the portfolio managers underlying accounts, and the relative performance of the portfolio managers underlying accounts measured against other employees. The principal components of compensation include a base salary, a discretionary bonus and various retirement benefits.

Base Compensation. Generally, portfolio managers receive base compensation based on their seniority and/or their position with the firm, which may include the amount of assets supervised and other management roles within the firm. Base compensation is determined by taking into account current industry norms and market data to ensure that the Investment Adviser pays a competitive base compensation.

Discretionary Compensation. In addition to base compensation, portfolio managers may receive discretionary compensation, which can be a substantial portion of total compensation. Discretionary compensation can include a discretionary cash bonus paid to recognize specific business contributions and to ensure that the total level of compensation is competitive with the market, as well as participation in incentive plans.

Because each person's compensation is based on his or her individual performance, the Investment Adviser does not have a typical percentage split among base salary, bonus and other compensation. Senior portfolio managers who perform additional management functions may receive additional compensation in these other capacities. Compensation is structured such that key professionals benefit from remaining with the Investment Adviser. The Investment Adviser believes it is in the best interest of shareholders to maintain stability of portfolio management personnel.

Conflicts of Interest

From time to time, potential and actual conflicts of interest may arise between the portfolio manager's management of the investments of the Trust, on the one hand, and the management of other accounts, on the other. Potential and actual conflicts of interest may also arise as a result of the Investment Adviser's other business activities and the Investment Adviser's possession of material non-public information about an issuer. Other accounts managed by the portfolio manager might have similar investment objectives or strategies as the Trust, or otherwise hold, purchase, or sell securities that are eligible to be held, purchased or sold by the Trust. The other accounts might also have different investment objectives or strategies than the Trust.

Knowledge and Timing of Trust Trades. A potential conflict of interest may arise as a result of the portfolio manager's day-to-day management of the Trust. Because of his position with the Trust, the portfolio manager knows the size, timing and possible market impact of the Trust's trades. It is theoretically possible that the portfolio manager could use this information to the advantage of other accounts he manages and to the possible detriment of the Trust.

Investment Opportunities. A potential conflict of interest may arise as a result of the portfolio manager's management of a number of accounts with varying investment guidelines. Often, an investment opportunity may be suitable for both the Trust and other accounts managed by the portfolio manager, but may not be available in sufficient quantities for both the Trust and the other accounts to participate fully. Similarly, there may be limited opportunity to sell an investment held by the Trust and another account. The Investment Adviser has adopted policies and procedures reasonably designed to allocate investment opportunities on a fair and equitable basis over time.

Under the Investment Adviser's allocation procedures, investment opportunities are allocated among various investment strategies based on individual account investment guidelines and the Investment Adviser's investment outlook. The Investment Adviser has also adopted additional procedures to complement the general trade allocation policy that are designed to address potential conflicts of interest due to the side-by-side management of the Trust and certain pooled investment vehicles, including investment opportunity allocation issues.

Conflicts potentially limiting the Trust's investment opportunities may also arise when the Trust and other clients of the Investment Adviser invest in different parts of an issuer's capital structure, such as when the Trust owns senior debt obligations of an issuer and other clients own junior tranches of the same issuer, or when the Trust owns debt securities of an issuer and other clients own equity securities of the same issuer. In such circumstances, if the issuer experiences financial or operational challenges, decisions over whether to trigger an event of default, over the terms of any workout, or how to exit an investment may result in conflicts of interest (including, for example, conflicts over proposed waivers and amendments to debt covenants). For example, a debt holder may be better served by a liquidation of the issuer in which it may be paid in full, whereas an equity holder might prefer a reorganization that holds the potential to create value for the equity holders. In addition, the Investment Adviser may also, in certain circumstances, pursue or enforce rights with respect to a particular issuer jointly on behalf of one or more of its clients, or the Investment Adviser's personnel may work together to pursue or enforce such rights. Certain clients may be negatively impacted by the Investment Adviser's activities on behalf of its other clients, and transactions on behalf of some clients may be impaired or effected at prices or terms that may be less favorable than would otherwise have been the case. In order to minimize such conflicts, the portfolio manager may avoid certain investment opportunities that would potentially give rise to conflicts with other clients of the Investment Adviser or the Investment Adviser may enact internal procedures designed to minimize such conflicts, which could have the effect of limiting the Trust's investment opportunities.

Additionally, if the Investment Adviser acquires material non-public confidential information in connection with its business activities for other clients, the portfolio manager may be restricted from purchasing securities or selling securities for the Trust. When making investment decisions where a conflict of interest may arise, the Investment Adviser will endeavor to act in a fair and equitable manner as between the Trust and other clients; however, in certain instances the resolution of the conflict may result in the Investment Adviser acting on behalf of another client in a manner that may not be in the best interest, or may be opposed to the best interest, of the Trust.

Performance Fees. The portfolio manager may advise certain accounts with respect to which the advisory fee is based entirely or partially on performance. Performance fee arrangements may create a conflict of interest for the portfolio manager in that the portfolio manager may have an incentive to allocate the investment opportunities that he believes might be the most profitable to such other accounts instead of allocating them to the Trust. The Investment Adviser has adopted policies and procedures reasonably designed to allocate investment opportunities between the Trust and such other accounts on a fair and equitable basis over time.

Co-Investment Opportunities

The Trust expects in the future to co-invest on a concurrent basis with other affiliates, unless doing so is impermissible under existing regulatory guidance, applicable regulations and our allocation procedures. The Trust, HCMFA and the Investment Adviser have obtained an exemptive order dated April 19, 2016 from the SEC to permit co-investments among the Trust and other accounts managed by the Investment Adviser or its affiliates, subject to certain conditions.

Securities Ownership of Portfolio Manager

The following table sets forth the dollar range of equity securities of the Trust beneficially owned by the portfolio manager as of June 30, 2019.

<u>Name of Portfolio Manager</u>	<u>Dollar Range of Equity Securities in the Trust</u>
James Dondero	Over \$1,000,000

PORTFOLIO TRANSACTIONS AND BROKERAGE

Selection of Broker-Dealers; Order Placement

Subject to the overall review of the Board, the Investment Adviser is responsible for decisions to buy and sell securities and other portfolio holdings of the Trust, for selecting the broker or dealer to be used, and for negotiating any commission rates paid. In underwritten offerings, securities usually are purchased at a fixed price that includes an amount of compensation to the underwriter, generally referred to as the underwriter's concession or discount. On occasion, certain money market instruments may be purchased directly from an issuer, in which case no commissions or discounts are paid.

The Investment Adviser and its affiliates manage other accounts, including private funds and individual accounts that invest in senior loans and Trust investments. Although investment decisions for the Trust are made independently from those of such other accounts, investments of the type the Trust may make also may be made on behalf of such other accounts. When the Trust and one or more other accounts is prepared to invest in, or desires to dispose of, the same investment, available investments or opportunities for each are allocated in a manner believed by the Investment Adviser to be equitable over time. The Investment Adviser may (but is not obligated to) aggregate orders, which may include orders for accounts in which the Investment Adviser or its affiliates have an interest, to purchase and sell securities to obtain favorable execution or lower brokerage commissions, to the extent permitted by applicable laws and regulations. Although the Investment Adviser believes that, over time, the potential benefits of participating in volume transactions and negotiating lower transaction costs should benefit all participating accounts, in some cases these activities may adversely affect the price paid or received or the size of the position obtained by or disposed of for the Trust. Where trades are aggregated, the investments or proceeds, as well as the expenses incurred, will be allocated by the Investment Adviser in a manner designed to be equitable and consistent with the Investment Adviser's fiduciary duty to the Trust and its other clients (including its duty to seek to obtain best execution of client trades).

Commission Rates; Brokerage and Research Services

In placing orders for the Trust's portfolio, the Investment Adviser is required to give primary consideration to obtaining the most favorable price and efficient execution. This means that the Investment Adviser will seek to execute each transaction at a price and

commission, if any, which provides the most favorable total cost or proceeds reasonably attainable in the circumstances. In seeking the most favorable price and execution, the Investment Adviser, having in mind the Trust's best interests, will consider all

factors it deems relevant, including, by way of illustration: price; the size, type and difficulty of the transaction; the nature of the market for the security; the amount of the commission; the timing of the transaction taking into account market prices and trends; operational capabilities; the reputation, experience and financial stability of the broker-dealer involved; and the quality of service rendered by the broker-dealer in other transactions. Though the Investment Adviser generally seeks reasonably competitive commissions or spreads, the Trust will not necessarily be paying the lowest commission or spread available. The Investment Adviser may place portfolio transactions, to the extent permitted by law, with brokerage firms participating in a distribution of the Trust's shares if it reasonably believes that the quality of execution and the commission are comparable to that available from other qualified firms.

The Investment Adviser seeks to obtain "best execution" considering the execution price and overall commission costs paid and other factors. The Investment Adviser routes its orders to various broker-dealers for execution at its discretion. Factors involved in selecting brokerage firms include the size, type and difficulty of the transaction, the nature of the market for the security, the reputation, experience and financial stability of the broker-dealer involved, the quality of service, the quality of research and investment information provided and the firm's risk in positioning a block of securities. Within the framework of the policy of obtaining the most favorable price and efficient execution, the Investment Adviser does consider "brokerage and research services" (as defined in the Securities Exchange Act of 1934, as amended) provided by brokers who effect portfolio transactions with the Investment Adviser or the Trust. "Brokerage and research services" are services that brokerage houses customarily provide to institutional investors and include statistical and economic data and research reports on particular issuers and industries.

Affiliated Brokers; Regular Broker-Dealers

The Investment Adviser is currently affiliated with NexBank Securities, Inc. ("NexBank"), a Financial Industry Regulatory Authority ("FINRA") member broker-dealer that is indirectly controlled by the principals of the Investment Adviser. Absent an exemption from the SEC or other regulatory relief, the Trust is generally precluded from effecting certain principal transactions with affiliated brokers. The Trust may utilize affiliated brokers for agency transactions subject to compliance with policies and procedures adopted pursuant to Rule 17e-1 under the Investment Company Act. These policies and procedures are designed to provide that commissions, fees or other remuneration received by any affiliated broker or its affiliates for agency transactions are reasonable and fair compared to the remuneration received by other brokers in comparable transactions.

During the fiscal years ended December 31, 2016, December 31, 2017 and December 31, 2018, the Trust paid brokerage commissions of \$290,318, \$557,751 and \$521,016, respectively, of which \$0 was paid to NexBank.

There were no payments made to other brokers by the Trust during the fiscal year ended December 31, 2018 that were directed at least partially on the basis of research services they provided.

During the fiscal year ended December 31, 2018, the Trust did not acquire any securities of its regular brokers or dealers. At that date, the Trust did not hold any securities of its regular brokers or dealers. For these purposes, regular brokers or dealers are (a) the brokers or dealers that received the greatest dollar amount of brokerage commissions by virtue of direct or indirect participation in the Trust's portfolio transactions during the Trust's most recent fiscal year, (b) the brokers or dealers that engaged as principal in the largest dollar amount of portfolio transactions of the Trust during the Trust's most recent fiscal year, or (c) the brokers or dealers that sold the largest dollar amount of securities of the Trust during the Trust's most recent fiscal year.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

The following table sets forth, as of June 30, 2019, the beneficial ownership of each of our directors, executive officers, each person known to us to beneficially own 5% or more of the outstanding shares of our common stock, and the executive officers and directors as a “group,” as the term is defined in Section 13(d) of the 1934 Act.

<u>Name and Address on Account</u>	<u>% of Shares</u>
Morgan Stanley 2000 Westchester Avenue Purchase, NY 10577-2530	14.83%
Wells CLRG One North Jefferson Avenue Mail Code: H0004-050 St. Louis, MO 63103	10.72%
National Financial Services LLC For exclusive benefit of our customers 499 Washington Blvd. Attn. Mutual Funds Dept. 4th Floor Jersey City, NJ 07310	9.79%
Pershing One Pershing Plaza Jersey City, NJ 07399	7.55%
Charles Schwab 211 Main Street San Francisco, CA 94105 States	5.77%

REPURCHASE OF COMMON SHARES

The Trust is a closed-end management investment company and as such its shareholders will not have the right to cause the Trust to redeem their shares. Instead, the Trust’s common shares will trade in the open market at a price that will be a function of several factors, including dividend levels (which are in turn affected by performance and expenses), NAV, call protection, dividend stability, relative demand for and supply of such shares in the market, general market and economic conditions and other factors. Because shares of a closed-end investment company may frequently trade at prices lower than NAV, the Board may consider action that might be taken to reduce or eliminate any material discount from NAV in respect of common shares, which may include the repurchase of such shares in the open market or in private transactions, the making of a tender offer for such shares, or the conversion of the Trust to an open-end investment company. The Board may decide not to take any of these actions. In addition, there can be no assurance that share repurchases or tender offers, if undertaken, will reduce market discount. On November 2, 2016, the Board approved a share repurchase program pursuant to which the Trust may repurchase, over a six-month period beginning on December 1, 2016, up to \$10 million of its shares of its outstanding shares in open-market transactions. In connection with the May 8, 2017 rights offering, the Board approved the extension of the Repurchase Program for a period of one year from the closing of the rights offering. As of the date of the Prospectus, the Trust has not completed any repurchases.

Notwithstanding the foregoing, at any time when there are outstanding borrowings, the Trust may not purchase, redeem or otherwise acquire any of its common shares unless (i) all accrued preferred shares dividends have been paid and (ii) at the time of such purchase, redemption or acquisition, the NAV of the Trust’s portfolio (determined after deducting the acquisition price of the common shares) is at least 200% of the liquidation value of the outstanding borrowings. Any service fees incurred in connection with any tender offer made by the Trust will be borne by the Trust and will not reduce the stated consideration to be paid to tendering shareholders.

Subject to its investment restrictions, the Trust may borrow to finance the repurchase of shares or to make a tender offer. Interest on any borrowings to finance share repurchase transactions or the accumulation of cash by the Trust in anticipation of share repurchases or tenders will reduce the Trust’s net income. Any share repurchase, tender offer or borrowing that might be approved by the Board would have to comply with the Securities Exchange Act of 1934, as amended, the Investment Company Act and the rules and regulations thereunder.

Although the decision to take action in response to a discount from NAV will be made by the Board at the time it considers such issue, it is the Board's present policy, which may be changed by the Board, not to authorize repurchases of common

shares or a tender offer for such shares if: (1) such transactions, if consummated, would (a) result in the delisting of the common shares from the New York Stock Exchange, or (b) impair the Trust's eligibility for treatment as a RIC under the Code (which could cause the Trust's income to be taxed at the corporate level in addition to the taxation of shareholders who receive dividends from the Trust), or as a registered closed-end investment company under the Investment Company Act; (2) the Trust would not be able to liquidate portfolio securities in an orderly manner and consistent with the Trust's investment objectives and policies in order to repurchase shares; or (3) there is, in the Board's judgment, any (a) material legal action or proceeding instituted or threatened challenging such transactions or otherwise materially adversely affecting the Trust, (b) general suspension of or limitation on prices for trading securities on the New York Stock Exchange, (c) declaration of a banking moratorium by federal or state authorities or any suspension of payment by U.S. or New York banks, (d) material limitation affecting the Trust or the issuers of its portfolio securities by federal or state authorities on the extension of credit by lending institutions or on the exchange of foreign currency, (e) commencement of war, armed hostilities or other international or national calamity directly or indirectly involving the United States or (f) other event or condition which would have a material adverse effect (including any adverse tax effect) on the Trust or its shareholders if shares were repurchased. The Board may in the future modify these conditions in light of experience.

The repurchase by the Trust of its shares at prices below NAV will result in an increase in the NAV of those shares that remain outstanding. However, there can be no assurance that share repurchases or tender offers at or below NAV will result in the Trust's shares trading at a price equal to their NAV. Nevertheless, the fact that the Trust's shares may be the subject of repurchase or tender offers from time to time, or that the Trust may be converted to an open-end investment company, may reduce any spread between market price and NAV that might otherwise exist.

Before deciding whether to take any action if the common shares trade below NAV, the Board would likely consider all relevant factors, including the extent and duration of the discount, the liquidity of the Trust's portfolio, the impact of any action that might be taken on the Trust or its shareholders and market considerations. Based on these considerations, even if the Trust's shares should trade at a discount, the Board may determine that, in the interest of the Trust and its shareholders, no action should be taken.

If the Board determines to repurchase common shares in a private transaction or to make a tender offer for the common shares, the terms of any such offer may require a selling or tendering (as applicable) shareholder to sell or tender (and thus effectively sell) all of his or her or its common shares held, or considered to be held under certain attribution rules of the Code, by such shareholder. Shareholders who sell (in a private repurchase transaction) or successfully tender and effectively sell (pursuant to a tender offer) to the Trust all common shares held or considered to be held by them generally will be treated as having sold their shares and generally will realize a capital gain or loss. If a shareholder sells or tenders and effectively sells, as applicable, fewer than all of his or her common shares, such shareholder may be treated as having received a distribution under Section 301 of the Code ("Section 301 distribution") unless such distribution is treated as being either (i) "substantially disproportionate" with respect to such shareholder or (ii) otherwise "not essentially equivalent to a dividend" under the relevant rules of the Code. A Section 301 distribution is not treated as a sale or exchange giving rise to a capital gain or loss, but rather is treated as a dividend to the extent supported by the Fund's current and accumulated earnings and profits, with the excess treated as a return of capital reducing the shareholder's tax basis in Fund shares, and thereafter as capital gain. Where a redeeming shareholder is treated as receiving a dividend, there is a risk that remaining shareholders whose percentage share interests in the Trust increase as a result of such sale or tender by the other shareholder will be treated as having received a taxable distribution from the Trust. The extent of such risk will vary depending upon the particular circumstances of the private repurchase or tender offer, in particular whether such offer is a single and isolated event or is part of a plan for periodically redeeming the common shares of the Trust; if isolated, any such risk is likely remote. If, instead, the Board determines to repurchase common shares on the open market, a selling shareholder may also be treated as having received a taxable dividend upon the sale, even though a selling shareholder would have no specific knowledge that he or she or it is selling shares to the Trust. In that event, there is generally a risk that remaining shareholders whose percentage share interests in the Trust increase as a result of any such open-market sales will be treated as having received a taxable distribution from the Trust.

To the extent the Trust recognizes net gains on the liquidation of portfolio securities to meet any such repurchase or tender, the Trust will be required to make additional distributions to its common shareholders.

TAX MATTERS

The following discussion of U.S. federal income tax consequences of investment in common and preferred shares of the Trust is based on the Code, U.S. Treasury regulations promulgated thereunder, and other applicable authority, as of the date of this SAI. These authorities may be changed, possibly with retroactive effect, or become subject to new legislative, administrative, or judicial interpretation. The following discussion is only a summary of some of the important U.S. federal tax considerations generally applicable to investments in the Trust and does not constitute tax advice. This summary does not purport to be a complete description of the U.S. federal income tax considerations applicable to an investment in common or preferred shares of the Trust. There may be other U.S. federal income tax consequences applicable to particular common or preferred shareholders. For example, except as otherwise specifically noted herein, we have not described certain tax considerations that may be relevant to certain types of holders subject to special treatment under the U.S. federal income tax laws, including shareholders subject to the U.S. federal alternative minimum tax, insurance companies, tax-exempt organizations, pension plans and trusts, RICs, dealers in securities, shareholders holding Trust shares through tax-advantaged accounts (such as 401(k) plans or individual retirement accounts), financial institutions, shareholders holding Trust shares as part of a hedge, straddle, or conversion transaction, entities that are not organized under the laws of the United States or a political subdivision thereof, and persons who are neither citizens nor residents of the United States. This summary assumes that investors hold Trust common or preferred shares as capital assets (within the meaning of the Code). Shareholders should consult their own tax advisers regarding their particular situation and the possible application of U.S. federal, state, local, foreign or other tax laws.

This summary does not discuss the tax consequences of an investment in subscription rights of the Trust, separately, or as part of a unit consisting of two or more securities. See “Description of Capital Structure—Subscription Rights” in the Prospectus for a discussion of the material U.S. federal income tax consequences of the Trust’s issuance of subscription rights to common and preferred shareholders.

Taxation of the Trust

The Trust has elected to be treated as a RIC under Subchapter M of the Code and intends each year to qualify and to be eligible to be treated as such. In order to qualify for the special tax treatment accorded RICs and their shareholders, the Trust must, among other things:

(i) derive at least 90% of its gross income for each taxable year from: (a) dividends, interest (including tax-exempt interest), payments with respect to certain securities loans, gains from the sale or other disposition of stock, securities or foreign currencies, or other income (including but not limited to gains from options, futures and forward contracts) derived with respect to its business of investing in such stock, securities or foreign currencies; and (b) net income derived from interests in “qualified publicly traded partnerships” (as described below);

(ii) diversify its holdings so that, at the end of each quarter of the Trust’s taxable year, (a) at least 50% of the market value of the Trust’s total assets consists of cash and cash items, U.S. government securities, the securities of other RICs and other securities limited, in respect of any one issuer, to an amount not greater than 5% of the value of the Trust’s total assets and not more than 10% of the outstanding voting securities of such issuer, and (b) not more than 25% of the value of the Trust’s total assets is invested, including through corporations in which the Trust owns a 20% or more voting stock interest, (x) in the securities (other than U.S. government securities and the securities of other RICs) of any one issuer or of two or more issuers that the Trust controls, as determined under applicable Code rules, and that are determined to be engaged in the same business or similar or related trades or businesses, or (y) in the securities of one or more “qualified publicly traded partnerships” (as described below); and

(iii) distribute to its shareholders with respect to each taxable year at least the sum of 90% of its “investment company taxable income” (as that term is defined in the Code, without regard to the deduction for dividends paid—generally taxable ordinary income and the excess, if any, of net short-term capital gains over net long-term capital losses) and 90% of any net tax-exempt interest income (the excess of its gross tax-exempt interest over certain disallowed deductions), for such year.

In general, for purposes of the 90% gross income requirement described in (i) above, income derived from a partnership will be treated as qualifying income only to the extent such income is attributable to items of income of the partnership which would be qualifying income if realized directly by the RIC. However, 100% of the net income derived from an interest in a “qualified publicly traded partnership” (generally, a partnership (y) interests in which are traded on an established securities market or readily tradable on a secondary market or the substantial equivalent thereof and (z) that meets certain qualifying income requirements but derives less than 90% of its income from the qualifying income described in (i)(a) above) will be treated as qualifying income. In general, such entities will be treated as partnerships for federal income tax purposes because they meet the passive income requirement under Section 7704(c) (2) of the Code. MLPs in which the Trust may invest will generally qualify as qualified publicly traded partnerships. In addition, although in general the passive loss rules of the Code do not apply to RICs, such rules do apply to a RIC with respect to items attributable to an interest in a qualified publicly traded partnership.

For purposes of meeting the diversification requirement described in (ii) above, the term “outstanding voting securities of such issuer” will include the equity securities of a qualified publicly traded partnership. Also, for purposes of the diversification test in (ii) above, the identification of the issuer (or, in some cases, issuers) of a particular Trust investment can depend on the terms and conditions of that investment. In some cases, identification of the issuer (or issuers) is uncertain under current law, and an adverse determination or future guidance by the IRS with respect to issuer identification for a particular type of investment may adversely affect the Trust’s ability to meet the diversification test in (ii) above.

If the Trust qualifies as a RIC (i.e., satisfies the source of income and diversification requirements described in (i) and (ii) above) and satisfies the annual distribution requirement described in (iii) above, the Trust will not be subject to U.S. federal income tax on income or gains distributed in a timely manner to its shareholders in the form of dividends (including Capital Gain Dividends, as defined below).

If, for any taxable year, the Trust were to fail to meet the income, diversification or distribution test described above, the Trust could in some cases cure such failure, including by paying a Trust-level tax, paying interest, making additional distributions or disposing of certain assets. If the Trust were ineligible to or otherwise did not cure any such failure for any year, or if the Trust were otherwise to fail to qualify as a RIC accorded special tax treatment for such year, the Trust would be subject to tax on its taxable income at corporate rates, and all distributions from earnings and profits, including any distributions of net long-term capital gains, would be taxable to shareholders as ordinary income. Some portions of such distributions might be eligible for the dividends-received deduction in the case of corporate shareholders and might be eligible to be treated as “qualified dividend income” and thus taxable at the lower long-term capital gain rate in the case of shareholders taxed at individual rates, provided, in both cases, the shareholder met certain holding period and other requirements in respect of the Trust’s shares (as described below). In addition, the Trust might be required to recognize unrealized gains, pay substantial taxes and interest and make substantial distributions before re-qualifying as a RIC.

The Trust intends to distribute at least annually to its shareholders all or substantially all of its investment company taxable income (computed without regard to the dividends-paid deduction) and its net capital gain (that is, the excess of net long-term capital gain over net short-term capital loss, in each case determined with reference to any loss carryforwards). Any investment company taxable income retained by the Trust will be subject to a Trust-level tax at regular corporate rates. The Trust may also retain for investment its net capital gain. If the Trust retains any net capital gain, it will be subject to Trust-level tax at regular corporate rates on the amount retained, but may designate the retained amount as undistributed capital gains in a timely notice to its shareholders who would then, in turn, be (i) required to include in income for U.S. federal income tax purposes, as long-term capital gain, their shares of such undistributed amount, and (ii) entitled to credit their proportionate shares of the tax paid by the Trust on such undistributed amount against their U.S. federal income tax liabilities, if any, and to claim refunds on a properly-filed U.S. tax return to the extent the credit exceeds such liabilities. If the Trust makes this designation, for U.S. federal income tax purposes, the tax basis of shares owned by a shareholder of the Trust would be increased by an amount equal under current law to the difference between the amount of undistributed capital gains included in the shareholder’s gross income under clause (i) of the preceding sentence and the tax deemed paid by the shareholder under clause (ii) of the preceding sentence. The Trust is not required to, and there can be no assurance the Trust will, make this designation if it retains all or a portion of its net capital gain in a taxable year.

In determining its net capital gain, including in connection with determining the amount available to support a Capital Gain Dividend, its taxable income, and its earnings and profits, a RIC generally may elect to treat part or all of any post-October capital loss (defined as any net capital loss attributable to the portion of the taxable year after October 31 or, if there is no such loss, the net long-term capital loss or net short-term capital loss attributable to such portion of the taxable year) or late-year ordinary loss (generally, the sum of its (i) net ordinary loss from the sale, exchange or other taxable disposition of property, attributable to the portion of the taxable year after October 31, and its (ii) other net ordinary loss attributable to the portion, if any, of the taxable year after December 31) as if incurred in the succeeding taxable year.

If the Trust fails to distribute in a calendar year at least an amount equal to the sum of 98% of its ordinary income for such year and 98.2% of its capital gain net income (adjusted for certain ordinary losses) for the one-year period ending on October 31 of such year (unless an election is made to use the Trust’s taxable year), plus any such undistributed amounts from the prior year, the Trust will be subject to a nondeductible 4% excise tax on the undistributed amounts. For purposes of the required excise tax distribution, a RIC’s ordinary gains and losses from the sale, exchange or other taxable disposition of property that would otherwise be taken into account after October 31 of a calendar year generally (unless an election is made to use the Trust’s taxable year) are treated as arising on January 1 of the following calendar year. Also, for these purposes, the Trust will be treated as having distributed any amount on which it has been subject to corporate income tax in the taxable year ending with the calendar year. The Trust reserves the right to pay the excise tax when circumstances warrant.

Capital losses in excess of capital gains (“net capital losses”) are not permitted to be deducted against the Trust’s net investment income. Instead, potentially subject to certain limitations, the Trust may carry net capital losses from any taxable year forward to subsequent taxable years to offset capital gains, if any, realized during such subsequent taxable year. Capital loss carryforwards are

reduced to the extent they offset current-year net realized capital gains, whether the Trust retains or distributes such gains. If the Trust incurs or has incurred net capital losses in taxable years beginning after December 22, 2010 (“post-2010 losses”), those losses will be carried forward to one or more subsequent taxable years without expiration to offset capital gains realized during such subsequent taxable years; any such carryforward losses will retain their character as short-term or long-term. If the Trust incurred net capital losses in a taxable year beginning on or before December 22, 2010 (“pre-2011 losses”), the Trust is permitted to carry such losses forward for eight taxable years; in the year to which they are carried forward, such losses are treated as short-term capital losses that first offset any short-term capital gains, and then offset any long-term capital gains. The Trust must use any post-2010 losses, which will not expire, before it uses any pre-2011 losses. This increases the likelihood that pre-2011 losses will expire unused at the conclusion of the eight-year carryforward period.

The Trust’s ability to use net capital losses may be limited following the occurrence of certain (i) acquisitive reorganizations and (ii) shifts in the ownership of the Trust by a shareholder owning or treated as owning 5% or more of the shares of the Trust (each, an “ownership change”). The Code may similarly limit the Trust’s ability to use any of its other capital losses, or ordinary losses, that have accrued but have not been recognized (i.e., “built-in” losses) at the time of an ownership change to the extent they are realized within the five-year period following the ownership change.

See the Trust’s most recent annual shareholder report for the Trust’s available capital loss carryovers as of the end of its most recently ended fiscal year.

Trust Distributions

Distributions are taxable to shareholders even if they are paid from income or gains earned by the Trust before a shareholder invested in the Trust (and thus were included in the price the shareholder paid for its shares). Distributions are taxable whether shareholders receive them in cash or reinvest them in additional shares through the Trust’s Dividend Reinvestment Plan. A shareholder whose distributions are reinvested in shares through the Trust’s Dividend Reinvestment Plan will be treated as having received a dividend equal to, generally, the fair market value of new shares issued to the shareholder. See “Dividend Reinvestment Plan” in the Trust’s Prospectus for more information.

Dividends and other distributions paid by the Trust are generally treated under the Code as received by shareholders at the time the dividend or distribution is made. However, a dividend paid to shareholders in January of a year generally is deemed to have been paid by the Trust on December 31 of the preceding year, if the dividend was declared and payable to shareholders of record on a date in October, November or December of that preceding year.

Your broker or other intermediary will send you information after the end of each year setting forth the amount and tax status of any dividends or other distributions paid to you by the Trust.

For U.S. federal income tax purposes, distributions of investment income are generally taxable as ordinary income. Taxes on distributions of capital gains are determined by how long the Trust has owned or is treated as having owned the investments that generated them, rather than how long a shareholder has owned his or her shares. In general, the Trust will recognize long-term capital gain or loss on investments it has owned (or is deemed to have owned) for more than one year, and short-term capital gain or loss on investments it has owned (or is deemed to have owned) for one year or less. Distributions of net capital gain that are properly reported by the Trust as capital gain dividends (“Capital Gain Dividends”) will generally be taxable to shareholders as long-term capital gains. Distributions from capital gains are generally made after applying any available capital loss carryovers. Distributions of net short-term capital gain (that is, the excess of net short-term capital gain over net long-term capital loss for the taxable year, in each case determined with reference to loss carryforwards) will generally be taxable to shareholders receiving such distributions as ordinary income. Distributions of investment income reported by the Trust as derived from “qualified dividend income” will be taxed in the hands of individuals at the rates applicable to long-term capital gain, provided holding period and other requirements are met at both the shareholder and Trust level. The Trust does not expect a significant portion of Trust distributions to be derived from qualified dividend income.

The Trust will designate dividends made to holders of common shares and to holders of preferred shares in accordance with each class’s proportionate share of each item of Trust income (such as net capital gains and other taxable income). A class’s proportionate share of a particular type of income for a year is determined according to the percentage of total dividends paid by the Trust during that year to the class. Although the matter is not free from doubt, due to the absence of direct regulatory or judicial authority, under current law the manner in which the Trust intends to allocate items of ordinary income and net capital gain between the Trust’s common shares and its preferred shares will be respected for federal income tax purposes. It is possible that the IRS could disagree and attempt to reallocate the Trust’s net capital gain or other taxable income.

In order for some portion of the dividends received by a Trust shareholder to be qualified dividend income, the Trust must meet holding period and other requirements with respect to some portion of the dividend-paying stocks in its portfolio and the shareholder

must meet holding period and other requirements with respect to the Trust's shares. In general, a dividend will not be treated as qualified dividend income (at either the Trust or shareholder level) (1) if the dividend is received with respect to any share of stock held for fewer than 61 days during the 121-day period beginning on the date which is 60 days before the date on which such share becomes ex-dividend with respect to such dividend (or, in the case of certain preferred stock, 91 days during the 181-day period beginning 90 days before such date), (2) to the extent that the recipient is under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property, (3) if the recipient elects to have the dividend income treated as investment income for purposes of the limitation on deductibility of investment interest, or (4) if the dividend is received from a foreign corporation that is (a) not eligible for the benefits of a comprehensive income tax treaty with the United States (with the exception of dividends paid on stock of such a foreign corporation readily tradable on an established securities market in the United States) or (b) treated as a passive foreign investment company.

In general, distributions of investment income reported by the Trust as derived from qualified dividend income will be treated as qualified dividend income by a shareholder taxed at individual rates, provided the shareholder meets the holding period and other requirements described in the paragraph immediately above with respect to the Trust's shares.

In general, dividends of net investment income received by corporate shareholders of the Trust will qualify for the 50% dividends-received deduction generally available to corporations to the extent of the amount of eligible dividends received by the Trust from domestic corporations for the taxable year. In general, a dividend received by the Trust will not be treated as a qualifying dividend (i) if it has been received with respect to any share of stock that the Trust has held for less than 46 days (91 days in the case of certain preferred stock) during the 91-day period beginning on the date which is 45 days before the date on which such share becomes ex-dividend with respect to such dividend (during the 181-day period beginning 90 days before such date in the case of certain preferred stock) or (ii) to the extent that the Trust is under an obligation (pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property. Moreover, the dividends-received deduction may be disallowed or reduced (i) if the corporate shareholder fails to satisfy the foregoing requirements with respect to its shares of the Trust or (ii) by application of various provisions of the Code (for instance, the dividends-received deduction is reduced in the case of a dividend received on debt-financed portfolio stock (generally, stock acquired with borrowed funds)). The Trust does not expect a significant portion of Trust distributions to be eligible for this corporate dividends-received deduction.

Any distribution of income that is attributable to (i) income received by the Trust in lieu of dividends with respect to securities on loan pursuant to a securities lending transaction or (ii) dividend income received by the Trust on securities it temporarily purchased from a counterparty pursuant to a repurchase agreement that is treated for U.S. federal income tax purposes as a loan by the Trust will not constitute qualified dividend income to individual shareholders and will not be eligible for the dividends-received deduction for corporate shareholders.

The Code generally imposes a 3.8% Medicare contribution tax on the net investment income of certain individuals, trusts and estates to the extent their income exceeds certain threshold amounts. For these purposes, "net investment income" generally includes, among other things, (i) distributions paid by the Trust of net investment income and capital gains as described above, and (ii) any net gain from the sale or exchange of Trust shares. Shareholders are advised to consult their tax advisors regarding the possible implications of this additional tax on their investment in the Trust.

Return of Capital Distributions

If the Trust makes a distribution to a shareholder in excess of the Trust's current and accumulated earnings and profits in any taxable year, the excess distribution will be treated as a return of capital to the extent of such shareholder's tax basis in its shares, and thereafter as capital gain. A return of capital is not taxable, but it reduces a shareholder's tax basis in its shares, thus reducing any loss or increasing any gain on a subsequent taxable disposition by the shareholder of its shares.

Distributions on the Trust's shares are generally subject to U.S. federal income tax as described herein to the extent they do not exceed the Trust's realized income and gains, even though such dividends and distributions may economically represent a return of a particular shareholder's investment. Such distributions are likely to occur in respect of shares purchased at a time when the Trust's NAV reflects either unrealized gains, or realized but undistributed income or gains, that were therefore included in the price the shareholder paid. Such distributions may reduce the value of the Trust's shares below the shareholder's cost basis in those shares. As described above, the Trust is required to distribute realized income and gains regardless of whether the Trust's NAV also reflects unrealized losses.

Tax Implications of Certain Trust Investments

Some debt obligations with a fixed maturity date of more than one year from the date of issuance that are acquired by the Trust in the secondary market may be treated as having “market discount.” Very generally, market discount is the excess of the stated redemption price of a debt obligation (or in the case of an obligation issued with OID (as defined below), its “revised issue price”)

over the purchase price of such obligation. Generally, any gain recognized on the disposition of, and any partial payment of principal on, a debt obligation having market discount is treated as ordinary income to the extent the gain, or principal payment, does not exceed the “accrued market discount” on such debt obligation. Alternatively, a holder may elect to accrue market discount currently. As of the date of this SAI, the Trust has made this election, and as such, the Trust is required to include currently any accrued market discount on such debt obligations in the Trust’s taxable income (as ordinary income) and thus distribute it over the terms of the obligations, even though payment of those amounts is not received until a later time, upon partial or full repayment or disposition of the applicable debt obligations. The Trust reserves the right to revoke this election at any time pursuant to applicable IRS procedures. The rate at which market discount accrues, and thus is included in the Trust’s income, will depend upon which of the permitted accrual methods the Trust elects.

In addition, some debt obligations with a fixed maturity date of more than one year from the date of issuance (and zero-coupon debt obligations with a fixed maturity date of more than one year from the date of issuance) will be treated as debt obligations that are issued originally at a discount. Generally, the amount of the original issue discount (“OID”) is treated as interest income and is included in taxable income (and required to be distributed by the Trust) over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt obligation. In addition, PIK securities will give rise to income which is required to be distributed and is taxable even though the Trust receives no interest payment in cash on the security during the year in which the income was accrued.

The Trust expects that a substantial portion of the Trust’s investments in loans and other debt obligations will be treated as having market discount and/or OID, which, in some cases, could be significant.

Some debt obligations with a fixed maturity date of one year or less from the date of issuance that are acquired by the Trust may be treated as having OID or, in certain cases, “acquisition discount” (very generally, the excess of the stated redemption price over the purchase price). Generally, the Trust will be required to include the OID or acquisition discount in income (as ordinary income) over the term of the debt obligation and thus distribute it over the term of the debt obligation, even though payment of that amount is not received until a later time, upon partial or full repayment or disposition of the debt obligation. The rate at which OID or acquisition discount accrues, and thus is included in the Trust’s income, will depend upon which of the permitted accrual methods the Trust elects.

Some preferred securities may include provisions that permit the issuer, at its discretion, to defer the payment of distributions for a stated period without any adverse consequences to the issuer. If the Trust owns a preferred security that is deferring the payment of its distributions, the Trust may be required to report income for U.S. federal income tax purposes to the extent of any such deferred distribution even though the Trust has not yet actually received the cash distribution.

As a result of holding the foregoing kinds of debt obligations or other debt obligations subject to special rules under the Code, the Trust may be required to pay out as an income distribution each year an amount which is greater than the total amount of cash interest (or dividends in the case of preferred securities) the Trust actually received. Such distributions may be made from, among other things, the cash assets of the Trust or cash generated from the Trust’s liquidation of portfolio securities. The Trust may realize gains or losses from such liquidations. In the event the Trust realizes net long-term or short-term capital gains from such transactions, its shareholders may receive a larger capital gain or ordinary dividend, respectively, than they would in the absence of such transactions.

Investments in distressed debt obligations that are at risk of or in default present special tax issues for the Trust. Tax rules are not entirely clear about issues such as whether and to what extent the Trust should recognize market discount on these debt obligations, when the Trust may cease to accrue interest, OID or market discount, when and to what extent the Trust may take deductions for bad debts or worthless securities and how the Trust should allocate payments received on obligations in default between principal and income. These and other related issues will be addressed by the Trust when, as and if it invests in such securities, in order to seek to ensure that it distributes sufficient income to preserve its eligibility for treatment as a RIC and does not become subject to U.S. federal income or excise tax.

A portion of the OID accrued on certain high-yield discount obligations owned by the Trust may not be deductible to the issuer and will instead be treated as a dividend paid by the issuer for purposes of the dividends-received deduction. In such cases, if the issuer of the obligation is a domestic corporation, dividend payments by the Trust may be eligible for the dividends-received deduction to the extent of the deemed dividend portion of such OID.

Any transactions by the Trust in foreign currencies, foreign currency-denominated debt obligations and certain foreign currency options, futures contracts and forward contracts (and similar instruments) may give rise to ordinary income or loss to the extent such income or loss results from fluctuations in the value of the foreign currency concerned. Such ordinary income treatment may accelerate Trust distributions to shareholders and increase the distributions taxed to shareholders as ordinary income. Any net ordinary losses so created cannot be carried forward by the Trust to offset income or gains earned in subsequent years.

Any equity investments by the Trust in certain “passive foreign investment companies” (“PFICs”) could potentially subject the Trust to a U.S. federal income tax (including interest charges) on distributions received from the PFIC or on proceeds received from the disposition of shares in the PFIC. This tax cannot be eliminated by making distributions to Trust shareholders. However, the Trust may elect to avoid the imposition of that tax. For example, the Trust may elect to treat a PFIC as a “qualified electing fund” (*i.e.*, make a “QEF election”), in which case the Trust will be required to include its share of the PFIC’s income and net capital gains annually, regardless of whether it receives any distribution from the company. The Trust also may make an election to mark the gains (and to a limited extent losses) in such holdings “to the market” as though it had sold and repurchased its holdings in those PFICs on the last day of the Trust’s taxable year. Such gains and losses are treated as ordinary income and loss. The QEF and mark-to-market elections may accelerate the recognition of income (without the receipt of cash) and increase the amount required to be distributed by the Trust to avoid taxation. Making either of these elections therefore may require the Trust to liquidate other investments (including when it is not advantageous to do so) to meet its distribution requirement, which also may accelerate the recognition of gain and affect the Trust’s total return. Dividends paid by PFICs will not be eligible to be treated as qualified dividend income.

Because it is not always possible to identify a foreign corporation as a PFIC, the Trust may incur the tax and interest charges described above in some instances.

Income proceeds and gains received by the Trust from sources within foreign countries may be subject to withholding and other taxes imposed by such countries. Tax treaties between certain countries and the United States may reduce or eliminate such taxes. Shareholders generally will not be entitled to separately claim a credit or deduction with respect to foreign taxes incurred by the Trust. This will decrease the Trust’s yield on securities subject to such taxes.

The Trust’s Derivative Transactions, as well as any of its other hedging, short sale or similar transactions, may be subject to one or more special tax rules (including, for instance, notional principal contract, mark-to-market, constructive sale, straddle, wash sale and short-sale rules). These rules may affect whether gains and losses recognized by the Trust are treated as ordinary or capital and/or as short-term or long-term, accelerate the recognition of income or gains to the Trust, defer losses, and cause adjustments in the holding periods of the Trust’s securities. The rules could therefore affect the amount, timing and/or character of distributions to shareholders.

Because the tax rules applicable to derivative financial instruments are in some cases uncertain under current law, an adverse determination or future guidance by the IRS with respect to these rules (which determination or guidance could be retroactive) may affect whether the Trust has made sufficient distributions, and otherwise satisfied the relevant requirements, to maintain its qualification as a RIC and avoid a Trust-level tax.

Certain of the Trust’s Derivative Transactions and investments in foreign currency-denominated instruments, and any of the Trust’s transactions in foreign currencies and hedging activities, are likely to produce a difference between its book income and the sum of its taxable income and net tax-exempt income (if any). If such a difference arises, and the Trust’s book income is less than the sum of its taxable income and net tax-exempt income (if any), the Trust could be required to make distributions exceeding book income to qualify as a RIC that is accorded special tax treatment and to avoid a Trust-level tax. In the alternative, if the Trust’s book income exceeds the sum of its taxable income and net tax-exempt income (if any), the distribution (if any) of such excess generally will be treated as (i) a dividend to the extent of the Trust’s remaining earnings and profits (including earnings and profits arising from any tax-exempt income), (ii) thereafter, as a return of capital to the extent of the recipient’s basis in its shares, and (iii) thereafter, as gain from the sale or exchange of a capital asset.

The Trust’s investments in equity securities of REITs may result in the Trust’s receipt of cash in excess of the REIT’s earnings; if the Trust distributes these amounts, these distributions could constitute a return of capital to Trust shareholders for U.S. federal income tax purposes. Dividends received by the Trust from a REIT will not qualify for the corporate dividends-received deduction and generally will not constitute qualified dividend income.

Under a notice issued by the IRS in October 2006 and Treasury regulations that have yet to be issued but may apply retroactively, a portion of a Trust’s income (if any) (including income allocated to the Trust from a REIT or other pass-through entity) that is attributable to a residual interest in a real estate mortgage investment conduit (“REMIC”) (including residual interests in collateralized mortgage obligations) or an equity interest in a taxable mortgage pool (“TMP”) (referred to in the Code as an “excess inclusion”) will be subject to U.S. federal income tax in all events. This notice also provides, and the regulations are expected to provide, that excess inclusion income of a RIC will be allocated to shareholders of the RIC in proportion to the dividends received by such shareholders, with the same consequences as if the shareholders held the related interest directly. As a result, to the extent the Trust invests in any such interests, it may not be a suitable investment for certain tax-exempt shareholders (as noted below in “Tax-Exempt Shareholders”).

In general, excess inclusion income allocated to shareholders (i) cannot be offset by net operating losses (subject to a limited exception for certain thrift institutions), (ii) will constitute unrelated business taxable income (“UBTI”) to entities (including a

qualified pension plan, an individual retirement account, a 401(k) plan, a Keogh plan or other tax-exempt entity) subject to tax on UBTI, thereby potentially requiring such an entity that is allocated excess inclusion income, and otherwise might not be required to file a U.S. federal income tax return, to file such a tax return and pay tax on such income, and (iii) in the case of a non-U.S. shareholder, will not qualify for any reduction in U.S. federal withholding tax. A shareholder will be subject to U.S. federal income tax on such inclusions notwithstanding any exemption from such income tax otherwise available under the Code.

Effective for taxable years beginning after December 31, 2017 and before January 1, 2026, the Code generally allows individuals and certain non-corporate entities a deduction for 20% of qualified REIT dividends. Recently issued proposed regulations allow a RIC such as the Trust to pass the character of its qualified REIT dividends through to its shareholders provided certain holding period requirements are met. As a result, eligible shareholders in the Trust may receive the benefit of the deduction with respect to qualified REIT dividends received by the Trust that are distributed to shareholders.

Backup Withholding

Your broker or other intermediary generally is required to withhold and remit to the U.S. Treasury a percentage of the taxable distributions and redemption proceeds paid to any individual shareholder who fails to properly furnish the broker or other intermediary with a correct taxpayer identification number (“TIN”), who has under-reported dividend or interest income, or who fails to certify to the broker or other intermediary that he or she is not subject to such withholding.

Backup withholding is not an additional tax. Any amounts withheld may be credited against the shareholder’s U.S. federal income tax liability, provided the appropriate information is furnished to the IRS.

Sale or Exchange of Trust Shares

The sale or exchange of Trust shares may give rise to a gain or loss. In general, any gain or loss realized upon a taxable disposition of shares will be treated as long-term capital gain or loss if the shares have been held for more than 12 months. Otherwise, the gain or loss on the taxable disposition of Trust shares will be treated as short-term capital gain or loss. However, any loss realized upon a taxable disposition of shares held for six months or less will be treated as long-term, rather than short-term, to the extent of any Capital Gain Dividends received (or deemed received) by the shareholder with respect to the shares. All or a portion of any loss realized upon a taxable disposition of Trust shares will be disallowed if other substantially identical shares are purchased within 30 days before or after the disposition. In such a case, the basis of the newly purchased shares will be adjusted to reflect the disallowed loss.

Shareholders may be entitled to offset their Capital Gain Dividends with capital loss from other sources. The Code contains a number of statutory provisions affecting the circumstances under which capital loss may be offset against capital gain and limiting the use of loss from certain investments and activities. Accordingly, shareholders that have capital losses are urged to consult their tax advisers.

Tax Shelter Reporting Regulations

Under Treasury regulations, if a shareholder recognizes a loss of \$2 million or more for an individual shareholder or \$10 million or more for a corporate shareholder, the shareholder must file with the IRS a disclosure statement on Form 8886. Direct holders of portfolio securities are in many cases excepted from this reporting requirement, but under current guidance, shareholders of a RIC are not excepted. Future guidance may extend the current exception from this reporting requirement to shareholders of most or all RICs. The fact that a loss is reportable under these regulations does not affect the legal determination of whether the taxpayer’s treatment of the loss is proper. Shareholders should consult their tax advisers to determine the applicability of these regulations in light of their individual circumstances.

Non-U.S. Shareholders

Distributions by the Trust to shareholders that are not “U.S. persons” within the meaning of the Code (“foreign shareholders”) properly reported by the Trust as (1) Capital Gain Dividends, (2) short-term capital gain dividends and (3) interest-related dividends, each as defined and subject to certain conditions described below, generally are not subject to U.S. federal income tax withholding.

In general, the Code defines (1) “short-term capital gain dividends” as distributions of net short-term capital gains in excess of net long-term capital losses and (2) “interest-related dividends” as distributions from U.S. source interest income of types similar to those not subject to U.S. federal income tax if earned directly by an individual foreign shareholder, in each case, to the extent such distributions are properly reported as such by the Trust in a written notice to shareholders.

The exceptions to withholding for Capital Gain Dividends and short-term capital gain dividends do not apply to (A) distributions to an individual foreign shareholder who is present in the United States for a period or periods aggregating 183 days or more during the year of the distribution and (B) distributions attributable to gain that is treated as effectively connected with the conduct by the foreign shareholder of a trade or business within the United States under special rules regarding the disposition of U.S. real property interests (“USRPIs”) as described below.

The exception to withholding for interest-related dividends does not apply to distributions to a foreign shareholder (A) that has not provided a satisfactory statement that the beneficial owner is not a U.S. person, (B) to the extent that the dividend is attributable to certain interest on an obligation if the foreign shareholder is the issuer or is a 10% shareholder of the issuer, (C) that is within certain foreign countries that have inadequate information exchange with the United States, or (D) to the extent the dividend is attributable to interest paid by a person that is a related person of the foreign shareholder and the foreign shareholder is a controlled foreign corporation.

The Trust is permitted to report such part of its dividends as short-term capital gain and/or interest-related dividends as are eligible, but is not required to do so. In the case of shares held through an intermediary, the intermediary may withhold even if the Fund reports all or a portion of a payment as an interest-related or short-term capital gain dividend to shareholders.

Foreign shareholders should contact their intermediaries regarding the application of these rules to their accounts.

Distributions by the Trust to foreign shareholders other than Capital Gain Dividends, short-term capital gain dividends and interest-related dividends (e.g., dividends attributable to dividend and foreign-source interest income or to short-term capital gains or U.S. source interest income to which the exception from withholding described above does not apply) are generally subject to withholding of U.S. federal income tax at a rate of 30% (or lower applicable treaty rate).

A foreign shareholder is not, in general, subject to U.S. federal income tax on gains (and is not allowed a deduction for losses) realized on the sale of shares of the Trust unless (i) such gain is effectively connected with the conduct of a trade or business carried on by such holder within the United States, (ii) in the case of an individual holder, the holder is present in the United States for a period or periods aggregating 183 days or more during the year of the sale and certain other conditions are met, or (iii) the special rules relating to gain attributable to the sale or exchange of USRPIs apply to the foreign shareholder's sale of shares of the Trust (as described below).

Foreign shareholders with respect to whom income from the Trust is effectively connected with a trade or business conducted by the foreign shareholder within the United States will in general be subject to U.S. federal income tax on the income derived from the Trust at the graduated rates applicable to U.S. citizens, residents or domestic corporations, whether such income is received in cash or reinvested in additional shares of the Trust and, in the case of a foreign corporation, may also be subject to a branch profits tax. If a foreign shareholder is eligible for the benefits of a tax treaty, any effectively connected income or gain will generally be subject to U.S. federal income tax on a net basis only if it is also attributable to a permanent establishment maintained by the shareholder in the United States. More generally, foreign shareholders who are residents of a country with an income tax treaty with the United States may obtain different tax results than those described herein, and are urged to consult their tax advisers.

Special rules would apply if the Trust were a qualified investment entity ("QIE") because it is either a "U.S. real property holding corporation" ("USRPHC") or would be a USRPHC but for the operation of certain exceptions to the definition of USRPIs described below. Very generally, a USRPHC is a domestic corporation that holds USRPIs the fair market value of which equals or exceeds 50% of the sum of the fair market values of the corporation's USRPIs, interests in real property located outside the United States, and other trade or business assets. USRPIs generally are defined as any interest in U.S. real property and any interest (other than solely as a creditor) in a USRPHC or, very generally, an entity that has been a USRPHC in the last five years. A RIC that holds, directly or indirectly, significant interests in REITs may be a USRPHC. Interests in domestically controlled QIEs, including REITs and RICs that are QIEs, not-greater-than-10% interests in publicly traded classes of stock in REITs and not-greater-than-5% interests in publicly traded classes of stock in RICs generally are not USRPIs, but these exceptions do not apply for purposes of determining whether a RIC is a QIE.

If an interest in the Trust were a USRPI, a greater-than-5% foreign shareholder generally would be required to file a U.S. tax return in connection with the sale of its Trust shares, and pay related taxes due on any gain realized on the sale.

If the Trust were a QIE, under a special "look-through" rule, any distributions by the Trust to a foreign shareholder attributable directly or indirectly to (i) distributions received by the Trust from a lower-tier RIC or REIT that the Trust is required to treat as USRPI gain in its hands and (ii) gains realized on the disposition of USRPIs by the Trust would retain their character as gains realized from USRPIs in the hands of the Trust's foreign shareholders and would be subject to U.S. tax withholding. In addition, such distributions could result in the foreign shareholder being required to file a U.S. tax return and pay tax on the distributions at regular U.S. federal income tax rates. The consequences to a foreign shareholder, including the rate of such withholding and character of such distributions (e.g., as ordinary income or USRPI gain), would vary depending upon the extent of the foreign shareholder's current and past ownership of the Trust.

Foreign shareholders of the Trust also may be subject to "wash sale" rules to prevent the avoidance of the tax-filing and - payment obligations discussed above through the sale and repurchase of Trust shares.

The Trust generally does not expect that it will be a QIE.

Foreign shareholders should consult their tax advisers and, if holding shares through intermediaries, their intermediaries, concerning the application of these rules to their investment in the Trust.

In order to have qualified for any exemption from withholding described above (to the extent applicable) or for lower withholding tax rates under income tax treaties, or to establish an exemption from backup withholding, a foreign shareholder must have complied with applicable certification and filing requirements relating to its non-U.S. status (including, in general, furnishing an IRS Form W-8BEN, W-8BEN-E or substitute form). Foreign shareholders should contact their tax advisers in this regard.

Special rules (including withholding and reporting requirements) apply to foreign partnerships and those holding Trust shares through foreign partnerships. Additional considerations may apply to foreign trusts and estates. Investors holding Trust shares through foreign entities should consult their tax advisers.

A foreign shareholder may be subject to state and local tax and to the U.S. federal estate tax in addition to the U.S. federal tax on income referred to above.

Tax-Exempt Shareholders

Income of the Trust that would be UBTI if earned directly by a tax exempt entity generally will not constitute UBTI when distributed to tax-exempt shareholders of the Trust. Notwithstanding this “blocking” effect, a tax-exempt shareholder could realize UBTI by virtue of its investment in the Trust if shares in the Trust constitute debt-financed property in the hands of the tax-exempt shareholder within the meaning of Section 514(b) of the Code.

A tax-exempt shareholder may also recognize UBTI if the Trust recognizes excess inclusion income derived from direct or indirect investments in residual interests in REMICS or equity interests in TMPs if the amount of such income recognized by the Trust exceeds the Trust’s investment company taxable income (after taking into account deductions for dividends paid by the Trust).

In addition, special tax consequences apply to charitable remainder trusts (“CRTs”) that invest in RICs that invest directly or indirectly in residual interests in REMICS or equity interests in TMPs. Under legislation enacted in December 2006, a CRT (as defined in Section 664 of the Code) that realizes any UBTI for a taxable year must pay an excise tax annually of an amount equal to such UBTI. Under IRS guidance issued in October 2006, a CRT will not recognize UBTI as a result of investing in a RIC that recognizes excess inclusion income. Rather, if at any time during any taxable year a CRT (or one of certain other tax-exempt shareholders, such as the United States, a state or political subdivision, or an agency or instrumentality thereof, and certain energy cooperatives) is a record holder of a share in a RIC that recognizes excess inclusion income, then the RIC will be subject to a tax on that portion of its excess inclusion income for the taxable year that is allocable to such shareholders at the highest federal corporate income tax rate. The extent to which this IRS guidance remains applicable in light of the December 2006 legislation is unclear. To the extent permitted under the Investment Company Act, the Trust may elect to specially allocate any such tax to the applicable CRT, or other shareholder, and thus reduce such shareholder’s distributions for the year by the amount of the tax that relates to such shareholder’s interest in the Trust.

CRTs and other tax-exempt investors are urged to consult their tax advisers concerning the consequences of investing in the Trust.

Shareholder Reporting Obligations With Respect to Foreign Bank and Financial Accounts

Shareholders that are U.S. persons and own, directly or indirectly, more than 50% of the Trust could be required to report annually their “financial interest” in the Trust’s “foreign financial accounts,” if any, on FinCEN Form 114, Report of Foreign Bank and Financial Accounts (FBAR). Shareholders should consult their tax advisers, and persons investing in the Trust through an intermediary should contact their intermediary to determine the applicability to them of this reporting requirement.

Other Reporting and Withholding Requirements

Sections 1471-1474 of the Code and the U.S. Treasury and IRS guidance issued thereunder (collectively, “FATCA”) generally require the Trust to obtain information sufficient to identify the status of each of its shareholders under FATCA or under an applicable intergovernmental agreement (an “IGA”). If a shareholder fails to provide this information or otherwise fails to comply with FATCA or an IGA, the Trust may be required to withhold under FATCA at a rate of 30% with respect to that shareholder on ordinary dividends it pays. Recently issued proposed regulations would eliminate the 30% withholding tax with respect to the gross proceeds from the sale or exchange of shares and certain Capital Gain Dividends that was scheduled to go in to effect after December 31, 2018. If a payment by the Trust is subject to FATCA withholding, the Trust is required to withhold even if such payment would otherwise be exempt from withholding under the rules applicable to foreign shareholders described above (e.g., Capital Gain Dividends, short-term capital gain dividends and interest-related dividends).

Each prospective investor is urged to consult its tax adviser regarding the applicability of FATCA and any other reporting requirements with respect to the prospective investor's own situation, including investments through an intermediary.

Shares Purchased Through Tax Qualified Plans

Special tax rules apply to investments through defined contribution plans and other tax-qualified plans. Shareholders should consult their tax advisers to determine the suitability of shares of the Trust as an investment through such plans and the precise effect of an investment on their particular tax situation.

General Considerations

The U.S. federal income tax discussion set forth above is for general information only. Prospective investors should consult their tax advisers regarding the specific federal tax consequences of purchasing, holding, and disposing of shares of the Trust, as well as the effects of state, local and foreign tax law and any proposed tax law changes.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

PricewaterhouseCoopers LLP provides accounting and auditing services to the Trust.

CUSTODIAN

The custodian of the assets of the Trust and its wholly-owned subsidiaries is Bank of New York Mellon (240 Greenwich Street, New York, New York 10286). The custodian performs custodial services for the Trust.

ADDITIONAL INFORMATION

A registration statement on Form N-2, including amendments thereto, relating to the shares offered hereby (the "Registration Statement"), has been filed by the Trust with the SEC. The Prospectus and this SAI do not contain all of the information set forth in the Registration Statement, including any exhibits and schedules thereto. For further information with respect to the Trust and the securities offered hereby, reference is made to the Registration Statement. Statements contained in the Prospectus and this SAI as to the contents of any contract or other document referred to are not necessarily complete and in each instance reference is made to the copy of such contract or other document filed as an exhibit to the Registration Statement, each such statement being qualified in all respects by such reference. A copy of the Registration Statement may be inspected without charge at the SEC's principal office in Washington, D.C., and copies of all or any part thereof may be obtained from the SEC upon the payment of certain fees prescribed by the SEC.

FINANCIAL STATEMENTS

The Trust's audited financial statements appearing in the Trust's annual shareholder report for the period ended December 31, 2018 are incorporated by reference in this SAI and have been so incorporated in reliance upon the report of PricewaterhouseCoopers LLP, independent registered public accounting firm for the Trust. The Trust's annual and semiannual shareholder reports are available upon request and without charge by writing to the Trust at 300 Crescent Court, Suite 700, Dallas, Texas 75201 or by calling 1-866-351-4440 and viewed on the Trust's website at www.nexpointadvisors.com.

APPENDIX A

Standard & Poor's—A brief description of the applicable rating symbols of Standard & Poor's and their meanings (as published by Standard & Poor's) follows:

Issue Credit Rating Definitions

A Standard & Poor's issue credit rating is a forward-looking opinion about the creditworthiness of an obligor with respect to a specific financial obligation, a specific class of financial obligations, or a specific financial program (including ratings on medium-term note programs and commercial paper programs). It takes into consideration the creditworthiness of guarantors, insurers, or other forms of credit enhancement on the obligation and takes into account the currency in which the obligation is denominated. The opinion reflects Standard & Poor's view of the obligor's capacity and willingness to meet its financial commitments as they come due, and may assess terms, such as collateral security and subordination, which could affect ultimate payment in the event of default.

Issue credit ratings can be either long-term or short-term. Short-term ratings are generally assigned to those obligations considered short-term in the relevant market. In the U.S., for example, that means obligations with an original maturity of no more than 365 days—including commercial paper. Short-term ratings are also used to indicate the creditworthiness of an obligor with respect to put features on long-term obligations. Medium-term notes are assigned long-term ratings.

Long-Term Issue Credit Ratings

Issue credit ratings are based, in varying degrees, on Standard & Poor's analysis of the following considerations:

- i) Likelihood of payment—capacity and willingness of the obligor to meet its financial commitment on an obligation in accordance with the terms of the obligation;
- ii) Nature of and provisions of the obligation, and the promise we impute;
- iii) Protection afforded by, and relative position of, the obligation in the event of bankruptcy, reorganization, or other arrangement under the laws of bankruptcy and other laws affecting creditors' rights.

Issue ratings are an assessment of default risk, but may incorporate an assessment of relative seniority or ultimate recovery in the event of default. Junior obligations are typically rated lower than senior obligations, to reflect the lower priority in bankruptcy, as noted above. (Such differentiation may apply when an entity has both senior and subordinated obligations, secured and unsecured obligations, or operating company and holding company obligations.)

AAA

An obligation rated 'AAA' has the highest rating assigned by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

AA

An obligation rated 'AA' differs from the highest-rated obligations only to a small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

A

An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

BBB

An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

BB, B, CCC, CC, and C

Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

BB

An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

B

An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

CCC

An obligation rated 'CCC' is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

CC

An obligation rated 'CC' is currently highly vulnerable to nonpayment. The 'CC' rating is used when a default has not yet occurred, but Standard & Poor's expects default to be a virtual certainty, regardless of the anticipated time to default.

C

An obligation rated 'C' is currently highly vulnerable to nonpayment, and the obligation is expected to have lower relative seniority or lower ultimate recovery compared to obligations that are rated higher.

D

An obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due, unless Standard & Poor's believes that such payments will be made within five business days in the absence of a stated grace period or within the earlier of the stated grace period or 30 calendar days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation's rating is lowered to 'D' if it is subject to a distressed exchange offer.

Plus (+) or minus (—)

The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (—) sign to show relative standing within the major rating categories.

NR

This indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that Standard & Poor's does not rate a particular obligation as a matter of policy.

Short-Term Issue Credit Ratings

A-1

A short-term obligation rated 'A-1' is rated in the highest category by Standard & Poor's. The obligor's capacity to meet its financial commitment on the obligation is strong. Within this category, certain obligations are designated with a plus sign (+). This indicates that the obligor's capacity to meet its financial commitment on these obligations is extremely strong.

A-2

A short-term obligation rated 'A-2' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

A-3

A short-term obligation rated 'A-3' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

B

A short-term obligation rated 'B' is regarded as vulnerable and has significant speculative characteristics. The obligor currently has the capacity to meet its financial commitments; however, it faces major ongoing uncertainties which could lead to the obligor's inadequate capacity to meet its financial commitments.

C

A short-term obligation rated 'C' is currently vulnerable to nonpayment and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation.

D

A short-term obligation rated 'D' is in default or in breach of an imputed promise. For non-hybrid capital instruments, the 'D' rating category is used when payments on an obligation are not made on the date due, unless Standard & Poor's believes that such payments will be made within any stated grace period. However, any stated grace period longer than five business days will be treated as five business days. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action and where default on an obligation is a virtual certainty, for example due to automatic stay provisions. An obligation's rating is lowered to 'D' if it is subject to a distressed exchange offer.

SPUR (Standard & Poor's Underlying Rating)

A SPUR rating is an opinion about the stand-alone capacity of an obligor to pay debt service on a credit-enhanced debt issue, without giving effect to the enhancement that applies to it. These ratings are published only at the request of the debt issuer/obligor with the designation SPUR to distinguish them from the credit-enhanced rating that applies to the debt issue. Standard & Poor's maintains surveillance of an issue with a published SPUR.

Municipal Short-Term Note Ratings Definitions

A Standard & Poor's U.S. municipal note rating reflects Standard & Poor's opinion about the liquidity factors and market access risks unique to the notes. Notes due in three years or less will likely receive a note rating. Notes with an original maturity of more than three years will most likely receive a long-term debt rating. In determining which type of rating, if any, to assign, Standard & Poor's analysis will review the following considerations:

- a. Amortization schedule — the larger the final maturity relative to other maturities, the more likely it will be treated as a note; and

- b. Source of payment — the more dependent the issue is on the market for its refinancing, the more likely it will be treated as a note. Note rating symbols are as follows:

SP-1

Strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus (+) designation.

SP-2

Satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

SP-3

Speculative capacity to pay principal and interest.

Dual Ratings

Dual Ratings may be assigned to debt issues that have a put option or demand feature. The first component of the rating addresses the likelihood of repayment of principal and interest as due, and the second component of the rating addresses only the demand feature. The first component of the rating can relate to either a short-term or long-term transaction and accordingly use either short-term or long-term rating symbols. The second component of the rating relates to the put option and is assigned a short-term rating symbol (for example, 'AAA/A-1+' or 'A-1+/A-1'). With U.S. municipal short-term demand debt, the U.S. municipal short-term note rating symbols are used for the first component of the rating (for example, 'SP-1+/A-1+').

The analyses, including ratings, of Standard & Poor's and its affiliates (together, Standard and Poor's) are statements of opinion as of the date they are expressed and not statements of fact or recommendations to purchase, hold, or sell any securities or make any investment decisions. Standard & Poor's assumes no obligation to update any information following publication. Users of ratings or other analyses should not rely on them in making any investment decision. Standard & Poor's opinions and analyses do not address the suitability of any security. Standard & Poor's does not act as a fiduciary or an investment advisor except where registered as such. While Standard & Poor's has obtained information from sources it believes to be reliable, Standard & Poor's does not perform an audit and undertakes no duty of due diligence or independent verification of any information it receives. Ratings and other opinions may be changed, suspended, or withdrawn at any time.

Active Qualifiers (Currently applied and/or outstanding)

Standard & Poor's uses six qualifiers that limit the scope of a rating. The structure of the transaction can require the use of a qualifier such as a 'p' qualifier, which indicates the rating addressed the principal portion of the obligation only. Likewise, the qualifier can indicate a limitation on the type of information used, such as "pi" for public information. A qualifier appears as a suffix and is part of the rating.

Federal deposit insurance limit: 'L' qualifier

Ratings qualified with 'L' apply only to amounts invested up to federal deposit insurance limits.

Principal: 'p' qualifier

This suffix is used for issues in which the credit factors, the terms, or both, that determine the likelihood of receipt of payment of principal are different from the credit factors, terms or both that determine the likelihood of receipt of interest on the obligation. The 'p' suffix indicates that the rating addresses the principal portion of the obligation only and that the interest is not rated.

Public Information Ratings: 'pi' qualifier

Ratings with a 'pi' suffix are based on an analysis of an issuer's published financial information, as well as additional information in the public domain. They do not, however, reflect in-depth meetings with an issuer's management and therefore may be based on less comprehensive information than ratings without a 'pi' suffix. Ratings with a 'pi' suffix are reviewed annually based on a new year's financial statements, but may be reviewed on an interim basis if a major event occurs that may affect the issuer's credit quality.

Preliminary Ratings: ‘prelim’ qualifier

Preliminary ratings, with the ‘prelim’ suffix, may be assigned to obligors or obligations, including financial programs, in the circumstances described below. Assignment of a final rating is conditional on the receipt by Standard & Poor’s of appropriate documentation. Standard & Poor’s reserves the right not to issue a final rating. Moreover, if a final rating is issued, it may differ from the preliminary rating.

- Preliminary ratings may be assigned to obligations, most commonly structured and project finance issues, pending receipt of final documentation of legal opinions.
- Preliminary ratings are assigned to Rule 415 Shelf Registrations. As specific issues, with defined terms, are offered from the master registration, a final rating may be assigned to them in accordance with Standard & Poor’s policies.
- Preliminary ratings may be assigned to obligations that will likely be issued upon the obligor’s emergence from bankruptcy or similar reorganization, based on late-stage reorganization plans, documentation and discussions with the obligor. Preliminary ratings may also be assigned to the obligors. These ratings consider the anticipated general credit quality of the reorganized or post-bankruptcy issuer as well as attributes of the anticipated obligation(s).
- Preliminary ratings may be assigned to entities that are being formed or that are in the process of being independently established when, in Standard & Poor’s opinion, documentation is close to final. Preliminary ratings may also be assigned to the obligations of these entities.
- Preliminary ratings may be assigned when a previously unrated entity is undergoing a well-formulated restructuring, recapitalization, significant financing or other transformative event, generally at the point that investor or lender commitments are invited. The preliminary rating may be assigned to the entity and to its proposed obligation(s). These preliminary ratings consider the anticipated general credit quality of the obligor, as well as attributes of the anticipated obligation(s), assuming successful completion of the transformative event. Should the transformative event not occur, Standard & Poor’s would likely withdraw these preliminary ratings.
- A preliminary recovery rating may be assigned to an obligation that has a preliminary issue credit rating.

Termination Structures: ‘t’ qualifier

This symbol indicates termination structures that are designed to honor their contracts to full maturity or, should certain events occur, to terminate and cash settle all their contracts before their final maturity date.

Inactive Qualifiers (No longer applied or outstanding)

Contingent upon final documentation: ‘*’ in active qualifier

This symbol that indicated that the ratings was contingent upon Standard & Poor ‘s receipt of an executed copy of the escrow agreement or closing documentation confirming investments and cash flows. Discontinued use in August 1998.

Termination of obligation to tender: ‘c’ inactive qualifier

This qualifier was used to provide additional information to investors that the bank may terminate its obligation to purchase tendered bonds if the long-term credit rating of the issuer was lowered to below an investment-grade level and/or the issuer’s bonds are deemed taxable. Discontinued use in January 2001.

U.S. direct government securities: ‘G’ inactive qualifier

The letter ‘G’ followed the rating symbol when a fund’s portfolio consisted primarily of direct U.S. government securities.

Provisional Ratings: ‘pr’ inactive qualifier

The letters ‘pr’ indicate that the rating was provisional. A provisional rating assumed the successful completion of a project financed by the debt being rated and indicates that the payment of debt service requirements was largely or entirely dependent upon the successful, timely completion of the project. This rating, however, while addressing credit quality subsequent to completion of the project, made no comment on the likelihood of or the risk of default upon failure of such completion.

Quantitative Analysis of public information: ‘q’ inactive qualifier

A ‘q’ subscript indicates that the rating is based solely on quantitative analysis of publicly available information. Discontinued use in April 2001.

Extraordinary risks: ‘r’ inactive qualifier

The ‘r’ modifier was assigned to securities containing extraordinary risks, particularly market risks, which are not covered in the credit rating. The absence of an ‘r’ modifier should not be taken as an indication that an obligation will not exhibit extraordinary non-credit related risks. Standard & Poor’s discontinued the use of the ‘r’ modifier for most obligations in June 2000 and for the balance of obligations (mainly structured finance transactions) in November 2002.

Moody’s Investors Service, Inc.—A brief description of the applicable Moody’s Investors Service, Inc. (“Moody’s”) rating symbols and their meanings (as published by Moody’s) follows:

Long-Term Obligation Ratings

Moody’s long-term obligation ratings are opinions of the relative credit risk of a fixed income obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honored as promised. Such ratings reflect both the likelihood of default and any financial loss suffered in the event of default.

Moody’s Global Long-Term Rating Scale Definitions:

Aaa

Obligations rated Aaa are judged to be of the highest quality, subject to the lowest level of credit risk.

Aa

Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A

Obligations rated A are judged to be upper medium-grade and are subject to low credit risk.

Baa

Obligations rated Baa are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics.

Ba

Obligations rated Ba are judged to be speculative elements and are subject to substantial credit risk.

B

Obligations rated B are considered speculative and are subject to high credit risk.

Caa

Obligations rated Caa are judged to be speculative of poor standing and are subject to very high credit risk.

Ca

Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery of principal and interest.

C

Obligations rated C are the lowest rated and are typically in default, with little prospect for recovery of principal or interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category. Additionally, a "(hyb)" indicator is appended to all ratings of hybrid securities issued by banks, insurers, finance companies, and securities firms.

* By their terms, hybrid securities allow for the omission of scheduled dividends, interest, or principal payments, which can potentially result in impairment if such an omission occurs. Hybrid securities may also be subject to contractually allowable write-downs of principal that could result in impairment. Together with the hybrid indicator, the long-term obligation rating assigned to a hybrid security is an expression of the relative credit risk associated with that security.

Medium-Term Note Ratings

Moody's assigns provisional ratings to medium-term note (MTN) programs and definitive ratings to the individual debt securities issued from them (referred to as drawdowns or notes).

MTN program ratings are intended to reflect the ratings likely to be assigned to drawdowns issued from the program with the specified priority of claim (e.g. senior or subordinated). To capture the contingent nature of a program rating, Moody's assigns provisional ratings to MTN programs. A provisional rating is denoted by a (P) in front of the rating and is defined elsewhere in this document.

The rating assigned to a drawdown from a rated MTN or bank/deposit note program is definitive in nature, and may differ from the program rating if the drawdown is exposed to additional credit risks besides the issuer's default, such as links to the defaults of other issuers, or has other structural features that warrant a different rating. In some circumstances, no rating may be assigned to a drawdown.

Moody's encourages market participants to contact Moody's Ratings Desks or visit www.moodys.com directly if they have questions regarding ratings for specific notes issued under a medium-term note program. Unrated notes issued under an MTN program may be assigned an NR (not rated) symbol.

Global Short-Term Rating Scale:

Moody's short-term ratings are opinions of the ability of issuers to honor short-term financial obligations. Ratings may be assigned to issuers, short-term programs or to individual short-term debt instruments. Such obligations generally have an original maturity not exceeding thirteen months, unless explicitly noted.

Moody's employs the following designations to indicate the relative repayment ability of rated issuers:

P-1

Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

P-2

Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3

Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP

Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

APPENDIX B

POLICY REGARDING PROXY VOTING

Purpose and Scope

The purpose of these voting policies and procedures (the “Policy”) is to set forth the principles and procedures by which NexPoint Advisors, L.P. (the “Company”) votes or gives consents with respect to the securities owned by Clients for which the Company exercises voting authority and discretion.¹ For avoidance of doubt, this includes any proxy and any shareholder vote or consent, including a vote or consent for a private company or other issuer that does not involve a proxy. These policies and procedures have been designed to help ensure that votes are cast in the best interests of Clients in accordance with the Company’s fiduciary duties and Rule 206(4)-6 under the Investment Advisers Act of 1940 (the “Advisers Act”).

This Policy applies to securities held in all Client accounts (including Retail Funds and other pooled investment vehicles) as to which the Company has explicit or implicit voting authority. Implicit voting authority exists where the Company’s voting authority is implied by a general delegation of investment authority without reservation of proxy voting authority to the Client.

If the Company has delegated voting authority to an investment sub-adviser with respect to any Retail Fund, such sub-adviser will be responsible for voting all proxies for such Retail Funds in accordance with the sub-adviser’s proxy voting policies. The Compliance Department, to provide oversight over the proxy voting by sub-advisers and to ensure that votes are executed in the best interests of the Retail Funds, shall (i) review the proxy voting policies and procedures of each Retail Fund sub-adviser to confirm that they comply with Rule 206(4)-6, both upon engagement of the sub-adviser and upon any material change to the sub-adviser’s proxy voting policies and procedures, and (ii) require each such sub-adviser to provide quarterly certifications that all proxies were voted pursuant to the sub-adviser’s policies and procedures or to describe any inconsistent votes.

General Principles

The Company and its affiliates engage in a broad range of activities, including investment activities for their own accounts and for the accounts of various Clients and providing investment advisory and other services to Clients. In the ordinary course of conducting the Company’s activities, the interests of a Client may conflict with the interests of the Company, other Clients and/or the Company’s affiliates and their clients. Any conflicts of interest relating to the voting of proxies, regardless of whether actual or perceived, will be addressed in accordance with these policies and procedures. The guiding principle by which the Company votes all proxies is to vote in the best interests of each Client by maximizing the economic value of the relevant Client’s holdings, taking into account the relevant Client’s investment horizon, the contractual obligations under the relevant advisory agreements or comparable documents and all other relevant facts and circumstances at the time of the vote. The Company does not permit voting decisions to be influenced in any manner that is contrary to, or dilutive of, this guiding principle.

Voting Procedures

Third-Party Proxy Advisors

The Company may engage a third-party proxy advisor (“Proxy Advisor”) to provide proxy voting recommendations with respect to Client proxies. Proxy Advisor voting recommendation guidelines are generally designed to increase investors’ potential financial gain. When considering whether to retain or continue retaining any particular Proxy Advisor, the Compliance Department will ascertain, among other things, whether the Proxy Advisor has the capacity and competency to adequately analyze proxy issues. In this regard, the Compliance Department will consider, among other things: the adequacy and quality of the Proxy Advisor’s staffing and

¹ In any case where a Client has instructed the Company to vote in a particular manner on the Client’s behalf, those instructions will govern in lieu of parameters set forth in the Policy. personnel; the robustness of its policies and procedures regarding its ability to (a) ensure that its proxy voting recommendations are based on current and accurate information and (b) identify and address any conflicts of interest and any other considerations that the Compliance Department determines would be appropriate in considering the nature and quality of the services provided by the Proxy Advisor. To identify and address any conflicts that may arise on the part of the Proxy Advisor, the Compliance Department will ensure that the Proxy Advisor notifies the Compliance Department of any relevant business changes or changes to its policies and procedures regarding conflicts.

Third-Party Proxy Voting Services

The Company may utilize a third-party proxy voting service (“Proxy Voting Service”) to monitor holdings in Client accounts for purposes of determining whether there are upcoming shareholder meetings or similar corporate actions and to execute Client proxies on behalf of the Company pursuant to the Company’s instructions, which shall be given in a manner consistent with this Policy. The Compliance Department will oversee each Proxy Voting Service to ensure that proxies have been voted in a manner consistent with the Company’s instructions.

Monitoring

Subject to the procedures regarding Nonstandard Proxy Notices described below, the Compliance Department of the Company shall have responsibility for monitoring Client accounts for proxy notices. Except as detailed below, if proxy notices are received by other employees of the Company, such employees must promptly forward all proxy or other voting materials to the Compliance Department.

Portfolio Manager Review and Instruction

From time to time, the settlement group of the Company may receive nonstandard proxy notices, regarding matters including, but not limited to, proposals regarding corporate actions or amendments (“Nonstandard Proxy Notices”) with respect to securities held by Clients. Upon receipt of a Nonstandard Proxy Notice, a member of the settlement group (the “Settlement Designee”) shall send an email notification containing all relevant information to the Portfolio Manager(s) with responsibility for the security and [.com]. Generally, the relevant Portfolio Manager(s) shall deliver voting instructions for Nonstandard Proxy Notices by replying to the email notice sent to the Portfolio Manager(s) and [.com] by the Settlement Designee or by sending voting instructions to [.com] and copying [.com]. Any conflicts for Nonstandard Proxy Notices should also be disclosed to the Compliance Department. In the event a Portfolio Manager orally conveys voting instructions to the Settlement Designee or any other member of the Company’s settlement group, that Settlement Designee or member of the Company’s settlement group shall respond to the original notice email sent to [.com] detailing the Portfolio Manager(s) voting instructions.

With regard to standard proxy notices, on a weekly basis, the Compliance Department will send a notice of upcoming proxy votes related to securities held by Clients and the corresponding voting recommendations of the Proxy Advisor to the relevant Portfolio Manager(s). Upon receipt of a proxy notice from the Compliance Department, the Portfolio Manager(s) will review and evaluate the upcoming votes and recommendations. The Portfolio Managers may rely on any information and/or research available to him or her and may, in his or her discretion, meet with members of an issuer’s management to discuss matters of importance to the relevant Clients and their economic interests. Should the Portfolio Manager determine that deviating from the Proxy Advisor’s recommendation is in a Client’s best interest, the Portfolio Manager shall communicate his or her voting instructions to the Compliance Department.

In the event that more than one Portfolio Manager is responsible for making a particular voting decision and such Portfolio Managers are unable to arrive at an agreement as to how to vote with respect to a particular proposal, they should consult with the applicable Chief Compliance Officer (the “CCO”) for guidance.

Voting

Upon receipt of the relevant Portfolio Managers’ voting instructions, if any, the Compliance Department will communicate the instructions to the Proxy Voting Service to execute the proxy votes.

Non-Votes

It is the general policy of the Company to vote or give consent on all matters presented to security holders in any vote, and these policies and procedures have been designated with that in mind. However, the Company reserves the right to abstain on any particular vote if, in the judgment of the CCO, or the relevant Portfolio Manager, the effect on the relevant Client’s economic interests or the value of the portfolio holding is insignificant in relation to the Client’s portfolio, if the costs associated with voting in any particular instance outweigh the benefits to the relevant Clients or if the circumstances make such an abstention or withholding otherwise advisable and in the best interests of the relevant Clients not to vote. Such determination may apply in respect of all Client holdings of the securities or only certain specified Clients, as the Company deems appropriate under the circumstances. As examples, a Portfolio Manager may determine: (a) not to recall securities on loan if, in his or her judgment, the matters being voted upon are not material events affecting the securities and the negative consequences to Clients of disrupting the securities lending program would outweigh the benefits of voting in the particular instance or (b) not to vote proxies relating to certain foreign securities if, in his or her judgment, the expense and administrative inconvenience outweighs the benefits to Clients of voting the securities.

Conflicts of Interest

The Company's Compliance Department is responsible for monitoring voting decisions for any conflicts of interest, regardless of whether they are actual or perceived. All voting decisions contrary to the recommendation of a Proxy Advisor require a mandatory conflicts of interest review by the Compliance Department, which will include a consideration of whether the Company or any Portfolio Manager or other person recommending or providing input on how to vote has an interest in the vote that may present a conflict of interest.

In addition, all Company investment professionals are expected to perform their tasks relating to the voting of proxies in accordance with the principles set forth above, according the first priority to the best interest of the relevant Clients. If at any time a Portfolio Manager or any other investment professional becomes aware of a potential or actual conflict of interest regarding any particular voting decision, he or she must contact the Compliance Department promptly and, if in connection with a proxy that has yet to be voted, prior to such vote. If any investment professional is pressured or lobbied, whether from inside or outside the Company, with respect to any particular voting decision, he or she should contact the Compliance Department promptly. The CCO will use his or her best judgment to address any such conflict of interest and ensure that it is resolved in accordance with his or her independent assessment of the best interests of the relevant Clients.

In the event of a conflict, the Company may choose to address such conflict by: (i) voting in accordance with the Proxy Advisor's recommendation; (ii) the CCO determining how to vote the proxy (if the CCO approves deviation from the Proxy Advisor's recommendation, then the CCO shall document the rationale for the vote); (iii) "echo voting" or "mirror voting" the proxy in the same proportion as the votes of other proxy holders that are not Clients; or (iv) with respect to Clients other than Retail Funds, notifying the affected Client of the material conflict of interest and seeking a waiver of the conflict or obtaining such Client's voting instructions. Where the Compliance Department deems appropriate, third parties may be used to help resolve conflicts. In this regard, the CCO or his or her delegate shall have the power to retain fiduciaries, consultants or professionals to assist with voting decisions and/or to delegate voting or consent powers to such fiduciaries, consultants or professionals.

Where a conflict of interest arises with respect to a voting decision for a Retail Fund, the Company shall disclose the conflict and the rationale for the vote taken to the Retail Fund's Board of Directors/Trustees at the next regularly scheduled quarterly meeting. The Compliance Department will maintain a log documenting the basis for the decision and will furnish the log to the Board of Trustees.

Material Conflicts of Interest

The following relationships or circumstances are examples of situations that may give rise to a material conflict of interest for purposes of this Policy. This list is not exclusive or determinative; any potential conflict (including payments of the types described below but less than the specified threshold) should be identified to the Company's Compliance Department:

- (i) The issuer is a Client of the Company, or of an affiliate, accounting for more than 5% of the Company's or affiliate's annual revenues.
- (ii) The issuer is an entity that reasonably could be expected to pay the Company or its affiliates more than \$1 million through the end of the Company's next two full fiscal years.
- (iii) The issuer is an entity in which a "Covered Person" (as defined in the Company's Policies and Procedures Designed to Detect and Prevent Insider Trading and to Comply with Rule 17j-1 of the Investment Company Act of 1940, as amended (the "Code of Ethics")) has a beneficial interest contrary to the position held by the Company on behalf of Clients.
- (iv) The issuer is an entity in which an officer or partner of the Company or a relative of any such person is or was an officer, director or employee, or such person or relative otherwise has received more than \$150,000 in fees, compensation and other payment from the issuer during the Company's last three fiscal years; provided, however, that the Compliance Department may deem such a relationship not to be a material conflict of interest if the Company representative serves as an officer or director of the issuer at the direction of the Company for purposes of seeking control over the issuer.
- (v) The matter under consideration could reasonably be expected to result in a material financial benefit to the Company or its affiliates through the end of the Company's next two full fiscal years (for example, a vote to increase an investment advisory fee for a Retail Fund advised by the Company or an affiliate).
- (vi) Another Client or prospective Client of the Company, directly or indirectly, conditions future engagement of the Company on voting proxies in respect of any Client's securities on a particular matter in a particular way.

- (vii) The Company holds various classes and types of equity and debt securities of the same issuer contemporaneously in different Client portfolios.
- (viii) Any other circumstance where the Company's duty to serve its Clients' interests, typically referred to as its "duty of loyalty," could be compromised.

Notwithstanding the foregoing, a conflict of interest described above shall not be considered material for the purposes of this Policy in respect of a specific vote or circumstance if:

The securities in respect of which the Company has the power to vote account for less than 1% of the issuer's outstanding voting securities, but only if: (i) such securities do not represent one of the 10 largest holdings of such issuer's outstanding voting securities and (ii) such securities do not represent more than 2% of the Client's holdings with the Company.

The matter to be voted on relates to a restructuring of the terms of existing securities or the issuance of new securities or a similar matter arising out of the holding of securities, other than common equity, in the context of a bankruptcy or threatened bankruptcy of the issuer.

Recordkeeping

Following the submission of a proxy vote, the Fund will maintain a report of the vote and all relevant documentation.

The Fund shall retain records relating to the voting of proxies and the Company shall conduct due diligence, including on Proxy Voting Services and Proxy Advisors, as applicable, to ensure the following records are adequately maintained by the appropriate party:

- (i) Copies of this Policy and any amendments thereto.
- (ii) A current copy of the Proxy Advisor's voting guidelines, as amended.
- (iii) A copy of each proxy statement that the Company receives regarding Client securities. The Company may rely on a third party to make and retain, on the Company's behalf, a copy of a proxy statement, provided that the Company has obtained an undertaking from the third party to provide a copy of the proxy statement promptly upon request.
- (iv) Records of each vote cast by the Company on behalf of Clients. The Company may satisfy this requirement by relying on a third party to make and retain, on the Company's behalf, a record of the vote cast, provided that the Company has obtained an undertaking from the third party to provide a copy of the record promptly upon request.
- (v) A copy of any documents created by the Company that were material to making a decision how to vote or that memorializes the basis for that decision.
- (vi) A copy of each written request for information on how the Company voted proxies on behalf of the Client, and a copy of any written response by the Company to any (oral or written) request for information on how the Company voted.

These records shall be maintained and preserved in an easily accessible place for a period of not less than five years from the end of the Company's fiscal year during which the last entry was made in the records, the first two years in an appropriate office of the Company.²

Enforcement of this Policy

It shall be the responsibility of the Compliance Department to handle or coordinate the enforcement of this Policy. The Compliance Department will periodically sample proxy voting records to ensure that proxies have been voted in accordance with this Policy, with a particular focus on any proxy votes that require additional analysis (e.g., proxies voted contrary to the recommendations of a Proxy Advisor).

If the Compliance Department determines that a Proxy Advisor or Proxy Voting Service may have committed a material error, the Compliance Department will investigate the error, taking into account the nature of the error, and seek to determine whether the Proxy Advisor or Proxy Voting Service is taking reasonable steps to reduce similar errors in the future.

In addition, no less frequently than annually, the Compliance Department will review the adequacy of this Policy to ensure that it has been implemented effectively and to confirm that this Policy continues to be reasonably designed to ensure that proxies are voted in the best interest of Clients.

² If the Company has essentially immediate access to a book or record (on the Company's proprietary system or otherwise) through a computer located at an appropriate office of the Company, then that book or record will be considered to be maintained at an appropriate office of the Company. "Immediate access" to books and records includes that the Company has the ability to provide promptly to Securities and Exchange Commission (the "SEC") examination staff hard copies of the books and records or access to the storage medium. The party responsible for the applicable books and records as described above shall also be responsible for ensuring that those books and records for the first two years are either physically maintained in an appropriate office of the Company or that the Company otherwise has essentially immediate access to the required books and records for the first two years.

Disclosures to Clients and Investors

The Company includes a description of its policies and procedures regarding proxy voting in Part 2 of Form ADV, along with a statement that Clients can contact the CCO to obtain a copy of these policies and procedures and information about how the Company voted with respect to a Client's securities. This Policy is, however, subject to change at any time without notice.

As a matter of policy, the Company does not disclose how it expects to vote on upcoming proxies. Additionally, the Company does not disclose the way it voted proxies to unaffiliated third parties without a legitimate need to know such information.

Part C

Other Information

Item 25. *Financial Statements and Exhibits*

1. Financial Statements

Part A — Financial Highlights.

Part B — Audited financial statements for the period ended December 31, 2018 are incorporated by reference herein to the Trust's annual report for the period ended December 31, 2018.

2. Exhibits

- (a) Agreement and Declaration of Trust (1)
- (b) By-Laws (1)

- (19) Incorporated by reference to the Trust's Registration Statement on Form N-2 (File No. 333-230078), filed on March 5, 2019.

Item 26. *Marketing Arrangements*

Not applicable.

Item 27. *Other Expenses of Issuance and Distribution*

The following table sets forth the estimated expenses to be incurred in connection with all offerings described in this Registration Statement:

Legal Fees	\$165,000
Subscription Agent	60,000
Information Agent	25,000
Printing and Mailing	50,000
NYSE Listing Fee	50,000
SEC Registration Fee	60,600
FINRA Fee	7,000
Other	27,400
Total	\$445,000

Note: All amounts are estimates.

Item 28. Persons Controlled by or Under Common Control with the Registrant

As of June 30, 2019, the Trust beneficially owns 100% of NexPoint Real Estate Opportunities, LLC and 100% of NexPoint Real Estate Capital, LLC, each a Delaware limited liability company that has elected to be treated as a real estate investment trust. See “Portfolio Composition” in the Trust’s Prospectus and “Investment Policies and Techniques—Real Estate Investment Trusts ‘REITS’” in the Trust’s statement of additional information filed herewith. As of June 30, 2019, the Trust beneficially owns 100% of Specialty Financial Products Ltd., a private company with limited liability duly incorporated under the laws of Ireland.

Item 29. Number of Holders of Shares

As of June 30, 2019:

<u>Title of Class</u>	<u>Number of Registered Holders</u>
Common Shares of Beneficial Interest	1,166

Item 30. Indemnification

Article V of the Registrant’s Agreement and Declaration of Trust provides as follows:

5.1 *No Personal Liability of Shareholders, Trustees, etc.* No Shareholder of the Trust shall be subject in such capacity to any personal liability whatsoever to any Person in connection with Trust Property or the acts, obligations or affairs of the Trust. Shareholders shall have the same limitation of personal liability as is extended to stockholders of a private corporation for profit incorporated under the Delaware General Corporation Law. No trustee or officer of the Trust shall be subject in such capacity to any personal liability whatsoever to any Person, save only liability to the Trust or its Shareholders arising from bad faith, willful misfeasance, gross negligence or reckless disregard for his duty to such Person; and, subject to the foregoing exception, all such Persons shall look solely to the Trust Property for satisfaction of claims of any nature arising in connection with the affairs of the Trust. If any Shareholder, trustee or officer, as such, of the Trust, is made a party to any suit or proceeding to enforce any such liability, subject to the foregoing exception, he shall not, on account thereof, be held to any personal liability. Any repeal or modification of this Section 5.1 shall not adversely affect any right or protection of a trustee or officer of the Trust existing at the time of such repeal or modification with respect to acts or omissions occurring prior to such repeal or modification.

5.2 *Mandatory Indemnification.* (a) The Trust hereby agrees to indemnify each person who at any time serves as a trustee or officer of the Trust (each such person being an “indemnitee”) against any liabilities and expenses, including amounts paid in satisfaction of judgments, in compromise or as fines and penalties, and reasonable counsel fees reasonably incurred by such indemnitee in connection with the defense or disposition of any action, suit or other proceeding, whether civil or criminal, before any court or administrative or investigative body in which he may be or may have been involved as a party or otherwise or with which he may be or may have been threatened, while acting in any capacity set forth in this Article V by reason of his having acted in any such capacity, except with respect to any matter as to which he shall not have acted in good faith in the reasonable belief that his action was in the best interest of the Trust or, in the case of any criminal proceeding, as to which he shall have had reasonable cause to believe that the conduct was unlawful, provided, however, that no indemnitee shall be indemnified hereunder against any liability to any person or any expense of such indemnitee arising by reason of (i) willful misfeasance, (ii) bad faith, (iii) gross negligence, or (iv) reckless disregard of the duties involved in the conduct of his position (the conduct referred to in such clauses (i) through (iv) being sometimes referred to herein as “disabling conduct”). Notwithstanding the foregoing, with respect to any action, suit or other proceeding voluntarily prosecuted by any indemnitee as plaintiff, indemnification shall be mandatory only if the prosecution of such action, suit or other proceeding by such indemnitee (1) was authorized by a majority of the trustees or (2) was instituted by the indemnitee to enforce his or her rights to indemnification hereunder in a case in which the indemnitee is found to be entitled to such indemnification. The rights to indemnification set forth in this Declaration shall continue as to a person who has ceased to be a trustee or officer of the Trust and shall inure to the benefit of his or her heirs, executors and personal and legal representatives. No amendment or restatement of this Declaration or repeal of any

of its provisions shall limit or eliminate any of the benefits provided to any person who at any time is or was a trustee or officer of the Trust or otherwise entitled to indemnification hereunder in respect of any act or omission that occurred prior to such amendment, restatement or repeal.

(b) Notwithstanding the foregoing, no indemnification shall be made hereunder unless there has been a determination (i) by a final decision on the merits by a court or other body of competent jurisdiction before whom the issue of entitlement to indemnification hereunder was brought that such indemnitee is entitled to indemnification hereunder or, (ii) in the absence of such a decision, by (1) a majority vote of a quorum of those trustees who are neither “interested persons” of the Trust (as defined in Section 2(a)(19) of the Investment Company Act) nor parties to the proceeding (“Disinterested Non-Party Trustees”), that the indemnitee is entitled to indemnification hereunder, or (2) if such quorum is not obtainable or even if obtainable, if such majority so directs, independent legal counsel in a written opinion concludes that the indemnitee should be entitled to indemnification hereunder. All determinations to make advance payments in connection with the expense of defending any proceeding shall be authorized and made in accordance with the immediately succeeding paragraph (c) below.

(c) The Trust shall make advance payments in connection with the expenses of defending any action with respect to which indemnification might be sought hereunder if the Trust receives a written affirmation by the indemnitee of the indemnitee’s good faith belief that the standards of conduct necessary for indemnification have been met and a written undertaking to reimburse the Trust unless it is subsequently determined that the indemnitee is entitled to such indemnification and if a majority of the trustees determine that the applicable standards of conduct necessary for indemnification appear to have been met. In addition, at least one of the following conditions must be met: (i) the indemnitee shall provide adequate security for his undertaking, (ii) the Trust shall be insured against losses arising by reason of any lawful advances, or (iii) a majority of a quorum of the Disinterested Non-Party Trustees, or if a majority vote of such quorum so direct, independent legal counsel in a written opinion, shall conclude, based on a review of readily available facts (as opposed to a full trial-type inquiry), that there is substantial reason to believe that the indemnitee ultimately will be found entitled to indemnification.

(d) The rights accruing to any indemnitee under these provisions shall not exclude any other right which any person may have or hereafter acquire under this Declaration, the By-Laws of the Trust, any statute, agreement, vote of stockholders or trustees who are “disinterested persons” (as defined in Section 2(a)(19) of the Investment Company Act) or any other right to which he or she may be lawfully entitled.

(e) Subject to any limitations provided by the Investment Company Act and this Declaration, the Trust shall have the power and authority to indemnify and provide for the advance payment of expenses to employees, agents and other Persons providing services to the Trust or serving in any capacity at the request of the Trust to the full extent corporations organized under the Delaware General Corporation Law may indemnify or provide for the advance payment of expenses for such Persons, provided that such indemnification has been approved by a majority of the trustees.

5.3 No Bond Required of Trustees. No trustee shall, as such, be obligated to give any bond or other security for the performance of any of his duties hereunder.

5.4 No Duty of Investigation; Notice in Trust Instruments, etc. No purchaser, lender, transfer agent or other person dealing with the trustees or with any officer, employee or agent of the Trust shall be bound to make any inquiry concerning the validity of any transaction purporting to be made by the trustees or by said officer, employee or agent or be liable for the application of money or property paid, loaned, or delivered to or on the order of the trustees or of said officer, employee or agent. Every obligation, contract, undertaking, instrument, certificate, Share, other security of the Trust, and every other act or thing whatsoever executed in connection with the Trust shall be conclusively taken to have been executed or done by the executors thereof only in their capacity as trustees under this Declaration or in their capacity as officers, employees or agents of the Trust. The trustees may maintain insurance for the protection of the Trust Property, its Shareholders, trustees, officers, employees and agents in such amount as the trustees shall deem adequate to cover possible tort liability, and such other insurance as the trustees in their sole judgment shall deem advisable or is required by the Investment Company Act.

5.5 Reliance on Experts, etc. Each trustee and officer or employee of the Trust shall, in the performance of its duties, be fully and completely justified and protected with regard to any act or any failure to act resulting from reliance in

good faith upon the books of account or other records of the Trust, upon an opinion of counsel, or upon reports made to the Trust by any of the Trust's officers or employees or by any advisor, administrator, manager, distributor, selected dealer, accountant, appraiser or other expert or consultant selected with reasonable care by the trustees, officers or employees of the Trust, regardless of whether such counsel or expert may also be a trustee.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "1933 Act"), may be permitted to trustees, officers and controlling persons of the Trust, pursuant to the foregoing provisions or otherwise, the Trust has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the 1933 Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Trust of expenses incurred or paid by a trustee, officer or controlling person of the Trust in the successful defense of any action, suit or proceeding) is asserted by such trustee, officer or controlling person in connection with the securities being registered, the Trust will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the 1933 Act and will be governed by the final adjudication of such issue. Reference is made to Section 7 of the Dealer Manager Agreement, which will be filed as Exhibit (h) in a subsequent pre-effective amendment and will discuss the rights, responsibilities and limitations with respect to indemnity and contribution.

Item 31. Business and Other Connections of Investment Advisor

(a) The description of the business of NexPoint Advisors, L.P. ("NexPoint"), the investment adviser, is set forth under the caption "Management of the Funds" in the Prospectus and under the caption "Management" in the SAI, each forming part of this Registration Statement. The information as to other businesses, if any, and the directors and officers of NexPoint is set forth in its Form ADV, as filed with the SEC through the Investment Adviser Registration Depository (IARD) on (File No. 801-54874) and as amended through the date hereof, and is incorporated herein by reference.

(b) Highland Capital Management Fund Advisors, L.P. ("HCMFA"), Highland Capital Management, L.P. ("HCM") and NexBank Securities, Inc., each with its principal place of business located at 300 Crescent Court, Suite 700, Dallas, Texas 75201, are registered investment advisers affiliated with NexPoint.

The following person is a non-executive officer of HCMFA and NexPoint:

- (1) Jason Post, Chief Compliance Officer

The following persons are executive officers of the general partner of HCMFA, Strand Advisors XVI, Inc.:

- (1) Frank Waterhouse, Treasurer
- (2) Dustin Norris, Executive Vice President
- (3) Lauren Thedford, Secretary

The following persons are executive officers of the general partner of HCM and Strand Advisors, Inc.:

- (1) James Dondero, President
- (2) Mark Okada, Executive Vice President
- (3) Scott Ellington, Secretary
- (4) Frank Waterhouse, Treasurer
- (5) Trey Parker, Assistant Secretary

The following persons are non-executive officers of NexBank Securities, Inc.

- (1) Eric Holt, Chief Compliance Officer
- (2) Stacy Hodges, Financial and Operations Principal

The following person is the executive officer of NexBank Securities, Inc.:

- (1) Craig Campbell, President

Item 32. *Location of Accounts and Records*

- (1) American Stock Transfer & Trust Company, LLC, 6201 15th Avenue, Brooklyn, NY 11219 (records relating to its function as transfer agent).
- (2) Bank of New York Mellon, 240 Greenwich Street, New York, New York 10286 (records relating to its function as custodian).
- (3) NexPoint Advisors, L.P., 300 Crescent Court, Suite 700, Dallas, Texas 75201 (records relating to its function as adviser and administrator).
- (4) SEI Investments Global Fund Services, One Freedom Valley Drive, Oaks, Pennsylvania 19456 (records relating to its function as sub-administrator).

Item 33. *Management Services*

Not Applicable.

Item 34. *Undertakings*

- (1) The Registrant hereby undertakes to suspend the offering of its shares until it amends its prospectus if (a) subsequent to the effective date of its Registration Statement, the net asset value declines more than 10 percent from its net asset value as of the effective date of the Registration Statement, or (b) the net asset value increases to an amount greater than its net proceeds as stated in the prospectus.
- (2) The Registrant undertakes to file a post-effective amendment to the registration statement, and to suspend any offers or sales pursuant to the registration statement until such post-effective amendment has been declared effective under the 1933 Act in the event the shares of the Registrant are trading below its net asset value and either (i) the Registrant receives, or has been advised by its independent registered accounting firm that it will receive, an audit report reflecting substantial doubt regarding the registrant's ability to continue as a going concern; or (ii) the Registrant has concluded that a material adverse change has occurred in its financial position or results of operations that has caused the financial statements and other disclosures on the basis of which the offering would be made to be materially misleading.
- (3) If the securities being registered are to be offered to existing shareholders pursuant to rights, and any securities not taken by shareholders are to be reoffered to the public, the Registrant undertakes to supplement the prospectus, after the expiration of the subscription period, to set forth the results of the subscription offer, the transactions by underwriters during the subscription period, the amount of unsubscribed securities to be purchased by underwriters, and the terms of any subsequent reoffering thereof. If any public offering by the underwriters of the securities being registered is to be made on terms differing from those set forth on the cover page of the prospectus, the Registrant further undertakes to file a post-effective amendment to set forth the terms of such offering.
- (4) The Registrant undertakes:
 - (a) to file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:
 - (1) to include any prospectus required by Section 10(a)(3) of the 1933 Act;
 - (2) to reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement; and
 - (3) to include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(b) that, for the purpose of determining liability under the 1933 Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of those securities at that time shall be deemed to be the initial bona fide offering thereof; and

(c) to remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;

(d) that, for the purpose of determining liability under the 1933 Act to any purchaser, if the Registrant is subject to Rule 430C; each prospectus filed pursuant to Rule 497(b), (c), (d) or (e) under the 1933 Act, shall be deemed to be part of and included in this registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in this registration statement or prospectus that is part of this registration statement or made in a document incorporated or deemed incorporated by reference into this registration statement or prospectus that is part of this registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in this registration statement or prospectus that was part of this registration statement or made in any such document immediately prior to such date of first use;

(e) that for the purpose of determining liability of the Registrant under the 1933 Act to any purchaser in the initial distribution of securities, the undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to the purchaser:

(1) any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 497 under the 1933 Act;

(2) the portion of any advertisement pursuant to Rule 482 under the 1933 Act relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and

(3) any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.

(5) The Registrant undertakes that:

(a) For the purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of a registration statement in reliance upon Rule 430A and contained in the form of prospectus filed by the Registrant under Rule 497 (h) under the 1933 Act shall be deemed to be part of the Registration Statement as of the time it was declared effective.

(b) For the purpose of determining any liability under the 1933 Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of the securities at that time shall be deemed to be the initial bona fide offering thereof.

(6) The Registrant undertakes to send by first class mail or other means designed to ensure equally prompt delivery within two business days of receipt of a written or oral request, any Statement of Additional Information.

(7) The Registrant undertakes to file a post-effective amendment under Section 8(c) of the 1933 Act in connection with any one or more offerings of the Registrant's common shares (including rights to purchase the common shares) below net asset value that will result in greater than 15% dilution, in the aggregate, to existing net asset value per share.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, as amended (the "1933 Act") and the Investment Company Act of 1940, as amended (the "1940 Act"), the Registrant has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Dallas and the State of Texas, on the on the 27th day of August, 2019.

/s/ James Dondero

CUSTODY AGREEMENT

CUSTODY AGREEMENT, dated as of the latest date set forth on the signature page hereto, between each management investment company listed on Annex A (each, a “Fund”) and **THE BANK OF NEW YORK MELLON**, a bank organized under the laws of the state of New York (the “Custodian”).

SECTION 1 – CUSTODY ACCOUNTS; INSTRUCTIONS

1.1 Definitions. Whenever used in this Agreement, the following words shall have the meanings set forth below:

“40 Act” shall have the meaning set forth in Section 1.3.

“Account” or “Accounts” shall have the meaning set forth in Section 1.2.

“Authorized Instructions” shall have the meaning set forth in Section 1.5.

“Authorized Person” shall mean any Person authorized by a Fund to give Oral Instructions or Instructions with respect to one or more Accounts of the Fund or with respect to foreign exchange, derivative investments or information and transactional web based services provided by the Custodian or a BNY Mellon Affiliate with respect to the Fund. Authorized Persons, their signatures and the extent of their authority shall be provided by a Certificate. The Custodian may conclusively rely on the authority of an Authorized Person until it receives Written Instructions to the contrary.

“BNY Mellon Affiliate” shall mean any direct or indirect subsidiary of The Bank of New York Mellon Corporation.

“BNY Mellon Group” shall have the meaning set forth in Section 9.5.

“Book-Entry System” shall mean the United States Federal Reserve/Treasury book-entry system for receiving and delivering securities, its successors and nominees.

“Centralized Functions” shall have the meaning set forth in Section 9.5.

“Certificate” shall mean any notice, instruction or other instrument in writing, authorized or required by this Agreement to be given to the Custodian, which is actually received by the Custodian by letter or facsimile transmission and signed on behalf of a Fund by an Authorized Person or a person reasonably believed by the Custodian to be an Authorized Person.

“Country Risk Event” shall mean (a) issues relating to the financial infrastructure of a country, (b) issues relating to a country’s prevailing custody and settlement practices, (c) nationalization, expropriation or other governmental actions, (d) issues relating to a country’s regulation of the banking or securities industry, (e) currency controls, restrictions, devaluations, redenominations or fluctuations or (f) market conditions which materially affect the orderly execution of securities transactions or materially affect the value of securities.

ASP/GSP Custody

“Data Providers” shall mean pricing vendors, analytics providers, brokers, dealers, investment managers, Authorized Persons, Subcustodians, Depositories and any other Person providing Market Data to the Custodian.

“Data Terms Website” shall mean <http://bnymellon.com/products/assetservicing/vendoragreement.pdf> or any successor website the address of which is provided by the Custodian to the Funds.

“Depository” shall include (a) the Book-Entry System, (b) the Depository Trust Company, (c) any other clearing agency or securities depository registered with the Securities and Exchange Commission identified to a Fund from time to time and (d) the respective successors and nominees of the foregoing.

“Economic Sanctions Compliance Program” shall mean those programs, policies, procedures and measures designed to ensure compliance with, and prevent violations of, Sanctions.

“Foreign Depository” shall mean (a) Euroclear, (b) Clearstream Banking, societe anonyme, (c) each Eligible Securities Depository as defined in Rule 17f-7 under the '40 Act identified to a Fund from time to time and (d) the respective successors and nominees of the foregoing.

“Instructions” shall mean Written Instructions, S.W.I.F.T., on-line communications or other method or system, each as specified by the Custodian as available for use in connection with the services hereunder.

“Losses” shall mean, collectively, losses, costs, expenses, damages, liabilities and claims.

“Market Data” shall mean pricing or other data related to Securities and other assets. Market Data includes but is not limited to security identifiers, valuations, bond ratings, classification data and other data received from investment managers and others.

“Non-Custody Assets” shall have the meaning set forth in Section 11.1.

“Operational Losses” shall have the meaning set forth in Section 2.1.

“Oral Instructions” shall mean instructions expressed in spoken words received by the Custodian. Where the Custodian provides recorded lines for this purpose, such instructions must be given using such lines.

“Person” or “Persons” shall mean any entity or individual.

“Replacement Subcustodian” shall have the meaning set forth in Section 2.1.

“Required Care” shall have the meaning set forth in Section 2.1.

“Sanctions” shall mean all economic sanctions, laws, rules, regulations, executive orders and requirements administered by any governmental authority of the U.S. (including the U.S. Office of Foreign Assets Control), and the European Union (including any national jurisdiction or member state thereof), in addition to any other applicable authority with jurisdiction over a Fund.

“Securities” shall include, without limitation, any common stock and other equity securities, depository receipts, limited partnership and limited liability company interests, bonds, debentures and other debt securities, notes or other obligations, and any instruments representing rights to receive, purchase or subscribe for the same, or representing any other rights or interests therein (whether represented by a certificate or held in a Depository, a Foreign Depository or with a Subcustodian or on the books of the issuer) that are acceptable to the Custodian.

“Series” shall mean the various portfolios, if any, of a Fund listed on Annex A hereto, and if none are listed references to Series shall be references to the Fund.

“Shares” shall have the meaning set forth in Section 6.1.

“Subcustodian” shall mean a bank or other financial institution (other than a Foreign Depository) located outside the United States which is utilized by the Custodian or by a BNY Mellon Affiliate in connection with the purchase, sale or custody of Securities or cash hereunder and is identified to a Fund from time to time, and their respective successors and assigns.

“Tax Obligations” shall mean taxes, withholding, certification and reporting requirements, claims for exemptions or refund, interest, penalties, additions to tax and other related expenses.

“Written Instructions” shall mean written communications, including a Certificate, received by the Custodian by overnight delivery, postal services or facsimile transmission.

1.2 Establishment of Account. (a) Each Fund hereby appoints the Custodian as the custodian of all Securities and cash at any time delivered to the Custodian to be held under this Agreement. The Custodian hereby accepts such appointment and agrees to establish and maintain one or more accounts for each Series in which the Custodian will hold Securities and cash as provided herein. Such accounts (each, an “Account,” and collectively, the “Accounts”) shall be in the name of the applicable Fund. This Agreement shall constitute a separate agreement between the Custodian and each separate Fund, as if each Fund had executed a separate document with the Custodian with respect to the subject matter of this Agreement, and no Fund shall have any liability under this Agreement for the obligations of any other Fund.

(b) The Custodian may from time to time establish on its books and records such sub-accounts within each Account as a Fund and the Custodian may agree upon (each a “Special Account”), and the Custodian shall reflect therein such assets as the Fund may specify in Instructions.

(c) The Custodian may from time to time establish pursuant to a written agreement with and for the benefit of a broker, dealer, future commission merchant or other third party identified in Instructions such accounts on such terms and conditions as a Fund and the Custodian shall agree, and the Custodian shall transfer to such account such Securities and cash as the Fund may specify in Instructions.

1.3 Representations and Warranties. (A) Each Fund hereby represents and warrants, which representations and warranties shall be continuing and shall be deemed to be reaffirmed on each date that any assets of the Fund are custodied hereunder, that:

(a) It is duly organized and existing under the laws of the jurisdiction of its organization, with full power to carry on its business as now conducted, to enter into this Agreement and to perform its obligations hereunder;

(b) This Agreement has been duly authorized, executed and delivered by the Fund, has been approved by a resolution of its board and constitutes a valid and legally binding obligation of the Fund, enforceable in accordance with its terms (except as may be limited by bankruptcy, insolvency or similar laws, or by equitable principles relating to or limiting creditors' rights generally), and there is no statute, regulation, rule, order or judgment binding on it, and no provision of its charter or by-laws, nor of any mortgage, indenture, credit agreement or other contract binding on it or affecting its property, which would prohibit its execution or performance of this Agreement;

(c) It is conducting its business in substantial compliance with all applicable laws and requirements, both state and federal, with which pursuant to the terms of such law or requirement it is required to comply, and it has obtained all regulatory licenses, approvals and consents necessary to carry on its business as now conducted;

(d) It will not use the services provided by the Custodian hereunder in any manner that is, or will result in, a violation of any law, rule or regulation applicable to the Fund;

(e) Its board or its foreign custody manager, as defined in Rule 17f-5 under the Investment Company Act of 1940, as amended (the "'40 Act'"), has determined that use of each Subcustodian (including any Replacement Subcustodian) which the Custodian is authorized to utilize in accordance with this Agreement satisfies the applicable requirements of the '40 Act and Rule 17f-5 thereunder;

(f) The Fund or its investment adviser has determined that the custody arrangements of each Foreign Depository provide reasonable safeguards against the custody risks associated with maintaining assets with such Foreign Depository within the meaning of Rule 17f-7 under the '40 Act;

(g) It is fully informed of the protections and risks associated with various methods of transmitting Instructions and Oral Instructions to the Custodian, shall safeguard and treat with extreme care any user and authorization codes, passwords and/or authentication keys, understands that there may be more secure methods of transmitting or delivering the same than the methods selected by it, agrees that the security procedures (if any) to be followed in connection therewith provide a commercially reasonable degree of protection in light of its particular needs and circumstances and acknowledges and agrees that Instructions need not be reviewed by the Custodian, may conclusively be presumed by the Custodian without inquiry to have been given by person(s) duly authorized and may be acted upon as given;

(h) It shall manage its borrowings, including, without limitation, any advance or overdraft (including any day-light overdraft) in its Accounts, so that the aggregate of its total borrowings for each Series does not exceed the amount such Series is permitted to borrow under the '40 Act;

(i) Its transmission or giving of, and the Custodian acting upon and in reliance on, Instructions or Oral Instructions pursuant to this Agreement shall at all times comply with the '40 Act;

(j) It shall impose and maintain restrictions on the destinations to which cash may be disbursed by Instructions to ensure that each disbursement is for a proper purpose; and

(k) It has the right to make the pledge and grant the security interest and security entitlement to the Custodian contained in Section 5 hereof, free of any right of redemption or prior claim of any other person or entity, such pledge and such grants shall have a first priority subject to no setoffs, counterclaims or other liens or grants prior to or on a parity therewith (except as set forth in the second sentence of Section 5.4), and it shall take such additional steps as the Custodian may require to assure such priority.

(B) The Custodian hereby represents and warrants, which representations and warranties shall be continuing and shall be deemed to be reaffirmed on each date that any assets are custodied hereunder, that:

(a) It is duly organized and existing under the laws of the jurisdiction of its organization, with full power to carry on its business as now conducted, to enter into this Agreement and to perform its obligations hereunder;

(b) This Agreement has been duly authorized, executed and delivered by the Custodian, and constitutes a valid and legally binding obligation of the Custodian, enforceable in accordance with its terms (except as may be limited by bankruptcy, insolvency or similar laws, or by equitable principles relating to or limiting creditors' rights generally), and there is no statute, regulation, rule, order or judgment binding on it, and no provision of its charter or by-laws, nor of any mortgage, indenture, credit agreement or other contract binding on it or affecting its property, which would prohibit its execution or performance of this Agreement; and

(c) It is conducting its business in substantial compliance with all applicable laws and requirements, both state and federal, with which pursuant to the terms of such law or requirement it is required to comply, and it has obtained all regulatory licenses, approvals and consents necessary to carry on its business as now conducted.

1.4 Distributions. The Custodian shall make distributions or transfers out of an Account solely pursuant to Instructions or as otherwise contemplated in this Agreement. In making payments to service providers pursuant to Instructions, each Fund acknowledges that the Custodian is acting in an administrative or in a ministerial capacity, and not as the payor, for tax information reporting and withholding purposes.

1.5 Authorized Instructions. The Custodian shall be entitled to rely upon any Oral Instructions or Instructions actually received by the Custodian and reasonably believed by the Custodian to be from an Authorized Person ("Authorized Instructions"). Notwithstanding any other provision included in this Agreement, Written Instructions relating to the disbursement of cash of a Fund other than in connection with the purchase, sale or settlement of Securities, shall be in the

form of a Certificate. Each Fund agrees that an Authorized Person shall forward to the Custodian Instructions confirming Oral Instructions by the close of business of the same day that such Oral Instructions are given to the Custodian. Each Fund agrees that the fact Instructions confirming Oral Instructions are not received or that contrary Instructions are received by the Custodian shall in no way affect the validity or enforceability of transactions authorized by such Oral Instructions and effected by the Custodian.

1.6 Authentication. If the Custodian receives Instructions that reasonably appear on their face to have been transmitted by an Authorized Person via (i) facsimile or other electronic method that is not secure or (ii) secure electronic transmission containing applicable authorization codes, passwords or authentication keys, each Fund understands and agrees that the Custodian cannot determine the identity of the actual sender of such Instructions and that the Custodian acting in good faith shall be entitled to conclusively presume that such Instructions have been sent by an Authorized Person. Each Fund shall be responsible for ensuring that only its Authorized Persons transmit Instructions to the Custodian and that all of the Fund's Authorized Persons safeguard and treat with extreme care applicable user and authorization codes, passwords and authentication keys.

1.7 On-Line Systems. If an Authorized Person elects to transmit Instructions through an on-line communication system offered by the Custodian, the use thereof shall be subject to any terms and conditions contained in a separate written agreement. If a Fund or an Authorized Person elects, with the Custodian's prior consent, to transmit Instructions through an on-line communications service owned or operated by a third party, the Fund agrees that the Custodian shall not be responsible or liable for the reliability or availability of any such service.

SECTION 2 – CUSTODY SERVICES

2.1 Holding Securities. (a) Subject to the terms hereof, each Fund hereby authorizes the Custodian to hold any Securities in registered form in the name of the Custodian or one of its nominees. The Custodian shall be responsible for the safekeeping of the Securities and cash received by it from time to time for a Fund's account on the terms set forth herein and shall not release or otherwise transfer such Securities or cash except as contemplated herein or in accordance with a Fund's instructions. Securities held for a Fund hereunder shall be segregated on the Custodian's books and records from the Custodian's own property. The Custodian shall be entitled to utilize, subject to subsection (d) of this Section 2.1, Subcustodians, Depositories, and subject to subsection (e) of this Section 2.1, Foreign Depositories in connection with its performance hereunder. Securities and cash held through a Subcustodian shall be held subject to the terms and conditions of the Custodian's or a BNY Mellon Affiliate's agreements with such Subcustodian. Securities and cash deposited by the Custodian in a Depository or Foreign Depository will be held subject to the rules, terms and conditions of such entity. Subcustodians may be authorized to hold Securities in Depositories or Foreign Depositories in which such Subcustodian participates. Unless otherwise required by local law or practice or a particular subcustodian agreement, Securities deposited with Subcustodians, Depositories or Foreign Depositories will be held in a commingled account in the name of the Custodian or a BNY Mellon Affiliate for the applicable Series, provided that to the extent reasonably possible in accordance with industry standards it is made apparent that the relevant Securities or other assets deposited therein do not belong to the Custodian or the Subcustodian. The Custodian shall identify on its books and records the Securities and cash

belonging to a Fund, whether held directly or indirectly through Subcustodians, Depositories or Foreign Depositories. The Custodian shall, directly or indirectly through Subcustodians, Depositories or Foreign Depositories, endeavor, to the extent feasible, to hold Securities in the country or other jurisdiction in which the principal trading market for such Securities is located, where such Securities are to be presented for cancellation and/or payment and/or registration or where such Securities are acquired. The Custodian at any time may cease utilizing any Subcustodian and/or may replace a Subcustodian with a different Subcustodian (a "Replacement Subcustodian"). In the event the Custodian selects a Replacement Subcustodian, the Custodian shall not utilize such Replacement Subcustodian until after the applicable Fund's board or foreign custody manager has determined that utilization of such Replacement Subcustodian satisfies the requirements of the '40 Act and Rule 17f-5 thereunder.

(b) The Custodian shall exercise reasonable care in the selection and retention, monitoring and continued use of a Subcustodian in light of prevailing rules, terms, practices and procedures in the relevant market ("Required Care"). The Custodian shall be liable for repayment to a Fund of cash credited to an Account and cash credited to the Fund's or the Custodian's cash account at a Subcustodian that the Custodian is not able to recover from the Subcustodian (other than to the extent relating to a Country Risk Event). With respect to any Losses incurred by a Fund as a result of an act or the failure to act by any Subcustodian ("Operational Losses"), the Custodian shall be liable for: (i) Operational Losses with respect to Securities or cash held by the Custodian with or through a BNY Mellon Affiliate to the extent the Custodian would be liable under this Agreement if the applicable act or failure to act was that of the Custodian; and (ii) Operational Losses with respect to Securities or cash held by the Custodian with or through a Subcustodian (other than a BNY Mellon Affiliate) to the extent that such Operational Losses were directly caused by failure on the part of the Custodian to exercise Required Care; provided that in no event shall the Custodian have any liability for Operational Losses to the extent relating to a Country Risk Event. With respect to all other Operational Losses not covered by clauses (i) and (ii) (including the proviso) above, the Custodian shall take appropriate action to recover such Operational Losses from the applicable Subcustodian and the Custodian's sole liability shall be limited to amounts recovered from such Subcustodian (exclusive of costs and expenses incurred by the Custodian); with respect to such Operational Losses, to the extent the applicable Series has not been made whole within a reasonable period of time, at such Series' election and to the extent practicable under the circumstances and allowable under applicable law and not prohibited by the agreement between the Custodian and the Subcustodian such Series shall be subrogated to the rights of the Custodian against the Subcustodian.

(c) Unless the Custodian has received Instructions to the contrary, the Custodian shall hold Securities indirectly through a Subcustodian only if (i) the Securities are not subject to any right, charge, security interest, lien or claim of any kind in favor of such Subcustodian or its creditors or operators, including a receiver or trustee in bankruptcy or similar authority, except for a claim of payment for the safe custody or administration of Securities on behalf of the applicable Fund by such Subcustodian and (ii) beneficial ownership of the Securities is freely transferable without the payment of money or value other than for safe custody or administration.

(d) With respect to each Depository, the Custodian (i) shall exercise due care in accordance with reasonable commercial standards in discharging its duties as a securities

intermediary to obtain and thereafter maintain Securities or financial assets deposited or held in such Depository and (ii) will provide, promptly upon request by a Fund, such reports as are available concerning the internal accounting controls and financial strength of the Custodian.

(e) With respect to each Foreign Depository, the Custodian shall exercise reasonable care, prudence and diligence (i) to provide the Funds with an analysis of the custody risks associated with maintaining assets with the Foreign Depository and (ii) to monitor such custody risks on a continuing basis and promptly notify the Funds of any material change in such risks. Each Fund acknowledges and agrees that such analysis and monitoring shall be made on the basis of, and limited by, information gathered from Subcustodians or through publicly available information otherwise obtained by the Custodian, and shall not include any evaluation of Country Risk Events.

2.2 Depositories. The Custodian shall have no liability whatsoever for the action or inaction of a Depository or a Foreign Depository or for any Losses resulting from the maintenance of assets with a Depository or a Foreign Depository. Notwithstanding the foregoing sentence, the Custodian shall be liable for repayment to a Fund of cash credited to the Fund's, the Custodian's or a Subcustodian's account at a Depository or a Foreign Depository that the Custodian is not able to recover from the Depository or Foreign Depository (other than to the extent relating to a Country Risk Event).

2.3 Agents. The Custodian may appoint agents, including BNY Mellon Affiliates, on such terms and conditions as it deems appropriate to perform its services hereunder. Except as otherwise provided herein, no such appointment shall discharge the Custodian from its obligations hereunder.

2.4 Custodian Actions without Direction. With respect to Securities held hereunder, the Custodian shall:

- a. Receive all eligible income and other payments due to the Accounts;
- b. Carry out any exchanges of Securities or other corporate actions not requiring discretionary decisions;
- c. Facilitate access by a Fund or its designee to ballots or online systems to assist in the voting of proxies received by the Custodian in its capacity as custodian for eligible positions of Securities held in the Fund's Accounts (excluding bankruptcy matters);
- d. Forward promptly to a Fund or its designee information (or summaries of information) that the Custodian receives in its capacity as custodian from Depositories or Subcustodians concerning Securities in the Fund's Accounts (excluding bankruptcy matters);
- e. Forward promptly to a Fund or its designee an initial notice of bankruptcy cases relating to Securities held in the Fund's Accounts and a notice of any required action related to such bankruptcy cases as may be received by the Custodian in its capacity as custodian. No further action or notification related to the bankruptcy case shall be required;

f. Endorse for collection checks, drafts or other negotiable instruments; and

g. Execute and deliver, solely in its custodial capacity, certificates, documents or instruments incidental to the Custodian's performance under this Agreement.

2.5 Custodian Actions with Direction. The Custodian shall take the following actions in the administration of the Accounts only pursuant to Authorized Instructions:

a. Settle purchases and sales of Securities and process other transactions, including free receipts and deliveries to a broker, dealer, future commission merchant or other third party specified in Instructions;

b. Take actions necessary to settle transactions in connection with futures or options contracts, short-selling programs, foreign exchange or foreign exchange contracts, swaps and other derivative investments; and

c. Deliver Securities in an Account if an Authorized Person advises the Custodian that the Fund has entered into a separate securities lending agreement, provided that the Fund executes such agreements as the Custodian may require in connection with such arrangements.

2.6 Foreign Exchange Transactions. (a) For the purpose of settling Securities and foreign exchange transactions, the applicable Fund shall provide the Custodian with sufficient immediately available funds for all transactions by such time and date as conditions in the relevant market dictate. As used herein, "sufficient immediately available funds" shall mean either (i) sufficient cash denominated in United States dollars to purchase the necessary foreign currency or (ii) sufficient applicable foreign currency, to settle the transaction. The Custodian shall provide a Fund with immediately available funds each day which result from the actual settlement of all sale transactions, based upon advices received by the Custodian from Subcustodians, Depositories and Foreign Depositories. Such funds shall be in United States dollars or such other currency as a Fund may specify to the Custodian.

(b) Any foreign exchange transaction effected by the Custodian in connection with this Agreement may be entered with the Custodian or a BNY Mellon Affiliate acting as a principal or otherwise through customary channels. A Fund may issue standing Instructions with respect to foreign exchange transactions, but the Custodian may establish rules or limitations concerning any foreign exchange facility made available to the Fund.

SECTION 3 – CORPORATE ACTIONS

3.1 Custodian Notification. The Custodian shall notify a Fund or its designee of rights or discretionary corporate actions as promptly as practicable under the circumstances, provided that the Custodian in its capacity as custodian has actually received notice of such right or discretionary corporate action from the relevant Subcustodian or Depository or issuer of the relevant Security. Without actual receipt of such notice by the Custodian in its capacity as custodian the Custodian shall have no liability for failing to so notify a Fund.

3.2 Direction. Whenever there are voluntary rights that may be exercised or alternate courses of action that may be taken by reason of a Fund's ownership of Securities, the Fund or its designee shall be responsible for making any decisions relating thereto and for directing the Custodian to act. In order for the Custodian to act, it must receive Instructions using the Custodian generated form or clearly marked as instructions for the decision at the Custodian's offices addressed as the Custodian may from time to time reasonably request, by such time as the Custodian shall reasonably advise the Fund or its designee. If the Custodian does not receive such Instructions by such deadline, the Custodian shall not be liable for failure to take any action relating to or to exercise any rights conferred by such Securities.

3.3 Voting Rights. All voting rights with respect to Securities, however registered, shall be exercised by the applicable Fund or its designee. The Custodian will make available to a Fund proxy voting services upon the request of, and for the jurisdictions selected by, the Fund in accordance with terms and conditions to be mutually agreed upon by the Custodian and the Fund.

3.4 Partial Redemptions, Payments, Etc. The Custodian shall promptly advise the applicable Fund or its designee upon its notification in its capacity as custodian of a partial redemption, partial payment or other action with respect to a Security affecting fewer than all such Securities held within an Account. If the Custodian or any Subcustodian, Depository or Foreign Depository holds any Securities affected by one of the events described, the Custodian, Subcustodian, Depository or Foreign Depository may in good faith select the Securities to participate in such partial redemption, partial payment or other action in any non-discriminatory manner that it customarily uses to make such selection.

SECTION 4 – SETTLEMENT OF TRADES

4.1 Payments. Promptly after each purchase or sale of Securities by a Fund, an Authorized Person shall deliver to the Custodian Instructions specifying all information necessary for the Custodian to settle such purchase or sale. For the purpose of settling purchases of Securities, a Fund shall provide the Custodian with sufficient immediately available funds for all such transactions by such time and date as conditions in the relevant market dictate.

4.2 Contractual Settlement and Income. The Custodian may, as a matter of bookkeeping convenience, credit an Account with the proceeds from the sale, redemption or other disposition of Securities or interest, dividends or other distributions payable on Securities prior to its actual receipt of final payment therefor. All such credits shall be conditional until the Custodian's actual receipt of final payment and may be reversed by the Custodian to the extent that final payment is not received. Payment with respect to a transaction will not be "final" until the Custodian shall have received immediately available funds that under applicable local law, rule and practice are irreversible and not subject to any security interest, levy or other encumbrance, and that are specifically applicable to such transaction.

4.3 Trade Settlement. Transactions will be settled using practices customary in the jurisdiction or market where the transaction occurs. Each Fund understands that when the Custodian is instructed to deliver Securities against payment, delivery of such Securities and receipt of payment therefor may not be completed simultaneously. Each Fund assumes full responsibility for all risks involved in connection with the Custodian's delivery of Securities pursuant to Authorized Instructions in accordance with local market practice.

SECTION 5 – DEPOSITS AND ADVANCES

5.1 Deposits. The Custodian may hold cash in Accounts or may arrange to have cash held by a BNY Mellon Affiliate or Subcustodian, or with a Depository or Foreign Depository. Where cash is on deposit with the Custodian, a Subcustodian or a BNY Mellon Affiliate, it will be subject to the terms of this Agreement and such deposit terms and conditions as may be issued by the Custodian or a BNY Mellon Affiliate or Subcustodian, to the extent applicable, from time to time, including rates of interest and deposit account access.

5.2 Sweep and Float. Cash may be swept as directed by a Fund or its investment adviser to investment vehicles offered by the Custodian or to other investment vehicles. Cash may be uninvested when it is received or reconciled to an Account after the deadline to be swept into a target vehicle, or when held for short periods of time related to transaction settlements. Each Fund acknowledges that, as part of the Custodian's compensation, the Custodian will earn interest on cash balances held by the Custodian, including disbursement balances and balances arising from purchase and sale transactions, as provided in the Custodian's indirect compensation disclosures.

5.3 Overdrafts and Indebtedness. The Custodian may, in its sole discretion, advance funds in any currency hereunder. If an overdraft occurs in an Account (including, without limitation, overdrafts incurred in connection with the settlement of securities transactions, funds transfers or foreign exchange transactions) or if a Fund is for any other reason indebted to the Custodian (not to include indemnification payments contemplated under Section 9.8), the Fund agrees to repay the Custodian on demand or upon becoming aware of the amount of the advance, overdraft or indebtedness, plus accrued interest at a rate then charged by the Custodian to its institutional custody clients in the relevant currency.

5.4 Securing Repayment. In order to secure repayment of a Fund's obligations to the Custodian (with respect to a particular Series), the Fund hereby pledges and grants to the Custodian and agrees the Custodian shall have to the maximum extent permitted by law, a continuing first lien and security interest in, and right of setoff against, all of the Fund's right, title and interest in and to all Accounts relating to such Series and the Securities, cash and other property now or hereafter held in such Accounts (including proceeds thereof). Each Fund represents, warrants and covenants that it owns the Securities in its Accounts free and clear of all liens, claims and security interests, and that the first lien and security interest granted herein shall be subject to no setoffs, counterclaims or other liens prior to or on a parity with it in favor of any other party (other than specific liens granted preferred status by statute or as otherwise agreed in writing among the Custodian, the Fund and any relevant third party). Each Fund shall take any additional steps required to assure the Custodian of such priority security interest, including notifying third parties or obtaining their consent. The Custodian shall be entitled to collect from the Accounts sufficient cash for reimbursement, and if such cash is insufficient, to sell the Securities in the Accounts to the extent necessary to obtain such reimbursement. In this regard, the Custodian shall be entitled to all the rights and remedies of a pledgee and secured creditor under applicable laws, rules and regulations as then in effect.

5.5 Setoff. The Custodian has the right to debit any cash in a Series' Accounts for any amount payable by the Series in connection with any and all obligations of the Series to the Custodian under this Agreement. In addition to the rights of the Custodian under applicable law and other agreements, at any time when a Series shall not have honored any and all of its obligations to the Custodian with respect to this Agreement, the Custodian shall have the right without notice to the Series to retain or set-off against such obligations of the Series any cash the Custodian or a BNY Mellon Affiliate may directly or indirectly hold for the Series, and any obligations (whether or not matured) that the Custodian or a BNY Mellon Affiliate may have to the Series in any currency. Any such asset of, or obligation to, a Series may be transferred to the Custodian and any BNY Mellon Affiliate in order to effect the above rights.

SECTION 6 – SALE AND REDEMPTION OF SHARES

6.1 Sale of Shares. Whenever a Fund shall sell any shares issued by the Fund (“Shares”) it shall deliver to the Custodian Instructions specifying the amount of cash and/or Securities to be received by the Custodian for the sale of such Shares and specifically allocated to an Account for such Series. Upon receipt of such cash, the Custodian shall credit such cash to an Account in the name of the Series for which such cash was received.

6.2 Redemption of Shares. Except as provided hereinafter, whenever a Fund desires the Custodian to make payment out of the cash held by the Custodian hereunder in connection with a redemption of any Shares, it shall furnish to the Custodian Instructions specifying the total amount to be paid for such Shares. The Custodian shall make payment of such total amount to the transfer agent specified in such Instructions out of the cash held in an Account of the appropriate Series.

6.3 Check Redemptions. Notwithstanding the above provisions regarding the redemption of any Shares, whenever any Shares are redeemed pursuant to any check redemption privilege which may from time to time be offered by a Fund, the Custodian, unless otherwise instructed by Instructions, shall, upon presentment of such check, charge the amount thereof against the cash held in the Account of the Series of the Shares being redeemed, provided, that if the Fund or its agent timely advises the Custodian that such check is not to be honored, the Custodian shall return such check unpaid.

SECTION 7 – PAYMENT OF DIVIDENDS AND DISTRIBUTIONS

7.1 Determination to Pay. Whenever a Fund shall determine to pay a dividend or distribution on Shares it shall furnish to the Custodian Instructions setting forth with respect to the Series specified therein the date of the declaration of such dividend or distribution, the total amount payable and the payment date.

7.2 Payment. Upon the payment date specified in such Instructions, the Custodian shall pay out of the cash held for the account of such Series the total amount payable to the dividend agent of the Fund specified therein.

SECTION 8 – TAXES, REPORTS, RECORDS AND OTHER MATTERS

8.1 Tax Obligations. Each Fund shall be liable for all taxes, assessments, duties and other governmental charges, including interest and penalties, with respect to any cash and Securities held on behalf of the Fund and any transaction related thereto. To the extent that the Custodian has received relevant and necessary information with respect to an Account, the Custodian shall perform the following services with respect to Tax Obligations:

- a. The Custodian shall, upon receipt of sufficient information, file claims for exemptions or refunds with respect to withheld foreign (non-United States) taxes in instances in which such claims are appropriate;
- b. The Custodian shall withhold appropriate amounts, as required by United States tax laws, with respect to amounts received on behalf of nonresident aliens upon receipt of Instructions; and
- c. The Custodian shall provide to the applicable Fund such information received by the Custodian (in its capacity as custodian) that could, in the Custodian's reasonable belief, assist the Fund or its designee in the submission of any reports or returns with respect to Tax Obligations. An Authorized Person shall inform the Custodian in writing as to which party or parties shall receive information from the Custodian.

8.2 Pricing and Other Data. In providing Market Data related to the Accounts in connection with this Agreement, the Custodian is authorized to use Data Providers. The Custodian may follow Authorized Instructions in providing pricing or other Market Data, even if such instructions direct the Custodian to override its usual procedures and Market Data sources. The Custodian shall be entitled to rely without inquiry on all Market Data (and all Authorized Instructions related to Market Data) provided to it, and the Custodian shall not be liable for any Losses incurred as a result of errors or omissions with respect to any Market Data utilized by the Custodian or a Fund hereunder. Each Fund acknowledges that certain pricing or valuation information may be based on calculated amounts rather than actual market transactions and may not reflect actual market values, and that the variance between such calculated amounts and actual market values may be material. The Custodian shall not be required to inquire into the pricing of any Securities or other assets even though the Custodian may receive different prices for the same Securities or assets. Market Data may be the intellectual property of the Data Providers, which may impose additional terms and conditions upon a Fund's use of the Market Data. The additional terms and conditions can be found in the Data Terms Website. Each Fund agrees to those terms as they are posted in the Data Terms Website from time to time. Certain Data Providers may not permit a Fund's directed price to be used. Performance measurement and analytic services may use different data sources than those used by the Custodian to provide Market Data for an Account, with the result that different prices and other Market Data may apply.

8.3 Statements and Reports. The Custodian shall make available to each Fund a monthly report of all transfers to or from the Fund's Accounts and a statement of all holdings in the Fund's Accounts as of the last business day of each month. A Fund may elect to receive certain information electronically through the Internet to an email address specified by it for such purpose;

electing to use the Internet for this purpose, the Fund acknowledges that such transmissions may not be encrypted and therefore in such case would not be secure; the Fund further acknowledges that there are other risks inherent in communicating through the Internet such as the possibility of virus contamination and disruptions in service, and agrees that the Custodian shall not be responsible for any Losses suffered or incurred by the Fund or any person claiming by or through the Fund as a result of the use of such methods.

8.4 Review of Reports. If, within ninety (90) days after the Custodian makes available to a Fund a statement with respect to the Fund's Accounts, the Fund has not given the Custodian written notice of any exception or objection thereto, the statement, absent manifest error, shall be deemed to have been approved.

8.5 Books and Records. The books and records pertaining to a Fund which are in possession of the Custodian shall be the property of the Fund. Such books and records shall be prepared and maintained as required by the '40 Act and the rules thereunder, and the Fund, or its authorized representatives, shall have access to such books and records during the Custodian's normal business hours. Upon the reasonable request of a Fund, copies of the aforementioned books and records shall be provided by the Custodian to the Fund or its authorized representative; upon the reasonable request of the Fund, the Custodian shall provide in hard copy or on computer disc any records included in any such delivery which are maintained by the Custodian on a computer disc, or are similarly maintained.

8.6 Required Disclosure. With respect to Securities issued in the United States, the Shareholder Communications Act of 1985 (the "Act") requires the Custodian to disclose to issuers, upon their request, the name, address and securities position of the Custodian's clients who are "beneficial owners" (as defined in the Act) of the issuer's Securities, unless the beneficial owner objects to such disclosure. The Act defines a "beneficial owner" as any person who has or shares the power to vote a security (pursuant to an agreement or otherwise) or who directs the voting of a security. Each Fund represents that it is the beneficial owner of the Securities. As beneficial owner each Fund has designated below whether it objects to the disclosure of its name, address and securities position to any United States issuer that requests such information pursuant to the Act for the specific purpose of direct communications between such issuer and the Fund.

With respect to Securities issued outside the United States, the Custodian shall disclose information required by law, regulation, rules of a stock exchange or organizational documents of an issuer. The Custodian is also authorized to supply any information regarding the Accounts that is required or requested by governmental or regulatory authorities or by any law, regulation or rules now or hereafter in effect. Each Fund agrees to supply the Custodian with any required information if it is not otherwise reasonably available to the Custodian.

Pursuant to this Section 8.6, as Beneficial Owner:

- The Fund OBJECTS to disclosure
- The Fund DOES NOT OBJECT to disclosure

8.7 Sanctions.

(a) Throughout the term of this Agreement, each Fund (i) shall maintain, and comply with, an Economic Sanctions Compliance Program which includes measures to accomplish effective and timely scanning of all relevant data with respect to its clients and with respect to incoming or outgoing assets or transactions; (ii) shall take all steps legally required to ensure that neither the Fund nor any of its affiliates, directors, officers, employees or clients (to the extent such clients are covered by this Agreement) is an individual or entity that is, or is owned or controlled by an individual or entity that is: (A) the target of Sanctions, or (B) located, organized or resident in a country or territory that is, or whose government is, the target of Sanctions; and (iii) shall not, directly or indirectly, use its Accounts in any manner that would result in a violation of Sanctions.

(b) Each Fund will promptly provide to the Custodian such information as the Custodian reasonably requests in connection with the matters referenced in this Section 8.7, including information regarding its Accounts, the assets held or to be held in its Accounts, the source thereof, and the identity of any individual or entity having or claiming an interest therein. The Custodian may decline to act or provide services in respect of any Account, and take such other actions as it, in its reasonable discretion, deems necessary or advisable, in connection with the matters referenced in this Section 8.7. If the Custodian declines to act or provide services as provided in the preceding sentence, except as otherwise prohibited by applicable law or official request, the Custodian will inform the applicable Fund as soon as reasonably practicable.

SECTION 9 – PROVISIONS REGARDING THE CUSTODIAN

9.1 Standard of Care. In performing its duties under this Agreement, the Custodian shall exercise the standard of care and diligence that a professional custodian would observe in these affairs.

9.2 Limitation of Duties and Liability. Notwithstanding anything contained elsewhere in this Agreement, the Custodian's liability hereunder is limited as follows:

- a. The duties of the Custodian shall only be those specifically undertaken pursuant to this Agreement and shall be subject to such other limits on liability as are set out herein;
- b. The Custodian shall not be liable for any Losses that are not a direct result of the Custodian's negligence or willful misconduct;
- c. The Custodian shall not be responsible for the title, validity or genuineness of any Securities or evidence of title thereto received by it or delivered by it pursuant to this Agreement or for Securities held hereunder being freely transferable or deliverable without encumbrance in any relevant market;
- d. The Custodian shall not be responsible for the failure to receive payment of, or the late payment of, income or other payments due to an Account;
- e. The Custodian shall have no duty to take any action to collect any amount payable on Securities in default or if payment is refused after due demand and presentment;

f. The Custodian may obtain the advice of counsel and shall be fully protected with respect to anything done or omitted by it in good faith in conformity with such advice;

g. The Custodian shall have no duty or responsibility to inquire into, make recommendations, supervise or determine the suitability of any transactions affecting any Account and shall have no liability with respect to any Fund's or any Authorized Person's decision to invest in Securities or to hold cash in any currency;

h. The Custodian shall have no responsibility if the rules or procedures imposed by Depositories or Foreign Depositories, exchange controls, asset freezes or other laws, rules, regulations or orders at any time prohibit or impose burdens or costs on the transfer of Securities or cash to, by or for the account of a Fund; and

i. The Custodian shall have no liability for any Losses arising from the insolvency of any Person, including but not limited to a Subcustodian, Depository, Foreign Depository, broker, bank or counterparty to the settlement of a transaction or a foreign exchange transaction, except as provided in Section 2.1(b) and Section 2.2.

9.3 Losses. Under no circumstances shall the Custodian or a Fund be liable to the other or any third party for indirect, consequential or special damages, or lost profits or loss of business, arising in connection with this Agreement, even if it has been advised of the possibility of such damages.

9.4 Gains. Where an error or omission has occurred under this Agreement, the Custodian may take such remedial action as it considers appropriate under the circumstances and, provided that the applicable Fund is put in the same or equivalent position as it would have been in if the error or omission had not occurred, any favorable consequences of the Custodian's remedial action shall be solely for the account of the Custodian, without any duty to report to the Fund any loss assumed or benefit received by it as a result of taking such action.

9.5 Centralized Functions. The Bank of New York Mellon Corporation is a global financial organization that provides services to clients through its affiliates and subsidiaries in multiple jurisdictions (the "BNY Mellon Group"). The BNY Mellon Group may centralize functions including audit, accounting, risk, legal, compliance, sales, administration, product communication, relationship management, storage, compilation and analysis of customer-related data, and other functions (the "Centralized Functions") in one or more affiliates, subsidiaries and third-party service providers. Solely in connection with the Centralized Functions, (i) each Fund consents to the disclosure of and authorizes the Custodian to disclose information regarding the Fund and its Accounts ("Customer-Related Data") to the BNY Mellon Group and to its third-party service providers who are subject to confidentiality obligations with respect to such information and (ii) the Custodian may store the names and business contact information of each Fund's employees and representatives on the systems or in the records of the BNY Mellon Group or its service providers. The BNY Mellon Group may aggregate Customer-Related Data with other data collected and/or calculated by the BNY Mellon Group, and notwithstanding anything in this Agreement to the contrary the BNY Mellon Group will own all such aggregated data, provided that the BNY Mellon Group shall not distribute the aggregated data in a format that identifies Customer-Related Data

with a Fund. Each Fund confirms that it is authorized to consent to the foregoing and that the disclosure and storage of information in connection with the Centralized Functions does not violate any relevant data protection legislation.

9.6 Force Majeure. Notwithstanding anything in this Agreement to the contrary, the Custodian shall not be responsible or liable for any failure to perform under this Agreement or for any Losses to any Account resulting from any event beyond the reasonable control of the Custodian.

9.7 Fees. Each Fund shall pay to the Custodian the fees and charges as may be specifically agreed upon from time to time and such other fees and charges at the Custodian's standard rates for any additional services as may be applicable. Each Fund shall also reimburse the Custodian for reasonable out-of-pocket expenses that are a normal incident of the services provided hereunder.

9.8 Indemnification. Each Fund shall indemnify and hold harmless the Custodian from and against all Losses, including reasonable counsel fees and expenses in third party suits and in a successful defense of claims asserted by the Fund, relating to or arising out of the performance of the Custodian's obligations under this Agreement, except to the extent resulting from the Custodian's negligence or willful misconduct. This provision shall survive the termination of this Agreement.

SECTION 10 – AMENDMENT; TERMINATION; ASSIGNMENT

10.1 Amendment. This Agreement may be amended only by written agreement signed by the applicable parties.

10.2 Termination. A Fund or the Custodian may terminate this Agreement with respect to the Fund by giving to the other party a notice in writing specifying the date of such termination, which shall be not less than ninety (90) days after the date of such notice. Upon termination hereof, the applicable Fund shall pay to the Custodian such compensation as is due to the Custodian, and shall likewise reimburse the Custodian for other amounts payable or reimbursable to the Custodian hereunder. The Custodian shall follow such reasonable Instructions concerning the transfer of custody of records, Securities and other items as a Fund shall give; provided that (a) the Custodian shall have no liability for shipping and insurance costs associated therewith and (b) full payment shall have been made to the Custodian of its compensation, costs, expenses and other amounts to which it is entitled hereunder. If any Securities or cash remain in any Account after termination and the Custodian having carried out its obligations to transfer such items, the Custodian may deliver to the applicable Fund such Securities and cash. Provisions authorizing the disclosure of information shall survive termination of this Agreement. Except as otherwise provided herein, all obligations of the Custodian or the Fund to the other hereunder shall cease upon termination of this Agreement with respect to the Fund.

10.3 Successors and Assigns. Neither a Fund nor the Custodian may assign this Agreement without the prior written consent of the other, except that the Custodian may assign this Agreement to any BNY Mellon Affiliate with a credit rating the same or better than the Custodian

on the date hereof without the need for such consent. Any entity that shall by merger, consolidation, purchase or otherwise succeed to substantially all the institutional custody business of the Custodian shall, upon such succession and without any appointment or other action by any Fund, be and become successor custodian hereunder. The Custodian agrees to provide notice of such successor custodian to the Funds. This Agreement shall be binding upon, and inure to the benefit of, each Fund and the Custodian and their respective successors and permitted assigns.

SECTION 11 – ADDITIONAL PROVISIONS

11.1 Non-Custody Assets. As an accommodation to a Fund, the Custodian may provide consolidated recordkeeping services pursuant to which the Custodian reflects on statements securities and other assets not held by, or in the custodial network of, the Custodian (“Non-Custody Assets”). Non-Custody Assets shall be designated on the Custodian’s books as “shares not held” or by other similar characterization. Each Fund acknowledges and agrees that it shall have no security entitlement against the Custodian with respect to Non-Custody Assets, that the Custodian shall rely, without independent verification, on information provided by the Fund, its designee or the entity having custody regarding Non-Custody Assets (including but not limited to positions and market valuations), and that the Custodian shall have no responsibility whatsoever with respect to Non-Custody Assets or the accuracy of any information maintained on the Custodian’s books or set forth on account statements concerning Non-Custody Assets.

11.2 Appropriate Action. The Custodian is hereby authorized and empowered, in its good faith, reasonable discretion, to take any action with respect to an Account that is necessary or appropriate in carrying out the purposes of this Agreement.

11.3 Governing Law. This Agreement shall be construed in accordance with and governed by the substantive laws of the state of New York without regard to its conflicts of law provisions. The parties consent to the jurisdiction of a state or federal court situated in New York City, New York in connection with any dispute hereunder. Each Fund and the Custodian each for itself irrevocably waives any objection it may now or hereafter have to venue in such court and any claim that a proceeding brought in such court has been brought in an inconvenient forum. The parties hereby expressly waive, to the full extent permitted by applicable law, any right to trial by jury with respect to any judicial proceeding arising from or related to this Agreement. The parties agree that the establishment and maintenance of the Accounts, and all interests, duties and obligations with respect thereto, shall be governed by the laws of the state of New York.

11.4 USA PATRIOT Act. Each Fund hereby acknowledges that the Custodian is subject to federal laws, including the Customer Identification Program (“CIP”) requirements under the USA PATRIOT Act and its implementing regulations, pursuant to which the Custodian must obtain, verify and record information that allows the Custodian to identify the Fund. Accordingly, prior to opening an Account hereunder, the Custodian will ask the applicable Fund to provide certain information including, but not limited to, the Fund’s name, physical address, tax identification number and other information that will help the Custodian to identify and verify the Fund’s identity, such as organizational documents, certificate of good standing, license to do business or other pertinent identifying information. Each Fund agrees that the Custodian cannot open an Account hereunder unless and until the Custodian verifies the applicable Fund’s identity in accordance with the Custodian’s CIP.

11.5 Non-Fiduciary Status. Each Fund hereby acknowledges and agrees that the Custodian is not a fiduciary by virtue of accepting and carrying out its obligations under this Agreement and has not accepted any fiduciary duties, responsibilities or liabilities with respect to its services hereunder.

11.6 Notices. Notices shall be in writing and shall be addressed to the Custodian or a Fund at the address set forth on the signature page or such other address as the Custodian or a Fund may designate in writing to the other. All notices shall be effective upon receipt.

11.7 Entire Agreement. This Agreement and any related fee agreement constitute the entire agreement with respect to the matters dealt with herein, and supersede all previous agreements, whether oral or written, and documents with respect to such matters.

11.8 Necessary Parties. All of the understandings, agreements, representations and warranties contained herein are solely for the benefit of the Funds and the Custodian, and there are no other parties who are intended to be benefited by this Agreement.

11.9 Execution in Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed an original, and said counterparts when taken together shall constitute but one and the same instrument and may be sufficiently evidenced by one set of counterparts.

11.10 Captions. The captions of this Agreement are included for convenience of reference only and in no way define or delimit any of the provisions hereof or otherwise affect their construction or effect.

**AMENDMENT
TO
CUSTODY AGREEMENT**

This Amendment (“Amendment”) is made as of the 8th day of April, 2019, by and between each Fund listed on Annex A to the Agreement (as defined below) (each, a “Fund”) and THE BANK OF NEW YORK MELLON (“BNY Mellon”).

BACKGROUND:

- A. BNY Mellon and each Fund entered into a Custody Agreement dated as of October 3, 2018 (the “Agreement”) relating to BNY Mellon’s provision of services to each Fund.
- B. The parties desire to amend the Agreement as set forth herein.

TERMS:

The parties hereby agree that:

- 1. The following section is hereby added to the Agreement:

Section 11.11: If an entity is added to Annex A of this Agreement that is not a management investment company (a “non-RIC”), such entity shall nonetheless be a “Fund” under this Agreement and if a term or provision is inapplicable to a non-RIC because it (i) applies to a regulatory provision not applicable to non-RICs (e.g., the 40 Act), (ii) applies to a structural feature either not present in a non-RIC or not applicable to a non-RIC’s shares or (iii) is unambiguously not applicable to a non-RIC based on its context, then such term or provision shall not apply to such non-RIC.
- 2. Annex A to the Agreement is hereby deleted in its entirety and replaced with Annex A attached hereto.
- 3. Miscellaneous.
 - (a) As hereby amended and supplemented, the Agreement shall remain in full force and effect.
 - (b) The Agreement, as amended hereby, constitutes the complete understanding and agreement of the parties with respect to the subject matter hereof and supersedes all prior communications with respect thereto.

EXECUTION

- (c) This Amendment may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The facsimile signature of any party to this Amendment shall constitute the valid and binding execution hereof by such party.
- (d) This Amendment shall be governed by the laws of the State of New York, without regard to its principles of conflicts of laws.

[Signature page follows.]

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be executed by their duly authorized officers designated below on the date and year first above written.

**AMENDMENT
TO
CUSTODY AGREEMENT**

This Amendment (“Amendment”) is made as of the 8th day of April, 2019 by and between each management investment company listed on Annex A to the Agreement (as defined below) (each, a “Fund”) and THE BANK OF NEW YORK MELLON (“BNY Mellon”).

BACKGROUND:

- A. BNY Mellon and each Fund entered into a Custody Agreement dated as of October 3, 2018, as amended (the “Agreement”) relating to BNY Mellon’s provision of services to each Fund.
- B. The parties desire to amend the Agreement as set forth herein.

TERMS:

The parties hereby agree that:

- 1. Section 11 of the Agreement is hereby amended and supplemented by adding the following:
 - 11.12 Loan Administration.** The Custodian will perform the following functions with respect to bank loans held by a Series:
 - (a) Remit funds to the recipient borrower or seller of bank loans pursuant to Instructions;
 - (b) Subject to timely receipt of applicable information, enter standard bank loan information into the Custodian’s loan tracking system with respect to such bank loans of which the Custodian is informed by the Series pursuant to Instructions; and
 - (c) Prepare and deliver to the Series on a mutually agreed periodic basis a position summary statement, cash flow activity report and contract accrual report with respect to such bank loans of which the Custodian is informed by the Series pursuant to Instructions.
- 2. Miscellaneous.
 - (a) Capitalized terms not defined in this Amendment shall have the same meanings as in the Agreement. In the event of a conflict between the terms hereof and the Agreement, as to services described in this Amendment, this Amendment shall control.
 - (b) As hereby amended and supplemented, the Agreement shall remain in full force and effect.

Highland Funds

- (c) The Agreement, as amended hereby, constitutes the complete understanding and agreement of the parties with respect to the subject matter thereof and supersedes all prior communications with respect thereto.
- (d) This Amendment may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The facsimile signature of any party to this Amendment shall constitute the valid and binding execution hereof by such party.
- (e) This Amendment shall be governed by the laws of the State of New York, without regard to its principles of conflicts of laws.

VIA EDGAR

United States Securities & Exchange Commission
Division of Investment Management
100 F. Street, NE
Washington, DC 20549
Attention: Jay Williamson and Lauren Hamilton

**Re: NexPoint Strategic Opportunities Fund
Registration Statement on Form N-2
File Nos. 333-230078 and 811-21869**

Dear Mr. Williamson and Ms. Hamilton:

On behalf of the NexPoint Strategic Opportunities Fund (the “Trust”), a Delaware statutory trust, please find below the Trust’s responses to the comments provided orally via telephone call on April 5, 2019 relating to the Trust’s Registration Statement on Form N-2 filed with the U.S. Securities and Exchange Commission (the “Commission”) on March 5, 2019 (Accession No. 0001193125-19-064212) (the “Registration Statement”).

For convenience, we have set forth each comment below, followed by the Trust’s response. Unless otherwise stated, capitalized terms have the same meaning as in the Registration Statement.

Accounting Comments

1. **Comment:** Please discuss the assessment of the significance of each subsidiary in light of Regulation S-X Rule 3-09 and Rule 4-08(g). These rules require the filing of separate financial statements for each subsidiary or otherwise to summarize the subsidiary’s financial information. Please explain how the Trust determined which balances to disclose and what information about the related subsidiaries to include in the notes to the financial statements.

Response: Separate assessment was performed for each significant subsidiary regarding Reg. S-X Section 3-09 and Section 4-08(g). In accordance with Regulation S-X Rules 3-09 and 4-08(g), NHF evaluates its unconsolidated controlled subsidiaries as significant subsidiaries under the respective rules. As of December 31, 2018, both NexPoint Real Estate Opportunities, LLC (“NREO”) and NexPoint Real Estate Capital, LLC (“NREC”) were considered significant unconsolidated subsidiaries under Regulation S-X Rule 4-08(g). Both subsidiaries are wholly owned by the Fund. Based on the requirements under Regulation S-X Rule 4-08(g), the summarized consolidated financial information of these significant unconsolidated subsidiaries is presented in Note 14. The auditor performed detailed testing relating to Section 3.09 during the audit of the financial statements in connection with the annual report. Separate 3-09 and 4-08(g) analysis was performed on Specialty Financial Products, Ltd, and these significance tests did not rise to the level of disclosure or consolidation.

2. **Comment:** In the Financial Highlights (page 47), please include the senior securities table (including bank loans) required by Item 4.3 of Form N-2.

Response: The Trust has included the senior securities table (including bank loans) required by Item 4.3 of Form N-2.

The following table sets forth additional information regarding the Trust's credit facility since inception:

<u>Year</u>	<u>Total Amount Outstanding</u>	<u>Asset Coverage per \$1,000 of Indebtedness</u>
2007	248,000,000	\$ 3,504
2008	141,000,000	\$ 3,562
2009	112,000,000	\$ 5,096
2010	120,000,000	\$ 5,106
2011	173,000,000	\$ 3,561
2012	225,000,000	\$ 3,117
2013	318,500,000	\$ 3,275
2014	385,336,455	\$ 3,230
2015	186,625,315 ¹	\$ 2,962 ^{1,2}
2016	124,983,081	\$ 4,319
2017	31,933,494	\$ 19,548
2018	239,507,979	\$ 4,205

- 1 Excludes borrowings of \$29,300,000 deemed to be temporary in accordance with Section 18 of the Investment Company Act.
- 2 The Trust closes its net asset value daily, and using asset prices available at the time of the December 31, 2015 NAV close, the Trust calculated asset coverage of greater than 300%. The Trust received updated prices for certain instruments in January that were used for financial reporting purposes. These updated prices pushed the percentage of asset coverage down to 296.2%. As of February 4, 2016, the date that the Trust declared the February monthly dividend, the percentage of asset coverage was over 300%.
3. **Comment:** Please complete the Dividends on Preferred Shares and Total Annual Expenses line items in the Summary of Trust Fees and Expenses table on page 45 as well as in each prospectus supplement.

Response: Because the Fund has no present intention of issuing Preferred Shares, the Fund has bracketed the amounts for "Dividends on Preferred Shares" in the expense Example. These amounts will be completed in any Prospectus Supplement filed by the Fund in connection with any offering of Shares. The Trust has completed the Total Annual Expenses line items in the Summary of Trust Fees and Expenses table as requested.

4. **Comment:** In footnote 3 to the Summary of Trust Fees and Expenses table on page 46, the Trust states that it assumes a leverage amount of 25% of net assets. In footnote 4 to the Summary of Trust Fees and Expenses Table and in the Example of Projected Expenses below, the Trust states that its assumed leverage is 20% of the Trust's total assets. Please reconcile these amounts.

Response: The Trust confirms that the leverage amount is 25% of the Trust's total assets and has revised the disclosure accordingly. The amounts in footnote 4 to the Summary of Trust Fees and Expenses and in the Expense Table have been adjusted accordingly.

5. Comment: In the Example of Projected Expenses on page 46, the Trust's expense ratio is estimated to be 2.75%. Please update the expense ratio to reflect the finalized Summary of Trust Fees and Expenses table.

Response: The Trust has updated the expense ratio to 3.34% to be consistent with the Summary of Trust Fees and Expenses and updated the disclosure accordingly.

6. Comment: Please confirm that the Trust will resolve all comments received on its Form N-CSR prior to requesting effectiveness of the N-2.

Response: The Trust confirms that it has resolved all comments received on its Form N-CSR and will incorporate such undertakings in future Form N-CSR reports.

Legal Comments

1. Comment: Please revise the Calculation of Registration Fee under the Securities Act of 1933 table on the Facing Page to list the title of all securities being registered.

Response: The Trust has revised the Calculation of Registration Fee under the Securities Act of 1933 table to list the Preferred Shares and Subscription Rights to Purchase Preferred Shares being registered.

2. Comment: The Commission staff (the "Staff") notes that the Trust is registering an indeterminate amount of preferred shares and subscription rights to purchase preferred shares. Please advise upon which provision of Rule 415 relief the Trust has relied for such registration, how the offering will work in practice, how any other terms of the offering will be set, and how these terms will be disclosed to investors. To the extent that the Trust is relying upon Rule 415(a)(1)(x), please explain how the offering fits within *Nuveen Virginia Premium Income Municipal Fund*, SEC Staff No-Action Letter (Oct 6, 2006). Otherwise, explain how you are eligible for such treatment under Form S-3.

Response: In a series of no-action letters, including *Pilgrim America Prime Rate Trust*, SEC Staff No-Action Letter (May 1, 1998) and *Nuveen Virginia Premium Income Municipal Fund*, SEC Staff No-Action Letter (Oct. 6, 2006), the Staff has permitted closed-end funds that are not interval funds to register shares in a shelf offering under Rule 415(a)(1)(x) of the Securities Act of 1933, as amended (the "**1933 Act**"). These no-action letters require that, in order to be eligible for such relief, a closed-end fund must meet the registration requirements of Form S-3, including:

- The Fund must be organized under the laws of the United States or any state or territory or the District of Columbia and have its principal business operations in the United States or its territories.
- The Fund must have a class of shares that is required to be registered pursuant to Section 12(b) or 12(g) of the 1934 Act, or the Fund must be subject to the reporting requirements of Section 15(d) of the 1934 Act.
- The Fund must be subject to the requirements of Section 12 or 15(d) of the 1934 Act and have filed all material required to be filed pursuant to Sections 13, 14, or 15(d) for a period of at least 12 calendar months.

- The Fund must have filed in a timely manner all reports required to be filed during that 12-month period and any portion of a month prior to the filing of the registration statement.
- The shelf offering must be for cash and the aggregate market value of the voting and non-voting common equity held by non-affiliates of the Fund must be \$75 million or more.

The Fund believes that it satisfies all of the registration requirements of Form S-3. Additionally, the Fund believes that its periodic filings satisfy the Commission's concerns about the quality of current information available to the public identified in the *Pilgrim America* and *Nuveen Virginia Premium* no-action letters.

The Fund notes that, in addition to the current information about the Fund available to the public through its periodic filings, even more up to date information will be available to prospective investors through the Prospectus Supplement that the Fund is required to file in conjunction with each offering. The Fund intends, with the advice and approval of its Board, to make periodic shelf offerings of its common shares, preferred shares, and/or subscription rights, and will make the terms of each such offering known to investors through a Prospectus Supplement filed pursuant to Rule 497 in advance of each offering.

For these reasons, the Fund believes that it is eligible to file a shelf registration statement in reliance on Rule 415(a)(1)(x) under the 1933 Act, and that such registration is consistent with the no-action positions taken by the Staff in *Pilgrim America* and *Nuveen Virginia Premium*.

3. Comment: In SEC Release No. 33-10506, the Commission adopted Rule 30e-3 and related amendments to certain forms, including Form N-2. Please review Item 1.1(l) of Form N-2 and include the disclosures therein as appropriate on the outside front cover of the Prospectus.

Response: The Trust confirms that it intends to rely on Rule 30e-3 and has included the required legend per Item 1.1(l) of Form N-2 on the outside front cover of the Prospectus.

4. Comment: The Staff notes that any offering of preferred shares or subscription rights is subject to the 1940 Act, as disclosed on page 2 of the Prospectus Summary. The 1940 Act is designed to protect investors and contains specific provisions to prevent inequitable and discriminatory treatment, and to protect investors' interests from dilution. Please confirm that the Trust's Registration Statement contains, and any supplement will contain, the disclosures required by Section 18(a)(2) of the 1940 Act. In addition, to the extent that you continue to offer common shares, please note that it is the expectation of the Staff that those disclosures will be updated to reflect the existence and terms of the senior securities and any increase in expenses associated with the increase in leverage.

Response: The Trust confirms that the Registration Statement contains, and any supplement will contain, the disclosures required by Section 18(a)(2) of the 1940 Act. Additionally, the Trust will update its disclosure related to the offering of common shares to reflect the existence and terms of senior securities and any increase in expenses associated with the increase in leverage.

5. Comment: On page 5 of the Prospectus Summary, the Trust states that any additional series of fixed rate preferred shares or subscription rights may be listed on the NYSE. Please note the Staff's expectation that any prospectus supplement will set forth definitive disclosure about the security's listed status and the Trust's intentions. If the preferred shares and/or subscription rights are unlisted, the Staff would expect the Trust to include disclosure on its cover page informing investors that their investment is unlisted and illiquid, and may have to be held to maturity.

Response: The Trust will set forth definitive disclosure about the security's listed status and the Trust's intentions in the prospectus supplement for the offering of the preferred shares and subscriptions rights.

6. Comment: Please revise the reference to "such securities" on page 6 of the Prospectus Summary in the third paragraph of under the "Investment Objectives and Policies" heading by stating, if true, that "substantially all of the Trust's investment portfolio is expected to consist of junk-rated securities and investments"

Response: The Trust has made the following revision: "substantially all of the Trust's investment portfolio is expected to consist of junk-rated securities and non-investment grade investments ...".

7. Comment: On page 8, please revise the "Use of Leverage" summary to disclose the leverage ratio of the Trust as of a recent date. In addition, please confirm you will provide pro forma style leverage ratios in connection with any offering of preferred stock. This disclosure should inform investors of the company's leverage ratio assuming sales of preferred shares. Additionally, to the extent the Trust offers subscription rights for preferred shares, please describe how the Trust anticipates structuring the securities in order to avoid breaching the leverage limits of the 1940 Act.

Response: The Trust has revised the "Use of Leverage" summary to disclose a leverage ratio of 25% as of August 13, 2019. Additionally, the Trust confirms that it will provide pro forma style leverage ratios in connection with its offering of preferred stock. In the event that the Trust issues subscription rights for preferred shares, it will treat such subscription rights as fully exercised at time of issuance for purposes of calculating its compliance with the leverage limits of the 1940 Act.

8. Comment: The General Instructions to Form N-2 state that "[t]he purpose of the prospectus is to provide essential information about the Registrant in a way that will help investors make informed decisions about whether to purchase the securities being offered." Further, the General Instructions require the prospectus to be "clear, concise and understandable." The "Principal Risks of the Trust" section in the Prospectus Summary starts on page 9 of the prospectus and ends on page 44. Similar information is then presented under "Principal Risks of the Fund" beginning on page 69. Please review and revise the risk disclosure as appropriate in light of the General Instructions. In addition, please ensure that the risk factors are tailored to the specific offering type (i.e., if a preferred shares offering, the Trust does not need to discuss risks of a common shares offering).

Response: As requested by the Staff, the Trust has revised and shortened the risk disclosure in the Prospectus Summary and ensured that the risk factors are tailored to the preferred shares offering.

9. Comment: On page 45 of the Prospectus, in the Summary of Trust Fees and Expenses table, the Trust presents the “Dividends on Preferred Shares” line item below the “Total annual expenses” line item. To the extent the Trust is obligated to make these payments with respect to fixed-rate preferred shares, the Staff believes these expenses to be similar to “interest payments on borrowed funds”, which are presented above in “Total annual expenses.” Please explain why the Trust’s presentation of dividends on preferred shares in the table is appropriate.

Response: Because the Trust has no present intention of issuing Preferred Shares, the Trust has not included such amounts in the expense Example. These amounts will be completed in any Prospectus Supplement filed by the Trust in connection with any offering of Preferred Shares.

10. Comment: On page 49 of the Prospectus, the Trust states that “We may enter into derivative transactions with third parties, or sell securities not covered by this Prospectus to third parties in privately negotiated transactions.” Please describe the types of transactions and structures envisioned by this disclosure.

Response: The Trust has revised the Prospectus to remove this disclosure.

11. Comment: On page 106 in the section titled “Committed Facility, Master Repurchase Agreement and Revolving Credit Agreement,” the Trust discloses that the Trust and two of its wholly-owned and unconsolidated subsidiaries, NREC and NREO, entered into a revolving credit agreement with KeyBank National Association that is full recourse and secured by collateral as defined in the KeyBank Credit Agreement. Please explain whether borrowings by NREC and NREO are guaranteed by the Trust and, if so, please explain how this is reflected in the senior securities table and related calculations. If such borrowings are not guaranteed by the Trust, please explain the arrangement in sufficient detail so the Staff may follow the Trust’s reasoning.

Response: The Trust acts as lead borrower and agent for the KeyBank Credit Agreement. As such, the borrowings by NREC and NREO are guaranteed by the Trust.

As discussed in footnote 7 on page 28 of the Trust’s December 31, 2018 Annual Report, the asset coverage is reflected at the Trust level. The NREC and NREO unconsolidated subsidiaries are not included in the senior securities coverage calculation. As discussed in footnote 6 on page 28 of the Annual Report, \$55.4mm is outstanding on the KeyBank facility for the Trust. The remaining balance of \$4.6mm is outstanding at NREO, an unconsolidated subsidiary (total of \$60mm available facility). Even if the additional \$4.6mm unconsolidated NREO balance were included as senior securities of the Trust, this would only decrease the Trust’s asset coverage from 420.5% to 414.5%, which the Trust believes is immaterial relative to the net assets of the Trust, and was therefore excluded from the footnotes.

12. Comment: Please provide the Staff with an update on the status of the judgment against Credit Suisse referenced under Legal Proceedings section on page 113 of the Prospectus. Please explain the circumstances in which potential recovery amounts would be considered in connection with any share repurchase offers.

Response: As of August 20, 2019, there have been no material updates in the case against Credit Suisse, which is under review with the Texas Supreme Court. After

consultation with its auditors, the Trust has determined not to include any potential judgment amounts in the net assets of the Trust at this time. The Credit Suisse judgment is public knowledge and has been disclosed in the Trust's periodic filings and in this Prospectus. Moreover, any share repurchase offers by the Trust would be pursuant to and in compliance with Rule 10b-18 under the Securities Exchange Act of 1934.

13. Comment: On page 43 of the Statement of Additional Information in the Financial Statements section, the Trust incorporates its audited financial statements included in its annual shareholder report for the period ended December 31, 2018. The SEC Staff notes that 30% of the Trust's portfolio consists of three majority-owned, unconsolidated entities. The Staff notes that these investments are fair valued and that the Trust recorded an unrealized gain of \$26.5 million in investments in affiliated issuers during the year ended December 31, 2018. Please explain the types of business and/or investment activities in which these entities are engaged as well as material factors behind the increase in valuations period to period. Also, given the amount of sales proceeds reported, please explain why there is no corresponding gain or loss on sales.

Response: NREC and NREO are both private, unconsolidated real estate investment trusts. NREC primarily invests in preferred equity real estate investments in multifamily properties. NREO primarily acquires direct or indirect interests in opportunistic real estate investments. The 2018 unrealized gain is attributable to the accrued returns associated with the preferred equity investments in NREC. The 2018 unrealized gain is primarily attributable to the fluctuation in property values or net asset value of underlying investments relating to two underlying investments in NREO. The 'Proceeds from Sales' relate to distributions at cost from the underlying subsidiaries back to the Trust. Any gain from the unrealized appreciation on the distribution would flow through Affiliated Income once the final tax impact has been determined.

Specialty Financial Products, Ltd., a separate subsidiary of the Trust, primarily invests in life settlement policies and major changes in the entity's value are driven by either the addition of new policies or maturity of existing policies. Minor fluctuations in value are caused by unique characteristics affecting each individual policy (gender, age, life expectancy estimates, etc.). There were no sales proceeds for Specialty Financial Products, Ltd. during the period.
